Colour	Fawn		
Vaccination Status	Unknown		
Date impounded	15/01/2025		
	Will need ENTROPIAN eye surgery (Common Sharpei Problem)		

About me

Hi there, my name is Jerry and it's very nice to meet you. I am a young lad looking for his forever home. I came into pound with some sore eyes, but I am doing much better now, however I will need surgery on my eyes just to stop my wrinkles folding in. This is a very common thing for us Shar pei's but once it's done I am will see so much better, right now the wrinkles get a little in the way. So it does take me a little bit to see what is going on, if you throw the ball I do see it, it just takes me a second or two longer than other dogs to focus. I love going out into the yard and playing with the carers, I used to be a little shy and reserved due to my eyes being a little blurry but now that I see better I am a lot more confident. I am now so much better when they put the lead on me because now I know what it is, it means walkies!!!! I have met other dogs and I am and was able to do that quite well but again was a little nervous and shy at first due to eye sight. The carers think I am really cute and say I look like a teddy bear, and I get really excited when they come to see me. They are so much fun. If you have a dog at home please ask to bring them with you and kids is fine too, just remember I can't see quite like I would like too so maybe little kids might not be right for me just yet until my eye sight is sorted out. But I am a cute and happy dog and I just want a family to call my own.
