#### About me

Hi I am Ruby and its very nice to meet you. I am looking for a forever home and just wondering if that home is yours. Now I am a very sweet girl – although I was not real big on cuddles when I first arrived well that did not last long – my carers give me cuddles all the time and I do enjoy them. I have to let you in on a secret – I do love the male staff a lot more – hey what can I say – I am a girl that knows what she wants – but please don't think I don't like my female carers too because I really do but when a man walks in the room it makes my heart flutter. I have not really been in a family environment before but I am very open to it. If you have small kids it might take me a while to loosen up around them but I am never mean so you don't have to worry about that. I just think older kids might be better for me at first.

I have met other dogs here too and I don't mind other dogs I am happy to meet them, I just like to do my own thing, I'll happily watch the other dogs play but I would rather be your one and only. If you have kids and a dog home already please ask to bring them with you I would like to meet them, maybe your family is just the right fit for me. My carers call me sweet heart as they say my heart is just that .... sweet.... so, I really hope you want to come and meet me because I would really love to come and live with you and call your place home.
