

Burning in the Open Information Sheet

Burning in the open and undertaking activities that involve fire, heat and the burning of materials is a concern to community safety, due to the potential threat of bushfire and the impacts of smoke and odour on air quality, amenity and health.

The Environmental Protection (Air Quality Policy) 2016 outlines the conditions and controls that are imposed on burning in the open and seeks to improve the health and safety of communities and the environment through improved air quality. In addition the Local Nuisance and Litter Control Act 2016 provides for the control and abatement of local nuisances which includes a nuisance caused by smoke, odour and fumes, all of which can be created through activities involving fire, heat and the burning of materials.

A person must not cause or permit the burning of matter by a fire in the open on any residential premises, street, road or laneway, except for:

- any fire within a dwelling;
- any fire used principally for the preparation of food or beverages or the heating of a potable liquid;
- the burning of charcoal within a brazier principally for the purpose of heating an area used for outdoor entertainment;
- burning off by a person for the purpose of reducing the hazard of bushfires, provided that the Council has permitted the burning-off by notice in writing.

Further and most importantly is the threat of bushfire, which requires strict controls over activities that involve fire, heat and the burning of materials. The following table lists the restrictions during the **Fire Danger Season** and on **Total Fire Ban** days and provides additional information relating to the specific controls for **Non-Fire Danger Season** and under other applicable legislation and the City of Salisbury By-Laws.

Please refer to the following tables on the controls how these apply to you and what restrictions are in place in your area, in or outside of these times. If you are unsure please contact the City of Salisbury's Fire Prevention Officer on 8406 8222.

Max size of 1 metre square.

Extinguishing agent on hand.

Fire supervised at all times.

Fire must be of size adequate for preparation of food or beverage. Dry wood, charcoal or dry plant material may be used.

On a Total Fire Ban Day

NO

Non-Fire Danger Season (usually 1st May - 30 Nov)

YES

As per "Within Fire Danger Season"

Other Legislation / Comments / Further Information

Even though a fire can be permitted for the purposes of cooking, you cannot create a condition that causes Environmental Harm or a Local Nuisance.

Environment Protection (Air Quality) Policy

Clause 8—Environmental harm

For the purposes of section 5(1)(b) of the Act, the emission to the environment of ash or other residual matter caused by burning a prohibited substance by fire in contravention of clause 7 is declared to constitute environmental harm.

Local Nuisance and Litter Control Act 2016

Section 17—Meaning of local nuisance

(1) For the purposes of this Act, local nuisance is—

(a) any adverse effect on an amenity value of an area that—

(i) is caused by—

(A) noise, odour, **smoke**, fumes, aerosols or dust; or

and

(ii) unreasonably interferes with or is likely to interfere unreasonably with the enjoyment of the area by persons occupying a place within, or lawfully resorting to, the area;

How to Apply for a Burning Permit

Environment Protection (Air Quality Policy) 2016

1. Please complete and return the attached application form via email or in person.
Please ensure your application includes:
 - location of proposed fire;
 - name of occupier/owner of property and contact details including phone numbers;
 - reason for wishing to burn in the open;
 - matter or class of matter to be burned;
 - quantity of matter;
 - period of time for which the consent is sought, and
 - payment of permit application fee
(Note: Payment of permit application fee is required prior to your application being processed)
 - payment of permit application fee (non-refundable) The application fee is set under section 188(1) (f) of the Local Government Act 1999
 - payment does not imply permission, formal written consent and a permit will be issued upon approval
2. A person must not cause or permit the burning of matter by a fire in the open on any non-residential premises without written consent (permit) of the Council, except for:
 - disposal of gaseous wastes;
 - recreational purposes, including barbecuing, picnicking, scouting or similar outdoor activities;
 - instruction in methods of fire-fighting;
 - the prevention and control of bushfires.
3. Where the Council grants consent (permit), the permit must be in writing and be expressed to operate for such periods and subject to such conditions as the Council considers necessary or desirable to control or minimise fire risks and air pollution from the land or premises concerned.
4. The requirements for consent should be restricted to the burning of prescribed pest plants, plants infested with a prescribed pest or disease, agricultural/horticultural green waste that cannot be recycled because of its large volume, or for ecologically accepted land management practices.
5. For Schedule 9 and Schedule 10 Permits under the Fire and Emergency Services Act 2005 please contact the Fire Prevention Officer on (08) 8406 8222

Hereby make application to the City of Salisbury for a permit for burning on non domestic premises for the following purpose (describe reason for fire):

Items/materials or class of materials to be burned: _____

Quantity of materials: _____

Period of time consent is sought, from: / / to: / /

Application Fee: \$55.00 Receipt Number:(Code CONBP)

Permit subject to conditions as specified over page:

THE ISSUING OF A PERMIT IS SUBJECT TO THE FOLLOWING CONDITIONS:

1. The premises and materials must be inspected by a Fire Prevention Officer prior to permits being issued.
2. A permit does not authorise a person to light or maintain a fire contrary to the terms of a total fire ban.
3. Permits will not be issued during the fire danger season.
4. Burning shall only be conducted between the hours of 10.00am and 3.00pm Monday to Saturday; weather permitting. The fire shall be completely extinguished except between those times.
5. Burning is not permitted to be conducted on Sundays and Public Holidays.
6. No Burning shall be within 4 metres of flammable material.
7. Adequate supply of water is to be available to extinguish the fire.
8. That a sufficient number of responsible persons to contain the fire must be present at the site of the fire from the time the fire is lit to the time it is completely extinguished.
9. Burning shall only be conducted so as not to cause nuisance to other properties and in such a manner to minimize the emission of smoke.
10. If you are in close proximity to the South of the RAAF Base at Edinburgh, you must contact the RAAF Base on (08)7383 2888 after 9am and before burning on the intended burning day for additional permission to ensure burning will not impact flight operations.
11. Burning is not permitted in a Residential area.
12. Only dry vegetation may be burned. No treated/painted timbers, poly or plastic is to be burned. Burning of these materials may result in expiations being issued and your permit being revoked.
13. Only light and maintain one small pile at a time.
14. Compliance with CFS Vegetation Pile Burning and CFS Broad Acre Burning Code of Practices
15. Any other specific conditions for each permit as identified by Fire Prevention Officer
16. If a permit is issued you must:
 - (a) notify the Council on 8406 8222 prior to lighting the fire.
 - (b) keep your permit with you while the fire is burning in the event of inspections.
17. Non observance of any condition may result in the permit being revoked and may incur a fine of \$300 or category B offence.
18. A permit may be revoked by an authorised officer (Fire Prevention Officer) or by the Chief Officer—
 - (a) if the permit holder fails to comply with a condition of the permit; or
 - (b) if the authorised officer or Chief Officer considers that sufficient reasons exist to justify the revocation of the permit.
19. The fact that the holder of a permit has complied with the conditions of the permit does not of itself relieve the holder from liability for any loss or damage caused by a fire lit under the authority of a permit.

I have read and understand the conditions:
