Microchipped (Y / N)	Yes	Number:	
Colour	White and red roan		
Vaccination Status	Unknown		
Date impounded	18/02/2025		

About me

Hi there, I am the amazing Rachel. If you are looking for a cheeky, smart, energetic and beautiful girl, well look no further because here I am.

I keep my carers on their toes here and I love it, they call me cheeky, well that's because I am a water baby. I love water play time. One day we ere playing and then play time was over, I was most disappointed. So, when they went to fill up the water bowl in the play yard I may or may not have picked it up and ran away with it – hee hee – well I wanted to keep playing and it worked because we played chasey for a bit then. You know how it goes. “Rachel bring that back” I’m like “I can’t hear you can you speak louder” as I keep running around them with the bowl in my mouth. Gave them a good laugh. I did in the end put it down and give it back to them. They were puffed but not me. So, I guess I am looking for a home that has an outdoors energetic lifestyle.

I have met other dogs here and I can be a bit selective as I am not so much a puppy anymore meeting puppies was a little much for me, although they have the same energised nature as me I prefer dogs that are around my age. So, if you have a dog at home already please ask to bring them with you when you come to meet me.

As I can be a bit bouncy little kids might accidentally get knocked over although I won't mean too but the carers are working with me on this and to walk better one lead. I told you I was smart so I am getting better at it. Well that's enough about me, why don't you come and meet me and tell me all about you. Hope to see you soon.
