Moved Cr K Grenfell  
Seconded Mr N Ediriweera

The Minutes of the Audit Committee meeting held on  
09 November 2021 be taken as read and confirmed.

**CARRIED**

## REPORTS

### *Administration*

#### **7.0.1 Future Reports for the Audit Committee**

*(please note there are no forward reports as a result of a Council  
resolution to be listed at this time)*

#### **7.0.2 Actions List**

Moved Mr N Ediriweera  
Seconded Mr C Johnson

That Council:

1. Notes the report.

**CARRIED**

### *For Decision*

#### **7.1.1 Audit & Risk Committee Annual Work Plan 2021/2022**

Moved Cr K Grenfell  
Seconded Mr N Ediriweera

That Council:

1. Approves the revised Audit & Risk Committee Annual Work Plan for 2021/2022 as set out in Attachment 1 to this report (Audit & Risk Committee, 16 February 2022, Item No.7.1.1).

**CARRIED**

### 7.1.2 3-Year Internal Audit Plan 2021/22-2023/24

Moved Cr K Grenfell  
Seconded Mr N Ediriweera

That Council:

1. Approves the updates made to the 3-year Internal Audit Plan 2021/2022 to 2023/2024 as set out in Attachment 1 to this report (Audit and Risk Committee, 16/02/2022, Item No.7.1.2) with the exception that:
  - (a) The IT Disaster Recovery Plan audit be considered by Administration for rescheduling to the last quarter of 2022/2023, and
  - (b) A further report be provided to the next Audit & Risk Committee meeting revising the 3-year Internal Audit Plan including part (a).
2. Approves the accompanying high-level indicative scope for pending audits as set out in Attachment 2 of this report (Audit and Risk Committee, 16/02/2022, Item No.7.1.2).

**CARRIED**

### 7.1.3 Outstanding Actions Arising From Internal Audits

Moved Cr K Grenfell  
Seconded Ms P Davies

That Council:

1. Notes the update in this report and the full Internal Audit Log Actions Register in Attachment 1 to this report (Audit Committee, 16/02/2022, Item No.7.1.3) and the Contaminated Land and Water Integrated Risk Management Action Plan prepared to implement the recommendation in Audit Log Action Register item 35, as outlined in attachment 2 of this report (Audit Committee, 16/02/2022, Item No.7.1.3).

**CARRIED**

**7.1.4 Risk Management and Internal Controls Activities**

Moved Mr C Johnson  
Seconded Ms P Davies

That Council:

1. Notes the update on Risk Management and Internal Controls Activities for 2021/2022 since the 9<sup>th</sup> November 2021 Audit & Risk Committee meeting, as set out in Attachment 1 to this report (Audit & Risk Committee, 16/02/2022, Item No.7.1.4).
2. Notes the Strategic Risk Register as set out in Attachment 2 to this report (Audit & Risk Committee, 16/02/2022, Item No.7.1.4).

**CARRIED**

**7.1.5 Audit & Risk Committee Performance Self-Assessment**

Moved Cr K Grenfell  
Seconded Mr N Ediriweera

That Council:

1. Approves the self-assessment survey questions, as set out in Attachment 1 to this report (Audit and Risk Committee, 16/02/2022, Item No. 7.1.5) for issuance to members of the Audit and Risk Committee for completion following the February 2022 Council meeting, with results to be collated and presented at the next Audit and Risk Committee meeting.

**CARRIED**

**OTHER BUSINESS**

**A&R-OB1** - Presentation on Business Transformation Project  
*(No Report - Verbal Presentation)*  
Presentation deferred to the next Audit & Risk Committee Meeting

The meeting closed at 7:23pm.

CHAIRMAN.....

| <b>ITEM</b>            | 7.0.2   |
|                        | <b>AUDIT AND RISK COMMITTEE</b>   |
| <b>DATE</b>            | 12 April 2022   |
| <b>HEADING</b>         | Actions List  |
| <b>AUTHOR</b>          | Hussain Rafeeu, Internal Auditor & Risk Coordinator, CEO and Governance   |
| <b>CITY PLAN LINKS</b> | 4.2 We deliver quality outcomes that meet the needs of our community<br>4.4 We plan effectively to address community needs and identify new opportunities   |
| <b>SUMMARY</b>         | An action list has been developed to capture actions arising out of the Audit and Risk Committee meetings. These actions do not replace the minutes from the Audit and Risk Committee, or the recommendations of the Committee that were submitted to the Council for adoption. They are included in this report to support the Audit and Risk Committee. |

## **RECOMMENDATION**

That Council:

1. Notes the report.

## **ATTACHMENTS**

There are no attachments to this report.

### **1. BACKGROUND**

- 1.1 The Audit and Risk Committee has requested that an action list be maintained and included as an item on the agenda for each meeting. This report contains a list of actions identified at previous Audit and Risk Committee meetings.
- 1.2 The list of actions does not replace the minutes from the Audit and Risk Committee.

### **2. REPORT**

- 2.1 The action list contains information regarding the date on which the action was identified, a description of the action, the action owner, the expected due date for completion of the action and the current status of the action.
- 2.2 Below is the list of actions arising out of the Audit and Risk Committee meetings, which has been compiled for the purpose of supporting the Audit and Risk Committee.
- 2.3 Actions will remain on the action list until reported as completed. Once the action has been completed, and that completion has been reported to the Audit and Risk Committee, the item will be removed from the actions list.

| No  | Date       | Action   | Owner                                 | Due Date                         | Status   |
|-----|------------|--|---------------------------------------|----------------------------------|--|
| 24. | 13/07/2021 | Provide an assurance map for the City of Salisbury and include an intermediate update on the status of overall risk management practices and plans at the City of Salisbury.   | Internal Auditor and Risk Coordinator | <del>Mar 2022</del><br>June 2022 | In Progress, extended to June 2022. Consultative sessions with all stakeholders not completed in time to complete the Assurance Map. |
| 28  | 16/02/2022 | For the 3-year Internal Audit Plan:<br><br>(a) The IT Disaster Recovery Plan audit be considered by Administration for rescheduling to the last quarter of 2022/2023, and<br><br>(b) A further report be provided to the next Audit & Risk Committee meeting revising the 3-year Internal Audit Plan including part (a). | Manager Governance                    | April 2022                       | Completed. Revised version included in the report to this Audit & Risk Committee meeting, item 7.1.2.                                |

### 3. CONCLUSION / PROPOSAL

- 3.1 An action list has been developed for the Audit and Risk Committee. The action list will be maintained and presented to each Audit and Risk Committee meeting with an update on status of the relevant items. Any additional actions identified by the Audit and Risk Committee will be included on the action list as they arise.

|                        |   |
|------------------------|---|
| <b>ITEM</b>            | 7.1.1   |
|                        | <b>AUDIT AND RISK COMMITTEE</b>   |
| <b>DATE</b>            | 12 April 2022   |
| <b>HEADING</b>         | Audit & Risk Committee Annual Work Plan 2022/2023   |
| <b>AUTHOR</b>          | Hussain Rafeeu, Internal Auditor & Risk Coordinator, CEO and Governance   |
| <b>CITY PLAN LINKS</b> | 4.2 We deliver quality outcomes that meet the needs of our community<br>4.4 We plan effectively to address community needs and identify new opportunities   |
| <b>SUMMARY</b>         | The Audit & Risk Committee Annual Work Plan for the next financial year 2022/2023 and the last remaining reporting period for 2021/2022 are attached for review and review by the Audit & Risk Committee. |

## **RECOMMENDATION**

### That Council:

1. Approves the revised Audit & Risk Committee Annual Work Plan for the next financial year 2022/2023 and changes to the remaining reporting period 2021/2022 as set out in Attachment 1 to this report (Audit & Risk Committee, 12 April 2022, Item No.7.1.1).

## **ATTACHMENTS**

This document should be read in conjunction with the following attachments:

1. Audit Committee Annual Work Plan 2022-2023

### **1. BACKGROUND**

- 1.1 The Annual Work Plan 2021/2022 was last presented to the Audit & Risk Committee (formerly, Audit Committee) at its meeting held on 16 February 2022.
- 1.2 The purpose of the Audit & Risk Committee Annual Work Plan is to ensure that all essential areas are covered by the Audit & Risk Committee, in performing its roles and responsibilities mandated under the *Local Government Act 1999* (“the Act”).

### **2. REPORT**

- 2.1 The key changes made to the Audit & Risk Committee Annual Work Plan 2021/2022 remaining reporting period (April 2022) are as follows:
  - 2.1.1 Fleet/Heavy Vehicle Management, High Value & Portable Asset Audit fieldwork was put on hold, following the 3-year internal audit plan rationalisation, and due to the Internal Auditor & Risk Coordinator having to focus more on risk management initiatives. This audit is scheduled to recommence in May 2022 and is expected to be completed and presented to the July 2022 Audit & Risk Committee meeting.

- 2.1.2 The Assurance Map planned for the April 2022 meeting is now rescheduled to be presented to the July 2022 meeting. Stakeholder consultation has not been completed in time to finalise the Assurance Map.
- 2.1.3 The Local Government Association Mutual Liability Scheme (LGAMLS) Risk Review 2021 Report was initially intended to be presented to April 2022 meeting. However, this item is now removed as a COS risk review was not scheduled by the LGAMLS for this year.
- 2.2 Items for the next financial year 2022/2023:
- 2.2.1 Standard items for every financial year including review of audited financial statements, meeting with the External Auditor, review of annual plan, budget, long term financial plan, review of treasury policy, review of internal audit plan, update on risk management and internal control activities are included around the usual reporting time periods.
- 2.2.2 The following internal audit reports are scheduled for submission to the Audit & Risk Committee:
- Cyber security improvement program pre-implementation audit report, deferred to July 2022 meeting, as it was not finalised by Opsys in time for April 2022 meeting.
  - Fleet/Heavy Vehicle Management, High Value & Portable Asset Audit report for July 2022 meeting.
  - Strategic Reporting Process Audit report for November 2022 meeting.
  - Data Governance Audit report for November 2022 meeting.
  - IT Investment Strategy report for February 2023 meeting.

The IT Disaster Recovery Audit is scheduled to commence in the last Quarter of 2022/2023 and therefore the report will be completed for the next reporting period in July 2023.

### **3. CONCLUSION / PROPOSAL**

- 3.1 This report outlines the new Audit & Risk Committee Annual Work Plan for 2022/2023 financial year period and the status of items for the last reporting period of 2021/2022.

|------------------------|---|
| <b>ITEM</b>            | 7.1.2   |
|                        | <b>AUDIT AND RISK COMMITTEE</b>   |
| <b>DATE</b>            | 12 April 2022   |
| <b>HEADING</b>         | 3-Year Internal Audit Plan 2022/23-2024/25  |
| <b>AUTHOR</b>          | Hussain Rafeeu, Internal Auditor & Risk Coordinator, CEO and Governance   |
| <b>CITY PLAN LINKS</b> | 4.2 We deliver quality outcomes that meet the needs of our community<br>4.4 We plan effectively to address community needs and identify new opportunities   |
| <b>SUMMARY</b>         | Recommendations from the last Audit and Risk Committee meeting are incorporated in the 3-year Internal Audit Plan 2022/2023 to 2024/2025. Changes since it was last presented to the Audit and Risk Committee in February 2022 are highlighted. |

**RECOMMENDATION**That Council:

1. Approves the updates made to the 3-year Internal Audit Plan 2022/2023 to 2024/2025 as set out in Attachment 1 to this report (Audit and Risk Committee, 12/04/2022, Item No.7.1.2).
2. Approved the accompanying high-level indicative scope for pending audits as set out in Attachment 2 of this report (Audit and Risk Committee, 12/04/2022, Item No.7.1.2).

**ATTACHMENTS**

This document should be read in conjunction with the following attachments:

1. 3 year Internal Audit Plan 2022-2023 to 2024-2025
2. Indicative Scopes for Pending Audits on 3-year Internal Audit Plan

**1. BACKGROUND**

- 1.1 Following the November 2021 Audit & Risk Committee's suggestion to rationalise the 3-year Internal Audit Plan, the Manager Governance held a workshop session with Executives to discuss this. Factors considered in this rationalisation process included the impact on resources, capacity and implications to perform audits and resolve audit recommendations.
- 1.2 The Audit & Risk Committee recommended in February 2022, to further prioritise and bring forward audits with a higher inherent risk rating.
- 1.3 This 3-year Internal Audit Plan therefore brings forward the audits with a higher inherent risk rating and defers other audits with a relatively lower inherent risk rating, in order to rationalise and balance the number of audits per year to a manageable level.

## 2. REPORT

Considering the Audit and Risk Committee's feedback and the current resource levels and organisational impact of implementing audit recommendations, it is recommended that Council should aim to limit the number of internal audits per year to four or five.

### 2.1 Audit Plan Rationalisation

The outcome of rationalisation of the 3-year Internal Audit Plan is summarised below:

| Original              |               | Rescheduled   |           |   |              |           |           |           |           |  |

After the above rationalisation, the audits falling within the 3 years, 2022/2023 to 2024/2025, are considered as the revised 3-year Internal Audit Plan, as set out in Attachment 1 to this report. The 3-year Internal Audit Plan covers a total of 14 audits including five audits for 2022/2023, five audits for 2023/2024 and four audits for 2024/2025.

## 2.2 Update on Completed and Ongoing Audits

### 2.2.1 Capital Works Project Audit

The internal audit report is finalised with management comments, and included in Agenda item 7.1.3, to be presented by Galpins.

### 2.2.2 Cybersecurity Improvement Program Pre-Implementation Audit

The internal audit report was not finalised by Opsys in time for the 12 April 2022 Audit & Risk Committee meeting.

### **2.2.3 Fleet, Heavy Vehicle, High Value and Portable Assets Audit**

The Fleet, Heavy Vehicle, High Value and Portable Assets Audit was commenced in November 2021 by the Internal Auditor and Risk Coordinator. Since then, following the rationalisation of the 3-year Internal Audit Plan and to focus more on risk management, assurance map and coordinating other audits, this audit has been put on hold, to recommence in mid May 2022. The audit will get completed for the July 2022 Audit & Risk Committee meeting.

### **2.3 Pending Audits to commence in the Current Year**

Additional audits are not scheduled to commence in this financial year, as per the revised 3-year Internal Audit Plan.

### **2.4 Indicative Scopes for Pending Audits for the 3-year Internal Audit Plan**

Indicative scopes for the remaining audits on the revised 3-year Internal Audit Plan are set out in Attachment 2 to this report, with changes marked in red.

Following the addition of the 3<sup>rd</sup> year (2024/2025) to this revised plan, and due to the impact of rationalisation of audits, the scoping documents for the following new audits are now included in the indicative scopes for pending audits in Attachment 2 to this report:

- IT Disaster Recovery Audit
- Business Continuity Audit
- Independent External Review of Internal Audit Function
- Community Consultation Process, and Community Perception Survey Effectiveness Audit

## **3. CONCLUSION / PROPOSAL**

This report outlines the progress made towards the completion of the 3-year Internal Audit Plan since it was last presented to the Audit and Risk Committee in February 2022 and seeks the Audit and Risk Committee's input and feedback on the revised 3-year Internal Audit Plan 2022/2023 to 2024/2025 and indicative draft scopes for pending audits.

| 5              | City of Salisbury financial sustainability is compromised by internal decisions and / or external events. | High          | Medium        | • Unplanned spending<br>• Inadequate valuation of assets or inaccurate depreciation<br>• Inadequate planning for infrastructure repairs or upgrades  | 3   | <b>Fleet, Heavy Vehicle, High Value &amp; Portable Assets Audit</b>  | <b>Fleet, Heavy Vehicle, High Value &amp; Portable Assets</b><br>This audit is to provide assurance that the established governance and risk management is sufficiently robust to protect and ensure the viability of the fleet, heavy vehicles, high value and portable assets.                                 | ■            |           |           |           | The City owns and operates a significant fleet of vehicles. There is a risk that the mismanagement of this fleet causes inefficiencies in regard to productivity and negative cost impact. This review is to provide assurance that the established governance and risk management in regard to management of this fleet is sufficiently robust to protect the viability of these assets.   | People & Culture;<br>Community Experience; Strategic Development Projects; Financial Services; Field Services; and Strategic Procurement              | Audit is rescheduled to recommence in May 2022 and report to Audit & Risk Committee in Jul 2022. |
| 8              | Lack of alignment and integrity of IT systems and data to support service delivery                        | High          | High          | • Lack of plans and procedures to inform response strategies when a cybersecurity incident occurs<br>• Cyber attack (Unauthorised access/network intrusion, denial of service, vulnerability exploitation, malware, social engineering, hacking, phishing, ransomware)<br>• Mobile device management with the potential for a lost or stolen device being used to access Council systems<br>• Lack of auditing and logging functions to capture events<br>• Lack of monitoring of cybersecurity threats to organisational assets<br>• Lack of communication/training for all staff regarding information security<br>• Information to facilitate action during a cybersecurity incident is not available | 4   | <b>Cyber Security Improvement Program - Pre-Implementation Audit</b> | <b>Cyber Security Improvement Program - Pre-implementation Audit</b><br>To assist management in identifying any gaps or areas for improvements in the approach, design and implementation strategy of the Cybersecurity Improvement Program after reviewing the COS's current cybersecurity control environment. | ■            |           |           |           | Cyber risk is recognised as an emerging and ever changing risk for organisations which may lead to financial loss, service interruption, data loss and/or reputation damage from an event impacting the City's information systems. The City acknowledges the need to strengthen cybersecurity controls and have initiated a 5 year Cybersecurity Improvement Program covering the elements of policy, awareness, defence, incident management and remediation, advisory, security solutions, and independent vulnerability assessments. A panel of contractors have been selected to provide services for this Cybersecurity Improvement Program, and given that the program has not commenced, Administration decided that there is less value add in undertaking a cybersecurity audit when a 5 year Cybersecurity Implementation Project is in pipeline to address cybersecurity. GM Business Excellence recommended to undertake a pre-implementation review of the Cybersecurity Implementation Project instead, to identify any gaps in the Program. | Business Systems and Solutions; and Financial Services  | Completed. Report finalised and being presented to April 2022 Audit & Risk Committee meeting.    |

Item 7.1.2 - Attachment 1 - 3 year Internal Audit Plan 2022-2023 to 2024-2025

Failure to correctly manage the future IT acquisitions and costings may impact the City of Salisbury with inefficient processes, legacy IT issues and lagging IT systems leading to inefficiencies, financial impost, service interruption and inability to maximize continued improvements. This review is to provide City of Salisbury with assurance that the IT Investment Strategy is sufficiently robust to support current and changing business requirements and continuous improvement initiatives.</p> | Governance; Business Systems and Solutions; Financial Services; and Strategic Procurement                           | Commencement of this audit is scheduled for Nov 2022, with the aim of reporting to Feb 2023 Audit & Risk Committee |
| 5              | City of Salisbury financial sustainability is compromised by internal decisions and / or external events. | High          | Medium        | <ul style="list-style-type: none"> <li>Inadequate revenue and a failure to maximise revenue from all sources</li> <li>Short term revenue is maximised at the expense of longer term revenue</li> <li>Revenue from the sale of assets (land) is not invested for the longer term benefit of the community</li> <li>Introduction of draft legislation regarding rate capping</li> <li>Fraud, misconduct or maladministration</li> <li>Changes to legislation/obligations imposed by other levels of government</li> <li>Potential new revenue streams/opportunities are not fully investigated</li> <li>Council ultimately becomes financially unsustainable</li> <li>City revenue has to be raised increasingly through more traditional methods (rate rises)</li> <li>Financial cost associated with falling rates revenue or increasing bad or doubtful debts</li> </ul> | 9   | <b>Rates Setting Process, Revenue and Debtors Audit</b> | <b>Rates Setting Process, Revenue and Debtors Audit</b><br>Ensure that the Rates setting process comply with legislative compliance requirements, and appropriately reviewed and validated for accuracy, impact on financial sustainability. Ensure that there are no revenue leakages, and that the revenue charged and collected are accurate and complete, and revenue and debtor management process is effective as per approved policies and procedures in accordance with relevant legislation. |              |           |           |           | <p>The City has recorded a total revenue of \$127.39m for FY2019/20 (\$125.75m for FY 2018/19), of which 80% is from Rates, 13% from Grants, Subsidies and Contributions, and remaining 7% from fees, and other charges/income. City of Salisbury has pre-agreed chargeable price amounts for Rates, Levies, Fees, Fines, concessions, rebates etc. used for invoicing purposes for the respective years.</p> <p>Debtors reflected on the Statement of Financial Position under Trade and Other Receivables amounts to \$8.07m for FY2019/20 (\$8.97m for FY2018/19).</p> <p>Although revenue and debtors testing is included within the external audit scope, the focus is more on true and fair view of revenue and debtors figure reflected on the financial statements; and the internal control assessment is often not reviewed in greater depth and breadth with expanded detailed testing of the revenue and collection process and controls as it is done in a typical internal audit. Therefore, it is recommended to cover this audit at least once in every 3 years as part of our internal audit program, as an industry best practice measure.</p> <p>The aim of this audit is to ensure that there are no revenue leakages, and that the revenue charged and collected are accurate and complete, and revenue and debtor management process is effective as per approved policies and procedures in accordance with relevant legislation.</p> | Business & Admin Support; and Financial Services  | Commencement of this audit is scheduled for May 2023, with the aim of reporting to July 2023 Audit & Risk Committee |  |

| 4              | Failure to manage the impact of environmental and social factors on Council Infrastructure, assets and services | High          | Medium        | <ul style="list-style-type: none"> <li>Inadequate understanding and planning for factors impacting the environment</li> <li>Failure to consider environmental consequences when planning and designing infrastructure</li> </ul> | 7   | <b>Tree Management Framework Audit</b>               | <b>Tree Management Framework Audit</b><br>Provide assurance that COS has established a Tree Management Framework for the management of its urban forest, covering policy measures in the area of tree planting, tree protection, tree removal, tree asset management, community consultation and engagement, and risk management, and ensure that the framework is adequate and implemented effectively. |              |           |           |           | ■                       | <p>The City has a street tree population of over 76,000, made up of more than 70 different species, within its streetscapes, parks and open spaces including reserves and wetlands, which contribute to the Key Direction 2 'Sustaining Our Environment' and Key Direction 3 'The Living City' in our City Plan 2035. A replacement value of approximately \$3.4m for trees is included within asset class 'Roads, Bridges and Footpaths' in the Audited Financial Statements for FY2019/20. COS has an ongoing Street Tree Renewal Program that aims to renew about 1,000 trees each year. To ensure the sustainability of this strategy, COS has established a Tree Management Framework for the management of its urban forest, covering policy measures in the area of tree planting, tree protection, tree removal, tree asset management, community consultation and engagement, and risk management. This review is to provide assurance that the City's Tree Management Framework is adequate and implemented effectively.</p>  | Community Planning & Vitality; Community Experience; Economic Development & Urban Policy; Development Services; Environmental Health & Safety; Financial Services; Communications & Customer Relations; and Field Services . | Proposed to defer from 2022/2023 to 2023/2024 in order to rationalise and balance the number of audits for year 1 and 2. |
| 5              | City of Salisbury financial sustainability is compromised by internal decisions and / or external events.       | High          | Medium        | <ul style="list-style-type: none"> <li>Fraud, misconduct or maladministration</li> <li>Unplanned spending</li> </ul>   | 10  | <b>Fraud and Corruption Prevention Control Audit</b> | <b>Fraud and Corruption Prevention Control Audit</b><br>Provide assurance that current practices are effective to prevent, detect, and manage risks related to fraud, corruption, misconduct and maladministration, and ensure that controls are implemented as per agreed policies and procedures.  |              |           |           |           | ■                       | <p>The revised Fraud and Corruption Prevention and Management Policy states that the City has a zero-tolerance stance towards fraud, corruption, misconduct and maladministration. The City has various policies and procedures and internal control measures for prevention of fraud, corruption, maladministration and misconduct, and independent assessment of systems and processes takes place as part of the annual external audit and remains a part of many internal audits. Given that there are continuous changes happening within the control environment, systems, process, and stakeholders involved, the emergence of newer risk and failure of controls may occur and therefore an assessment of controls for fraud is essential. Hence, the objective of this audit is to determine the effectiveness of fraud prevention strategies. This audit aims to ensure that current practices are effective to prevent, detect, and manage risks related to fraud, corruption, misconduct and maladministration, and ensure that controls are implemented as per agreed policies and procedures.</p> | All Divisions  | Retain as originally scheduled to commence in 2023/2024.   |
| 1-9            | All Strategic Risks in the Strategic Risk Register  | High          | High          | <ul style="list-style-type: none"> <li>Inadequate performance of risk assessments</li> </ul>   | 12  | <b>Risk Management Audit</b>                         | <b>Risk Management Audit</b><br>Ensure that the City of Salisbury has robust policies, procedures and framework in place for risk management and controls are in place to manage risks effectively.  |              |           |           |           | ■                       | <p>Risk Management being an integral part of our organizational process, this is one of the essential areas to incorporate in the Internal Audit Plan as a recurring audit at least every 3 years. - Ongoing Audits
- Audit Commencement Planned for Future Period

Item 7.1.2 - Attachment 1 - 3 year Internal Audit Plan 2022-2023 to 2024-2025

### **INDICATIVE SCOPES FOR PENDING AUDITS ON THE 3 YEAR INTERNAL AUDIT PLAN 2022/2023-2024/2025**

(The scopes are indicative only and in early draft format - actual scope will vary pending stakeholder engagement and further input)

#### **1. DATA GOVERNANCE AUDIT**

The overall objective of the audit on data governance is to provide assurance that City of Salisbury data governance processes ensure adequate protection of information and effective data management required to meet organisational needs.

The specific objectives for the audit will be to ensure that:

- The City has appropriate policies and procedures covering all aspects of data governance and the data management lifecycle, including collection, maintenance, usage and dissemination that are clearly defined and documented.
- **A process is in place for training of new staff and refresher training for existing staff to provide understanding of the Records Management system and requirements.**
- Internal audit complies with necessary statutory and regulatory requirements related to data management and data governance.
- The City has an adequate governance structure and processes in place to support the management of data, including data privacy, confidentiality and Freedom of Information requests and disclosures.
- Data collection and retention levels are adequate and effective as per policies and procedures and industry best practice guidelines.
- Data and database structures are designed and developed in an efficient manner to ease data analytics and avoid data redundancies.
- Audit trails and history logs on master data changes are available for traceability and reviewed.
- Data inventories are maintained and managed with appropriate levels of data security level category classifications, where relevant.
- Controls related to data content management, record management, data quality, data access, data sharing, data security and data risk management are adequate and implemented effectively.

#### **2. IT DISASTER RECOVERY AUDIT**

The overall objective of the audit is to provide assurance that City of Salisbury has adequate disaster recovery processes in place, and the processes are likely to be effective in the event of a disruption.

The specific objectives for the audit will be to ensure that:

- **A Disaster Recovery Plan exists with the exact steps to be covered if a disaster event occurs.**
- **The Disaster Recovery Plan steps captures the relevant scenario expectations including Maximum Allowable Outages (MAO), Recovery Point Objective (RPO) and Recovery Time Objective (RTO).**
- **The approved Disaster Recovery Plan is tested appropriately with relevant test case scenarios.**
- **Critical systems required to be recovered following a disaster event have been identified.**
- **Single points of failure have been identified.**
- **Business Continuity Plans are fully linked with IT disaster recovery arrangements.**
- **Server infrastructure includes testing of the ability to recover systems; and**
- **Backups are completed and taken off-site to provide additional resilience in the event of a disaster event.**

### 3. STRATEGIC REPORTING PROCESS AUDIT

The overall objective of the audit is to provide assurance on the processes and controls in place, specifically in relation to the City Plan, Business Planning and Annual Planning.

The specific objectives for the audit will be to ensure that:

- The City has policies and procedures governing the strategic planning process.
- The City is in compliance with statutory and regulatory requirements in terms of strategic reporting.
- Strategic plan documents align to the City's approved 4 Strategic directions and goals.
- The deliverables identified in City Plan 2035 cascades down to goals, deliverables and performance indicators reflected on other strategic planning documents.
- All required departmental and/or divisional Business Plans are established as a 4-year rolling plan covering all the essential areas and are reviewed annually by end of June.
- Budgets and resources are planned for all critical action points under immediately noticeable impact areas.
- Appropriate systems are in place to capture the strategic reporting information.
- Established mechanism report performances against strategic plans.
- The strategic information reported is effective, accurate, reliable and timely.
- There are clear roles and responsibilities for the strategic planning process.
- The strategic planning process is resourced appropriately.
- There is simplicity and ease of reporting processes
- There is transparency and accountability in the strategic reporting process
- Strategic reporting process has agreed performance indicators and are reviewed appropriately.

### 4. IT INVESTMENT STRATEGY AUDIT

The overall objective of the audit is to provide assurance that the strategy around IT investment is sufficiently robust to support the current business requirements and continuous improvement initiatives.

The specific objectives for the audit will be to ensure that:

- The City has a formalised and appropriate IT Investment Strategy process document.
- The City's IT investment strategy is aligned to the deliverables in City Plan 2035.
- IT investment strategy is fully integrated with an overall IS/IT strategy.
- IT investment strategy facilitates the maintenance of critical IS/IT infrastructure.
- IT investment strategy is fully backed by business cases and feasible economically and operationally.

### 5. RATES SETTING PROCESS, REVENUE AND DEBTORS AUDIT

The overall objective of the audit on Rate setting process is to ensure that the Rates setting process comply with legislative compliance requirements, and is appropriately reviewed and validated for accuracy and impact on financial sustainability. The overall objective on review of debtors and revenue side is to ensure that there are no revenue leakages, and that the revenue charged and collected are accurate and complete, and revenue and debtor management process is effective as per approved policies and procedures in accordance with relevant legislation.

The specific objectives for the audit will be to ensure that:

- The City has formalised and adequately designed policies, procedures and framework covering the rate setting process and aligned to the legislative requirements.

- Applicable policies, procedures and legislative requirements are being followed in cases during the rate setting process.
- **The relevant assumptions applied in the rate setting process are validated and tested appropriately.**
- The public consultation and feedback process are adequately administered and taken sufficient account of ratepayers' feedback on their proposals before finalising rates.
- Rates calculation and application of rates through the rate setting system is accurate.
- Local Government Financial Best Practice Model controls related to rates setting, revenue and debtors are implemented effectively.
- **There are no unnoticed, unaccounted, unrealised or unintended revenue losses.**
- The City has formalised and adequately designed policies and procedures covering the revenue and debtor management process.
- The City's revenue and debtor management processes are implemented effectively as per agreed policies and procedures.

#### **6. TREE MANAGEMENT FRAMEWORK AUDIT**

The overall objective of the audit is to provide assurance that COS has established a Tree Management Framework for the management of its urban forest, covering policy measures in the area of tree planting, tree protection, tree removal, tree asset management, community consultation and engagement, and risk management, and ensure that the framework is adequate and implemented effectively.

The specific objectives for the audit will be to ensure that:

- The City has formalised policies and procedures covering its Tree Management Framework that are adequately designed and established.
- The Tree Management Framework covers Environmental and Social factors including the trees in public open space and private sphere.
- The City's Tree Management Framework is implemented effectively.
- The City's tree management strategy is aligned to relevant deliverables in City Plan 2035.
- The City maintains appropriate level of traceability and verification and recording of Tree Assets reflected in the financial statements where relevant.
- Street Tree Renewal Program is implemented effectively.
- Public requests / complaints related to tree removal, tree planting, and other tree management related matters are resolved and reported effectively in accordance with clearly document policies and procedures.
- Any legislative compliance requirements related to tree management arising from Local Government Act 1999, Planning, Development and Infrastructure Act 2016, Commonwealth Environmental Protection and Biodiversity Conservation Act 1999, Natural Resource Management Act 2004, Environmental Protection Act 1993, Electricity Act 1996, Heritage Places Act 1993, Road Traffic Act 1961, Aboriginal Heritage Act 1988 and Water Industry Act 2012, are identified and their level of compliance assessed at a high level.
- City of Salisbury has efficient processes in place to identify and manage potential tree hazards and is implemented effectively.

#### **7. FRAUD AND CORRUPTION PREVENTION CONTROL AUDIT**

The overall objective of the audit is to provide assurance that current practices are effective to prevent, detect, and manage risks related to fraud, corruption, misconduct and maladministration, and ensure that controls are implemented as per agreed policies and procedures.

The scope of the audit is to ensure that the City:

- has an effective fraud control framework, which is integrated with the City's organisation-wide risk management strategy.
- has appropriate, well understood and current fraud control plans, which address major risks
- has established effective fraud controls.
- has adequate internal systems, training and reporting processes to support effective implementation and monitoring of fraud control plans.
- regularly test, monitor and report on the effectiveness of the fraud control plan and associated practices.
- review the outcomes of testing and use the insights gained to inform continuous improvement in fraud prevention and to update fraud control plans to ensure their ongoing appropriateness.

#### **8. RISK MANAGEMENT AUDIT**

The overall objective of the audit is to ensure that the City of Salisbury has robust policies, procedures and framework in place for risk management and controls are in place to manage risks effectively.

The specific objectives for the audit will be to ensure that:

- The City has formalised and adequately designed policies, procedures and framework covering its risk management process.
- The City's risk management processes are implemented effectively as per agreed policies and procedures.
- Risk tolerance limits and thresholds are defined along with corresponding action points on the risk management plan / framework for better transparency and avoidance of doubts.
- The City has up-to date registers for risk, including its strategic risk register and operational risk registers.
- Risk management is embedded within the whole organisational processes.
- Formalised and regular processes are implemented effectively for the identification of risks, assessment of risks, and treating risks.
- The status of risk treatment action plans (especially all the high-risk ones) is reported to senior management in a timely manner.
- The City has implemented any actions arising from LGA Mutual Liability Scheme review recommendations on risk management.

#### **9. BUDGETARY CONTROL AUDIT**

The overall objective of the audit is to ensure that the City of Salisbury has robust policies and procedures in place covering the annual budget preparation process, and that budgetary control processes are implemented effectively and comply with legislative requirements.

The specific objectives for the audit will be to ensure that:

- The City has formalised and adequately designed policies and procedures covering its budgetary control and management process and aligned to relevant legislations.
- The City's approved budget and budgetary control management processes are implemented effectively as per agreed policies and procedures and comply with relevant legislative requirements.
- Budget responsibility and accountability are clearly defined, appropriately allocated and regularly reviewed.
- Budget requirements are effectively reviewed and monitored on a regular basis.
- Budget variances are identified, properly reported and approved.

- Accurate, relevant and timely management information is produced and used effectively to inform decision making and reporting.

#### 10. BUSINESS CONTINUITY AUDIT

The overall objective of the audit is to assess the adequacy of practices and procedures to manage COS's business continuity. The audit will provide assurance that process and the measures in place to ensure that, in the event of a disruption, critical business operations can be maintained, or restored in a timely manner, with minimal impact to the CoS and its stakeholders.

The specific objectives for the audit will be to ensure that:

- The City has formalised an overarching policy / procedure document covering the business continuity management process.
- Critical systems and functions requiring Business Continuity Plans (BCPs) are identified.
- BCPs are current and adequately developed for all critical functions and systems.
- BCPs for critical functions and systems covers business resumption and continuity / contingency strategies.
- Business Impact Analysis approaches and process are determined and agreed in the BCPs.
- Effective communication plans are established to manage public and media relations in the event of a disruption.
- There is an agreed process in place for activating BCPs when emergencies occur.
- Business continuity plans are adequately monitored and maintained.
- A formalized business continuity training program exists, and all individuals responsible for developing and implementing BCP have been adequately trained.
- Business continuity plans are tested periodically and the test results and lessons learned are reviewed, documented, and applied.

#### 11. GRANTS MANAGEMENT AUDIT

The overall objective of the audit is to provide assurance that the grants provided to City of Salisbury community and businesses are awarded to eligible recipients, and managed effectively as per approved policies and procedures and aligned to the City Plan 2035.

The specific objectives for the audit will be to ensure that:

- The City's policies and procedures covering its grant management process are adequately developed for all categories of grants and communicated appropriately to the relevant stakeholders.
- The eligibility criteria and award process for all grant categories have been established and communicated, and have been complied with.
- COS has a central register of fund recipients, capturing the details of previous funding received.
- Conflict of interest avoidance measures are incorporated in the grant awarding process.
- Grants schemes are aligned to City Plan 2035.
- All grants have terms and conditions or signed agreements specifying the expectations on usage and reporting requirements agreed by the Grant Recipient and COS.
- COS have a monitoring process in place to ascertain that Grant Recipients adhere to timely reporting requirements in the Grant Agreement.
- Any unused funding from the grant is dealt with appropriately as per the grant agreement or agreed terms and conditions.
- Any contingency percentages included in the grant scheme are appropriately allocated and disbursed.

- COS measures the effectiveness of the grant schemes, and use feedbacks for quality assurance purposes in future planning and grant scheme designing.

## **12. BY-LAWS MANAGEMENT AND ENFORCEMENT PROCESS AUDIT**

The overall objective of the audit is to ensure that the City of Salisbury has appropriate policies and procedures for management and enforcement of by-laws, and ensure that the by-laws management and enforcement process is efficient, effective, and complies with relevant legislations.

The specific objectives for the audit will be to ensure that:

- The City has formalised and adequately designed policies and procedures covering the by-law management and enforcement process.
- The City has appropriate Structure and governance of by-law enforcement teams.
- Feedback from rate payers are appropriately incorporated and by-laws are reviewed and updated on a regular basis.
- Enforcement fines and penalties comply with relevant legislations and are charged accurately.
- The City's methods and approaches to enforcement are adequate and effective.
- There are clearly identified performance measures and metrics for by-law enforcement.
- Enforcement team is sufficiently staffed and appropriately trained.
- By-law related complaints are handled effectively.

## **13. INDEPENDENT EXTERNAL REVIEW OF INTERNAL AUDIT FUNCTION**

The overall objective of the audit is to obtain an understanding and form an opinion on the current Internal Audit function, determine the level of compliance with the Internal Audit Standards, and identify existing issues and areas for improvement.

The specific objectives for the audit will be to ensure that:

- The City has formalised and adequately designed policies and procedures covering the internal audit process.
- The City is in conformance with mandatory internal auditing requirements, including the Internal Audit Standards.
- The Audit & Risk Committee and management expectations of Internal Audit are being met.
- The Internal Audit is value adding and contributing to the organisational objectives.

## **14. COMMUNITY CONSULTATION PROCESS, AND COMMUNITY PERCEPTION SURVEY EFFECTIVENESS AUDIT**

The overall objective of the audit is to provide assurance that the City's community consultation and engagement process is adequate and effective, and ensure that the community perception surveys undertaken are effective and achieving intended objectives.

The specific objectives for the audit will be to ensure that:

- The City has formalised, adequately designed and current policies, procedures and framework covering the community consultation, engagement and community perception survey process.
- Any legislative compliance requirements in relation to community consultation process are met.
- Contemporary engagement tools and best practices are incorporated within the community consultation process.
- Community engagement strategies are developed and implemented effectively.
- Community need assessments are undertaken effectively through the community consultative process, and applied in policy, planning, strategy formulation and service delivery.

- Community perception survey results are evaluated appropriately and systematically apply any resultant learning outcomes in policy, planning, strategy formulation and service delivery.
- Community consultation, engagement initiatives and perception survey outcomes are reported to senior management and Council appropriately.

|                        |  |

| <b>ITEM</b>            | 7.1.3  |
|                        | <b>AUDIT AND RISK COMMITTEE</b>  |
| <b>DATE</b>            | 12 April 2022  |
| <b>HEADING</b>         | Internal Audit Report on Capital Works Projects Audit  |
| <b>AUTHOR</b>          | Hussain Rafeeu, Internal Auditor & Risk Coordinator, CEO and Governance  |
| <b>CITY PLAN LINKS</b> | 4.2 We deliver quality outcomes that meet the needs of our community<br>4.4 We plan effectively to address community needs and identify new opportunities  |
| <b>SUMMARY</b>         | As per the approved City of Salisbury's (COS's or the City's) Internal Audit Plan 2021-2023, a Capital Works Projects audit was undertaken by Galpins on a co-sourced model. The audit is intended to provide assurance regarding the effectiveness of the processes that are in place to manage, monitor and deliver capital works projects undertaken through City Infrastructure, in accordance with the Project Management Manual and/or Capital Delivery Framework. |

One high risk and two medium risk rated findings were identified as summarised below:

| <b>Finding</b>   | <b>Risk</b> |
|--|-------------|
| 1. Project Management Pressure Points                    | High        |
| 2. Completion and Recording of Key Project Documentation | Medium      |
| 3. Implementation of Previous Audit Recommendations      | Medium      |

## RECOMMENDATION

### That Council:

- Notes the final audit report for the Capital Works Projects audit with management comments as set out in Attachment 1 to this report (Audit & Risk Committee, 12 April 2022, Item No.7.1.3).

## ATTACHMENTS

This document should be read in conjunction with the following attachments:

- Final Internal Audit Report - CoS Capital Works Projects

### 1. BACKGROUND

- 1.1 This audit aligns with the City's current Strategic Risk 6 – *Ineffective governance results in the provision of services which do not meet community expectations.*

- 1.2 The objective of this audit is to provide assurance regarding the effectiveness of the processes that are in place to manage, monitor and deliver capital works projects undertaken through City Infrastructure, in accordance with the Project Management Manual and/or Capital Delivery Framework.
- 1.3 The specific objectives of this audit include the following:
- The City has approved policies, procedures and templates relating to the capital work projects process including project planning and initiation, project management, execution and delivery, scope change management, project reporting, monitoring and review.
  - Procurement and contract management related touchpoints are managed effectively and do not negatively impact capital work project delivery. [Note: Detailed testing of procurement and contract management processes are beyond the scope of this audit. Any reference to procurement and contract management in this audit is on high level relevant touchpoints only.]
  - The City complies with any statutory and regulatory requirements within the process of delivering and management of capital works projects.
  - Capital works projects align with City Plan 2035 strategic directions and foundations.
  - The processes in the Project Management Manual (Release 3) and/or the Capital Delivery Framework are implemented effectively for capital works projects.
  - Any relevant improvements to policies, procedures, templates, process, systems and controls related to capital works projects are identified.
  - A project brief / business case / Prudential Report or justification document (where relevant) is approved as per approved policies and procedures, and project delivery realises the intended business case justification outcomes.
  - Audit actions identified in previous audits have been resolved or are in the process of being actioned.

## 2. CONSULTATION / COMMUNICATION

### 2.1 Internal

- 2.1.1 General Manager City Infrastructure
- 2.1.2 Manager Infrastructure Delivery
- 2.1.3 Manager Infrastructure Management
- 2.1.4 Manager Strategic Procurement
- 2.1.5 Project Manager Infrastructure Delivery
- 2.1.6 Team Leader Project Management, Infrastructure Delivery
- 2.1.7 Team Leader Project Support, City Infrastructure

## 3. REPORT

- 3.1 Attachment 1 to this report is the final audit report.
- 3.2 The report identified a number of positive findings where the audit confirmed that controls are adequate and implemented effectively. Good practices observed include the following:

- 3.2.1 COS's Infrastructure Delivery Department is dedicated to managing capital works projects, including project managers and an administrative support team.
  - 3.2.2 The Capital Delivery Framework has been developed as part of an approach towards continuous improvement in the project management space.
  - 3.2.3 All interviewees reported that the "Finance1" software system provides useful support for tracking capital works projects, particularly project budgets.
  - 3.2.4 The implications of increases in the scale of projects to be delivered are understood by Executives, who are introducing/supporting a number of measures to improve outcomes across the portfolio of projects. This includes an approach to hold meetings with Managers/relevant stakeholders from within the Division and also key stakeholders. The intent is to facilitate communication and track timelines/outcomes in a transparent way.
- 3.3 The audit reviewed the Project Management Manual (Release 3) and all related templates, Capital delivery Framework and all related templates, Procurement Framework and related documents including Procurement Policy, Financial Delegations Register, Procurement Services Guideline -Quotations, and How to Purchase Matrix.
- 3.4 Seven projects were selected for sample testing, including:
- Webb Reserve – local flooding mitigation work
  - Wendy Ave & Avis Crescent, major flood mitigation works
  - Burton Community Hub
  - George St & Belfree Drive Roundabout
  - Pauls Drive, VView - major flood works
  - Mawson Lakes Dry Creek Footbridge
  - Bridgestone Reserve Track & Field complex
- 3.5 Other key documentation reviewed during the audit includes:
- project brief
  - design report
  - executed contract
  - practical completion certificate
  - closeout documentation
  - change control documentation
  - budget documentation.

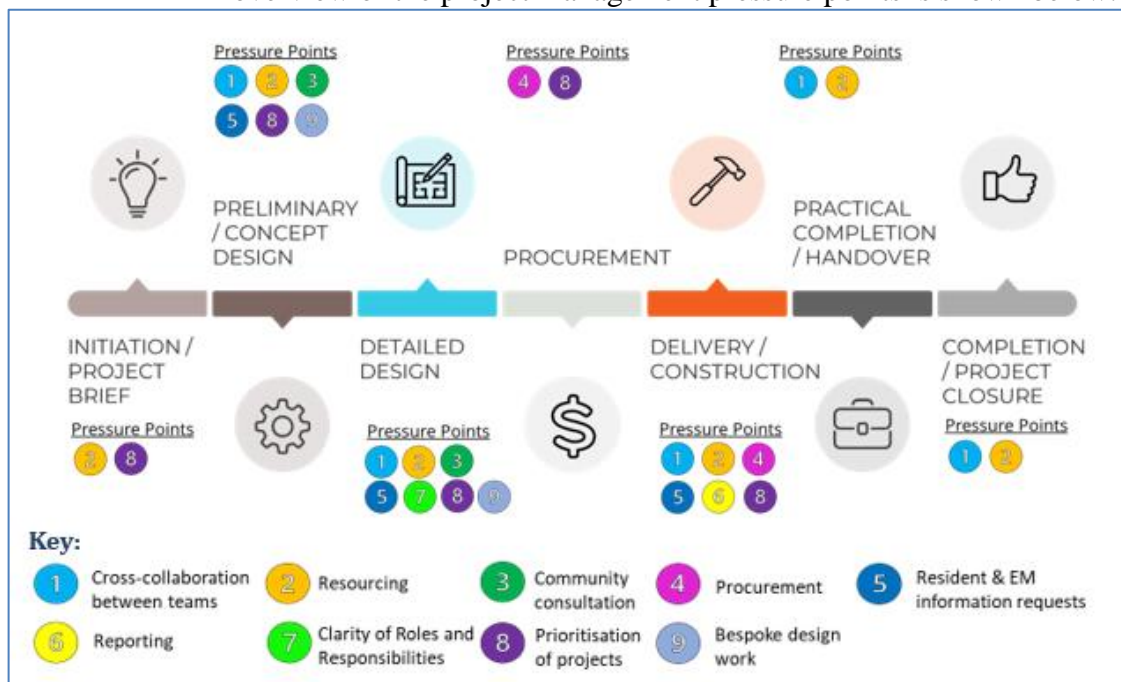

- 3.6 Based on the work undertaken, and when considering the design and/or effectiveness of controls collectively, the Audit concluded that the control environment is ‘**Partially Effective**’ in mitigating the strategic risks, and the process maturity level was determined to be at a “**defined**” stage, which demonstrates that there are sets of defined and documented standard processes established and subject to some degree of improvement over time. These standard processes are in place (i.e. they are the Australian Standard/International Standard processes) and used to establish consistency of process performance across the organization. These rating definitions are detailed in Appendix 2 and 3 respectively, of the report in Attachment 1.
- 3.7 All findings and recommendations are agreed with management comments and actions, identifying the relevant action owners and target action completion deadlines.
- 3.8 The report identified three findings (one high risk and two medium risk rated) as summarised below:

3.8.1 **Finding 1: Project Management Pressure Points (*High Risk*)**

**Recommendation 1:**

Review the opportunities identified by Internal Audit to relieve pressure points in the project management lifecycle, and develop a plan to implement as many of these options as practicable. Provide this plan to the Audit & Risk Committee.

An overview of the project management pressure points is shown below:

Full explanation of the nine pressure points and opportunity to relieve pressure on each of the key pressure points are detailed in the final audit report as in Attachment 1 to this report.

The Administration’s agreed comment was that the City’s Infrastructure delivery team will review the opportunities to relieve the pressure points & develop an action plan to implement the recommended options where

possible in consultation with other relevant stakeholders, and will update the status to Audit & Risk Committee.

Subsequently, the Administration has formed a Project Management Audit Action Group to comprehensively go through the identified pressure points and resolve any areas for improvements pertaining to the Capital Works Projects. This team is headed by the General Manager City Infrastructure and includes representative key stakeholders from Infrastructure Delivery, Procurement, Finance, Community Development, Economic Development, and Governance team.

The Action Plan agreed by the team is as follows:

| No. | Action   | Outcome   | Milestone Date |
|-----|--|---|----------------|
| 1   | Convene team   | Explain background to team forming, timeframe & outcomes  | 08/03/2022     |
| 2   | Overview of Capital delivery Framework to team             | Team understanding of existing framework, including documentation templates   | 29/04/2022     |
| 3   | Discussion on Stages 1 & 2 of CDF                          | Identify improvements related to identified pressure points for Initiate & Preliminary/ Concept design stages                       | 13/05/2022     |
| 4   | Discussion on Stage 3 & 4 of CDF                           | Identify improvements related to identified pressure points for Detailed design & Procurement stages                                | 27/05/2022     |
| 5   | Discussion on Stages 5, 6 & 7 of CDF                       | Identify improvements related to identified pressure points for Practical Completion/ Handover & Completion/ Project Closure stages | 17/06/2022     |
| 6   | Review Improvements to CDF to relief pressure points       | Agreed improvements to the CDF  | 01/07/2022     |
| 7   | Summary report to Governance closing out Audit Action Item | Audit agreement on close out report   | 22/07/2022     |

### 3.8.2 **Finding 2:** Completion and Recording of Key Project Documentation (*Low Risk*)

The audit reviewed whether the “must have” key documentations including project brief, design report, executed contract, change control documentation, evidence of practical completion, and close out documentation are in place for the seven sample projects tested. The audit identified that key documents are in place for majority of the projects tested. Finding 2 of the final report tabulates the instances of missing or incomplete key documents. The report furthermore highlights that missing or incomplete closeout documentation may reduce the opportunity for Administration to learn from previous experiences and use that information to promote future successful project outcomes.

**Recommendation 2:** Emphasise the requirement for critical project management documentation to be prepared and retained in the records management system, in particular:

- key documentation prepared by external consultants such as design reports
- project closeout documentation.

Strategies to promote compliance may include but not be restricted to:

- reinforcing during project meetings the importance of preparing and storing key documents
- management not allowing projects to progress in the absence of key documentation
- introducing a quality oversight function/role to assist with ongoing assurance that key requirements are being met
- spot checking the completion of key documentation, particularly for high risk / value projects.

Administration has now implemented this recommendation by firstly providing further training on the process to ensure records are maintained; and secondly by rolling out new reporting of procedure compliance requirements to address highlighted areas on critical documentation.

**Recommendation 3:** Ensure there is clarity around which Contract Delivery Framework (CDF) forms are mandatory to complete for each project (for example by project size, value, complexity).

Administration has now clarified that requirement by requiring to identify all mandatory CDF documents within either Project Initiation or Project Brief document, to enable each project to be scaled accordingly to the requirements and risk profile. This will be reflected on the CDF page on intranet and communicated to all relevant stakeholders.

3.8.3 **Finding 3:** Implementation of Previous Audit Recommendations (*Medium Risk*)

The audit identified that COS has made strong progress in implementing recommendations from the 2018 audit report on capital project management. However, there is opportunity to continue strengthening, particularly in relation to finalising the new Capital Delivery Framework and associated expectations.

**Recommendation:**

On a risk basis, review the previous 2018 internal audit recommendations and progress implementation. Specifically consider implementation/progress in relation to:

- finalising the Contract Delivery Framework and in particular clarification of which requirements/templates are applicable to each project
- ensuring that contractor site induction occurs and that evidence is recorded.

Timelines are agreed for resolving these two partially implemented recommendations.

Administration confirmed that while the Capital Delivery Framework is in place, a new Capital Delivery Framework Manual compiling the CDF processes will be developed by 31 May 2022.

Training is now provided to the relevant key stakeholders to address the other matters related to recordkeeping.

#### **4. CONCLUSION / PROPOSAL**

- 4.1 The Internal Audit has, in collaboration with interviewees, identified nine ‘pressure points’ across the project lifecycle that may impact on the successful delivery of projects. Opportunities to relieve these pressure points have also been identified. The audit notes that it is not critical that all available opportunities are implemented, however management should review identified opportunities and develop a plan to implement as many of these as reasonably practicable.
- 4.2 The audit also identified some key areas completion and recordkeeping of key documentations related to capital works project, and also identified two partially implemented recommendations related to previous audit.

## 1. Executive Summary

### 1.1 Background

The City of Salisbury 2019/2020 Annual Report highlights a \$100m COVID-19 Infrastructure Recovery Program planned to be carried out across two years 2019/2020 and 2020/2021, which has been designed to support local businesses and employment and stimulate economic recovery by accelerating the existing capital works program. This includes a number of large-scale projects including the development of a Burton Community Hub, the revitalisation of John and Church Streets in Salisbury's CBD, the Paddocks Master Plan, and a number of other projects that promote City pride such as upgrades to playgrounds and dog parks, sporting fields and streetscape renewal. The value of planned projects has continued to grow since publication of the annual report. The City Plan 2035 identifies further strategic projects to be delivered by Council within the next four years, as part of the delivery of City's vision to be 'a progressive, sustainable and connected community'.

The City developed a Project Management Manual (Release 3) which explained the process to be followed for the two categories of capital works projects, namely "Project" and "Major Project". It detailed project management processes for each category. The Project Management Manual has been replaced by the Capital Delivery Framework, including new procedures and templates in use from 1<sup>st</sup> June 2020. Testing conducted for this audit covered projects operating under both frameworks.

### 1.2 Objectives

The objective of this audit was to provide assurance regarding the effectiveness of the processes that are in place to manage, monitor and deliver capital works projects undertaken through City Infrastructure, in accordance with the Project Management Manual and/or Capital Delivery Framework.

The full audit scope and approach is included in **Appendix 1**.

### 1.3 Relevant Strategic Risks

The audit scope addresses *Strategic Risk 6: Ineffective governance results in the provision of services which do not meet community expectations.*

### 1.4 Good Practices Observed

- ✓ CoS' Infrastructure Delivery Department are dedicated to managing capital works projects, including project managers and an administrative support team.
- ✓ The Capital Delivery Framework has been developed as part of an approach towards continuous improvement in the project management space. The framework covers an appropriate range of project management activities across the lifecycle of projects.
- ✓ All interviewees reported that the Finance1 system provides useful support for tracking capital works projects, particularly project budgets.

Capital Works Projects

Liability limited by a scheme approved under Professional Standards Legislation

3

- ✓ The implications of increases in the scale of projects to be delivered are understood by Executive, who are introducing/supporting a number of measures to improve outcomes across the portfolio of projects. This includes an approach to hold meetings with Managers/relevant stakeholders from within the Division and also key stakeholders. The intent is to facilitate communication and track timelines/outcomes in a transparent way.

### 1.5 Key Findings and Recommendations

This internal audit project aimed to assess the controls established to address strategic risk that *'Ineffective governance results in the provision of services which do not meet community expectations'* in the context of capital project management. Based on the work undertaken, and when considering the design and/or effectiveness of controls collectively, we conclude that the control environment is: **'Partially Effective'**<sup>1</sup>, and the process maturity is **'Defined'**<sup>2</sup>.

These ratings should be viewed in the context that CoS has only recently introduced the Capital Delivery Framework to replace the previous framework and strengthen internal project management. In addition, the ratings consider the fact that, as a result of significant growth<sup>3</sup> in the scale of projects to be delivered, there is a need to adapt and strengthen existing processes to meet increased demand on resources. Internal Audit has, in collaboration with interviewees, identified nine 'pressure points' across the project lifecycle that may impact on the successful delivery of projects. Opportunities to relieve these pressure points have also been identified. It is not seen as critical that all available opportunities are implemented – in fact, it may be impractical to implement all strategies at once. Most importantly, management should review identified opportunities and develop a plan to implement as many of these as reasonably practicable. In doing so, each strategy implemented will help to reduce pressure on internal resourcing and improve the likelihood of successful project outcomes across the portfolio of projects.

Sample testing of project documentation focussed on key documents required by the applicable project management framework (dependant on the date of project initiation) considered as critical to project success. This testing identified the existence of all required contracts and project briefs, as well as examples of missing documentation, in particular in relation to project closeout and post implementation reviews. Recommendations have been provided to strengthen enforcement and monitoring of key document preparation. The review of whether the final deliverable meets the initial design brief is an important way to help ensure that deliverables meet all qualities of a successful project – time, cost **and** quality (including meeting the design brief).

Findings are summarised over page.

<sup>1</sup> Please refer to Appendix 2 for further information.

<sup>2</sup> Please refer to Appendix 4 for further information.

<sup>3</sup> Note, this growth will be for the short-medium term only, in line with the availability of COVID stimulus funding.

## 2. Detailed Findings and Recommendations

|   |                   |                    |
|---|-------------------|--------------------|
| <b>2.1 Project management pressure points</b> | Audit Risk Rating | Client Risk Rating |
|   | High              | High               |

### Key Findings

- There are pressure points across the project management lifecycle that reduce the likelihood of successful outcomes across the portfolio of projects, particularly as the volume of projects has increased and has placed pressure on existing internal systems.
- A number of pragmatic opportunities to relieve these pressure points have been identified by Internal Audit and staff.

### Discussion

CoS is working through a large program of capital projects over the next 12 months, representing a significant increase in scale compared to historic levels. This increased volume of projects will put pressure on existing internal and external resources, systems and processes, and magnify existing pressure points and bottle necks. Historically, delivery of CoS projects has not been evenly spread across the financial year, and have tended to follow a pattern of being mostly completed late in the financial year. This may put pressure on timely project completion, handover and capitalisation and the quality of the final deliverable. In the earlier part of the financial year, there is a spike in workload and time pressure on the design and consultation stages. If this trend continues for a larger scale of projects, this can have implications for project quality, ability to meet timeframes, and financial data quality resulting from time pressure on capitalisations and WIP recognition.

Internal Audit has sought to identify and summarise pressure points in the project lifecycle, and with input from internal stakeholders provide recommendations for strategies to allieviate these pressure points (either permanently, or temporarily during this peak in project demand). Council may choose to implement some or all of these recommendations - any strategies to allieviate pressure points will improve the likelihood of a successful program of project delivery.

### Risk Exposure

- Failure to adjust current processes to achieve time / cost / quality requirements of projects.

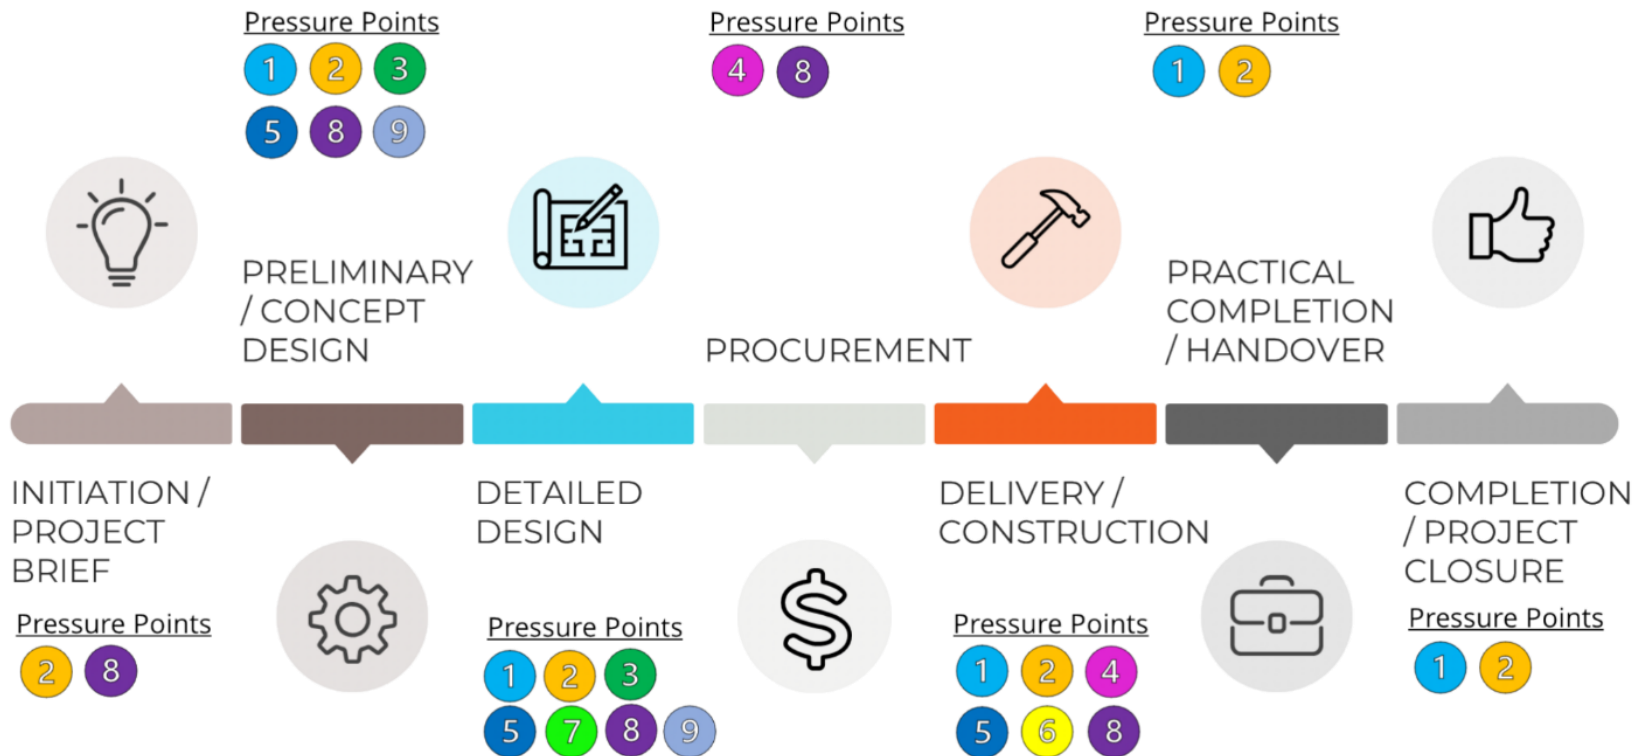

|                  |   |
|------------------|---|
| Recommendation 1 | Review the opportunities identified by Internal Audit to relieve pressure points in the project management lifecycle, and develop a plan to implement as many of these options as practicable. Provide this plan to the Audit & Risk Committee.   |
| Agreed Actions   | The City's Infrastructure Delivery Team will review the opportunities to relieve the pressure points and develop an action plan to implement the recommended options where possible in consultation with other relevant stakeholders, and will update the status to Audit & Risk Committee. |
| Action Officer   | Jarred Collins, Manager Infrastructure Delivery.  |
| Completion Date  | 30 June 2022  |

Summary of project management pressure points and opportunities to relieve pressure

| Pressure Point  |   | Opportunity to relieve pressure   |
|---|---|---|
| <p style="text-align: center;"><b>1</b></p> <p><b>Cross-collaboration between teams</b></p> <p>Level of criticality: High<sup>4</sup></p> | <p>Successful delivery of projects requires coordinated activities across a range of teams. The large upcoming portfolio of projects to be delivered requires coordination at a macro, whole of project portfolio level, as delays in one project can have a flow on effect across other projects. There are opportunities to optimise activities by understanding interdependencies and commonalities between projects.</p> <p>Historically, there has been a lack of formal structure in place to achieve cross collaboration for a portfolio of projects of the size and scale currently facing CoS. As such, there is a need to embed stronger, formal mechanisms to ensure regular, structured collaboration occurs.</p> <p>Additionally, interviewees reported that the roles and responsibilities of staff across the lifecycle of projects has been 'siloe'd', with separate teams responsible for different project stages (e.g. Infrastructure Management Team for concept / pre-design, Infrastructure Delivery Team for detailed design and delivery / construction, etc). This has been reported to have, at times, created circumstances where delivered projects have differed from concept design.<sup>5</sup></p> <p>Two initiatives have recently been initiated to address these issues:</p> <ol style="list-style-type: none"> <li>1. The introduction of monthly, cross-divisional five-hour project management meetings (including stakeholders from Infrastructure Management, Infrastructure Delivery and Procurement), providing a structured forum to review the project schedule in its entirety, facilitate communication and address any current or emerging issues in a wholistic manner.</li> <li>2. The creation of a 'Project Lead/Overall Project Manager' role for larger projects, with responsibility to oversee projects from start to finish, providing greater accountability and more wholistic oversight that final deliverables meet original intent.</li> </ol> | <p>Audit supports the new initiatives introduced by management and executive (being the monthly cross-divisional meetings and introduction of a Project Lead role to oversee the full lifecycle of larger projects).</p> <p>To ensure the success of these important initiatives, it is critical to ensure that strong leadership and support for these initiatives continues, and that the structure of meetings and role of Project Leads are allowed to evolve to meet the changing needs of the business.</p> |

<sup>4</sup> Level of criticality is rated according to internal audit's judgement of the perceived potential value of addressing each pressure point. Options include 'high', 'moderate' and 'low'.

<sup>5</sup> It is important to highlight that Internal Audit did not specifically test this point – the intention is to highlight the need for communication and collaboration between teams.

| Pressure Point  |  | Opportunity to relieve pressure  |
|---|--|--|
| <p style="text-align: center;"><b>2</b></p> <p><b>Resourcing</b></p> <p>Level of criticality: Moderate</p>        | <p>The size and scale of capital projects to be delivered by CoS has grown exponentially in recent years, reportedly tripling in size over recent years from historic levels of around \$30 million to over \$100 million in 2021/22. Comparatively, managers estimate that staffing for the Infrastructure Delivery and Infrastructure Management teams has increased by approximately 3 staff (6%), to a total of around 52 FTE across the two divisions. Noting not all FTE are dedicated to projects. An additional project resourcing request was approved, however it was reported to be difficult to fill these positions in the current market environment.</p> <p>Such a comparison is not an entirely fair indicator of potential resourcing constraints, as consultants and contractors are used to supplement shortages in internal staffing – a strategy which also allows greater flexibility to meet peaks and troughs in demand. However, the increase in project spend relative to staffing increases is indicative of the additional pressure placed on internal resourcing.</p> <p>The issue of resourcing is particularly challenging in the current economic and political environment. Significant volumes of Covid stimulus funding is being distributed across local and state government, putting significant pressure on the supply of qualified and experienced consultants and contractors to meet growing demand. This level of competitiveness in the market is likely to make it more challenging to find and engage suitable consultants and contractors in a timely manner, and also puts upward pressure on prices. There is an expectation that market conditions, and the scale of the CoS capital program, will return to pre-covid levels at some stage.</p> | <p><b>Short term strategy:</b> Determine the next 18 months of resource requirements and recruit staff / contractors / consultants to fill gaps. Liaise with Procurement to determine a strategy for approaching the market for consultants in the context of a highly competitive current environment. This should include consideration of documented exemptions from procurement policy where appropriate.</p> <p><i>Note: Audit notes and supports the participation of a Procurement Team representative at the recently introduced monthly cross-divisional meetings. This may provide one suitable forum to progress these discussions.</i></p> <p><b>Medium term strategy:</b> Develop a resource / workforce plan for the Infrastructure Delivery and Infrastructure Management teams to determine the optimal current and projected FTE and skills mix and to ensure appropriate strategies are in place to meet these requirements.</p> |
| <p style="text-align: center;"><b>3</b></p> <p><b>Community consultation</b></p> <p>Level of criticality: Low</p> | <p>Council has a strong focus on quality community consultation, and through its Community Experience Charter aims to ‘deliver an exceptional community experience that exceeds community expectations.’</p> <p>To achieve this goal, Council’s approach to community consultation goes beyond meeting minimum legislative requirements. With these high expectations comes an increase in staff resources required to plan, administer, and respond to community consultation, as well as increases in required timeframes for projects to allow for community consultation.</p>  | <p>Consider ways to facilitate timely community consultation, with potential examples including but not limited to:</p> <ul style="list-style-type: none"> <li>• for which an ‘inform’ rather than ‘consult’ approach is sufficient</li> <li>• identifying when ratepayers can be provided with a limited list of choices to provide feedback on, rather than seeking open-ended feedback on preferences</li> </ul>  |

Capital Works Projects  
 Liability limited by a scheme approved under Professional Standards Legislation

| Pressure Point  |  | Opportunity to relieve pressure  |
|---|--|--|
|   | <p>Staff have reported increasing time and effort required to implement community consultation policies.<sup>6</sup> This has an impact on the available time to perform project management activities. Additionally, interviewees reported that the additional consultation often takes the form of open-ended questions regarding ratepayer preferences and desired functionality, rather than providing a limited list of choices. This is reported to add significant time to feedback evaluation response to ratepayers, as well as encouraging an increased volume of bespoke designs.<sup>7</sup></p> <p>Whilst Audit fully supports the intent of Council’s approach to community consultation which goes above and beyond legislative requirements, its strict application in the current environment may impact Council’s ability to deliver the program of capital projects in a timely manner. Recognition of the time required to consult effectively also needs to be recognised within project schedules.</p>   | <ul style="list-style-type: none"> <li>reviewing the need to consult at multiple project stages</li> <li>ensuring that adequate time and lead time for consultation is recognised within project schedules.</li> </ul> <p><i>Note: Minimum legislative requirements for consultation must, of course, continue to be met in all cases.</i></p>   |
| <p><b>4</b></p> <p><b>Procurement</b></p> <p>Level of criticality:<br/>Moderate</p> | <p>Delays in procurement and/or lack of planning for sufficient procurement activity can add significant time to the life of projects. Conversely, strategic, coordinated procurement can provide invaluable support to successful project outcomes through purchasing efficiencies, achieving more value for money, establishing appropriate contracts and supporting stronger supplier relationships.</p> <p>Procurement activities for capital projects can require up to a 14-week lead time. The current Procurement Team reported proactive approaches and plans to minimise delays associated with procurement activities.</p> <p>The following procurement-related pressure points were identified as impacting on the timeliness of projects:</p> <ul style="list-style-type: none"> <li>In recent years, there has been a winding back of the number and types of panel arrangements that were previously in place, due to a perception of a lack of value. This impacts upon Project Manager time by requiring repeated development of procurement documentation, with reported examples including building services work. Establishment of supplier panels via a competitive process provides an efficient mechanism for quickly appointing pre-qualified suppliers (as appropriate for the works to be delivered), whilst enabling suppliers to offer their ‘best price’ for each new project and providing confidence in value for money. There is now again an appetite and plans to increase the use of panels. There is also scope to ‘bundle’ similar projects in one approach to market, and to establish multi-year contracts (for example around verge maintenance), even if the precise value of work required is not known in advance.</li> </ul> | <p>Continue work to establish more panels, with initial focus on regular / routine capital works (for example verge maintenance, tree pruning). To improve efficiencies, look to replace current single-year contracts for routine work with multi-year contracts.</p> <p>Continue work to proactively ‘bundle’ similar projects to make work more attractive to suppliers and enable CoS to obtain greater market interest. This ‘bundling’ may occur based on indicative designs with final pricing to be confirmed based on final designs.</p> <p>Continue work to streamline the acquisition planning process. For example:</p> <ul style="list-style-type: none"> <li>develop broad acquisition plans in advance for a group of projects (giving indication of budgets, approvals etc) to enable</li> </ul> |

<sup>6</sup> This is supported by previous reviews conducted by the Internal Audit team for other SA Councils on community consultation. This can be a time-consuming activity.

<sup>7</sup> See Pressure Point 9 for a discussion of bespoke designs.

Capital Works Projects

Liability limited by a scheme approved under Professional Standards Legislation

| Pressure Point  |  | Opportunity to relieve pressure   |
|---|--|---|
|   | <ul style="list-style-type: none"> <li>• Non-strategic projects under \$300,000 may require Executive approval pending contract conditions/arrangements.</li> <li>• Acquisition plans are required for work above \$150,000 pending contract conditions/arrangements in place. This is considered a low value in the capital-works space. Acquisition plans were reported to be nine pages long and require detailed budget, market approach, evaluation criteria/weightings.</li> </ul>   | <p>procurement activity to commence more quickly</p> <ul style="list-style-type: none"> <li>• consider removing or reducing the requirement for lower-value projects to have a detailed acquisition plan (a streamlined version may be applicable).</li> </ul> <p>Review whether delegations for approval of non-strategic projects can be moved from the Executive Group to the Group Manager (for example for projects under \$300,000).</p> <p><i>Note: Audit notes and supports the participation of a Procurement Team representative at the recently introduced monthly cross-divisional meetings. This will enable improved forward planning and a strategic approach to procurement across the portfolio of projects.</i></p> |
| <p><b>5</b></p> <p><b>Resident &amp; EM information requests</b></p> <p>Level of criticality: Low</p> | <p>Staff have reported a significant increase in the volume and complexity of project-related ratepayer and Elected Member queries. This is a natural by-product of a significant increase in the volume of projects, in addition to Council’s strong community consultation focus. With the Capital Program scheduled to return to pre-Covid levels, it is expected that the number of queries will not continue to grow in numbers.</p> <p>Management and project staff demonstrated a positive, customer-focused attitude towards addressing resident and Elected Member queries. Internal Audit consider, however, that this increase in the volume of queries has a direct impact on capacity and availability to deliver project-related work. In addition, the upcoming increased volume of capital works is likely to directly create additional questions from Elected Members around these projects.</p> | <p>Take steps, in association with Elected Members, to actively reduce the impact of Elected Member queries upon staff time during the short-term current peak of projects, for example:</p> <ul style="list-style-type: none"> <li>• scheduling regular EM group updates on projects</li> <li>• making project status information more readily available to EMs.</li> <li>• discouraging direct ad hoc queries, other than in exceptional circumstances.</li> </ul> <p>Take steps to increase the number of ratepayer queries able to be addressed directly by Call Centre staff (thus decreasing the volume of</p>  |

Capital Works Projects

| Pressure Point  |  | Opportunity to relieve pressure  |
|---|--|--|
|   |  | queries requiring project staff input), for example: <ul style="list-style-type: none"> <li>develop information sharing / project status update database accessible by call centre staff</li> <li>compile project FAQs for use by call centre staff.</li> </ul>  |
| <p style="text-align: center;"><b>6</b></p> <p><b>Reporting</b></p> <p>Level of criticality:<br/>Moderate</p> | <p>Relevant, accurate and timely status reporting across time, cost and quality targets is critical to the successful delivery of projects.</p> <p>Whilst not a project management system per se, reporting has been tailored by Council in the TechOne system to track and report project status, including time / cost / quality factors. Project Managers interviewed by Internal Audit commented positively about the project reporting functionality in TechOne. Internal Audit reviewed the system and consider that Council staff have tailored system reporting well, however the capabilities of this reporting are still limited by system functionality. The TechOne reports provide strong financial information, but the ability to track and report non-financial information is currently limited and may not be sufficiently granular for larger, complex projects.<sup>8</sup> For example, for larger, more complex projects, Project Managers can use 'MS Project' as a supplement to TechOne. As MS Project does not integrate with TechOne, this creates duplication as Project Managers are still required to enter reporting data into TechOne to ensure there is a single database to track the status of all projects.</p> <p>As at the time of audit fieldwork, project staff had unrestricted ability to change target dates within TechOne without system tracking to show revisions made or a requirement to document/justify revisions. This has resulted in reduced accountability, and difficulty in both identifying target date changes and tracking / managing the flow-on effects on other projects. Management has identified this issue, and are working to restrict the ability of Project Managers to change dates. Instead, Project Managers will need to submit date change requests, with justification, to the Team Leader, Project Support.</p> | <p><u>Short term:</u> Audit supports proposed system access changes limiting project management staff's ability to change target dates in TechOne.</p> <p><u>Medium term:</u> Explore options for reducing data entry duplication between MS Project and TechOne, for example:</p> <ul style="list-style-type: none"> <li>investigate options to automate updating of TechOne via upload of an MS Project extract</li> <li>investigate options for an alternative project management system, capable of scalable reporting for both smaller, routine projects and larger, complex projects.</li> </ul> |

<sup>8</sup> Internal Audit understand that the system does offer further functionality that is not generally used, with reasons including additional workload and complexity to change the way the system is used.

| Pressure Point  |  | Opportunity to relieve pressure  |
|---|--|--|
| <p><b>7</b></p> <p><b>Clarity of roles and responsibilities</b></p> <p>Level of criticality:<br/>Moderate</p> | <p>Some lack of clarity has been reported in projects roles and responsibilities, specifically in relation to responsibility for concept / pre-design vs detailed design. Any confusion over project responsibility can result in delays in workflows, and may make it challenging to identify responsibility for any design issues as the project progresses.</p> <p>Detailed design work is generally undertaken by the Infrastructure Delivery Team, though there can be occasions where the Infrastructure Management Team performs a higher level of preliminary design work, or it is outsourced. There is opportunity to develop guidelines clarifying who should undertake the various levels of design phases required under various common scenarios.</p>  | <p>Develop guidelines clarifying who should undertake detailed design work under various common scenarios. Specifically, clearly define roles for each project stage in the Project Brief. If these roles need to be amended during the life of a project, ensure this is formally documented/changed.</p> <p><i>Note: Council's recent initiative of introducing a Project Lead role to oversee the full lifecycle of larger projects will assist in providing greater accountability and clarity over responsibility for management of project-related issues.</i></p>   |
| <p><b>8</b></p> <p><b>Prioritisation of projects</b></p> <p>Level of criticality:<br/>Moderate</p>            | <p>Prioritisation of projects at a whole of project portfolio level assists in planning workflow and allocation of resources across the financial year and over the lifecycle of projects. Different projects may have different priority levels in terms of both strategic importance and timing – for example, where the ability to complete projects is contingent on weather conditions or a need to be completed during school holidays.</p> <p>Prioritisation of projects is currently the responsibility of individual Project Managers. During audit fieldwork as at July 2021, interviewees reported no formal rules to guide prioritisation. Establishing a framework and collaboration principles for project prioritisation can assist workflows and help to smooth peaks and troughs in workload. As at November 2021 Internal Audit understand that a single MS Project schedule is in place to cover the entire program of works. In addition, that Project Managers must lodge a change request to modify project dates. The audit recommendation can be considered within this context.</p> | <p>Create a principles-based framework for prioritisation of projects at a portfolio level (e.g. across the 4 quarters of the year) based on risk (e.g. WHS, regulatory, work stoppage, contractual), relative strategic importance, required weather conditions, interrelationship with / dependence on other projects and other timing considerations (e.g. need to complete during school holidays for projects impacting school traffic, contractual / grant spending deadlines).</p> <p><i>Note: The monthly cross-divisional meetings will provide a mechanism for a collaborative approach to the prioritisation of projects.</i></p> |

|--|--|--|
| <p data-bbox="264 309 344 395"></p> <p data-bbox="250 435 450 459"><b>Bespoke design work</b></p> <p data-bbox="250 539 461 563">Level of criticality: Low</p> | <p data-bbox="521 301 1429 491">The more bespoke a design, the more time and resources it takes to produce. For various reasons, including high levels of community consultation / input (for example, asking open-ended questions regarding what residents want to see as part of projects, rather than asking for favourite options from a limited range) and professional pride of talented staff, design work for CoS projects was reported to be often bespoke. Staff have identified that there is opportunity, and a desire, to reduce the volume of bespoke designs in instances where they are not required – for example for repeatable and low-complexity projects.</p> | <p data-bbox="1462 301 1897 379">Implement strategies to appropriately reduce the volume of bespoke design work. Examples of strategies may include:</p> <ul data-bbox="1462 387 1897 659" style="list-style-type: none"> <li>• developing a suite of template design options for lower risk, repeatable projects (with the preference for use of templates where appropriate reinforced through staff training and awareness campaigns)</li> <li>• review CoS’s approach to community consultation for lower risk projects with relatively low impact on residents – for example, inform vs consult, list of options vs open-ended choice.</li> </ul> |

|  |                   |                    |
|--|-------------------|--------------------|
| <b>2.2 Completion and recording of key project documentation</b> | Audit Risk Rating | Client Risk Rating |
|  | Low               | Low                |

#### Key Findings

- Key documentation including design briefs and contracts were in place for the majority of projects tested.
- The projects reviewed aligned to City Plan 2035 strategic directions– in particular around being ‘a welcoming and liveable city’. Projects also aligned with the foundations of this Plan – notably in relation to health and wellbeing and the city being attractive / well maintained.
- There is opportunity to continue work to enforce and monitor completion of documentation to ensure all key project management steps, particularly project closeout, are properly and consistently conducted.

#### Discussion

The audit scope called for a review of capital works projects, with emphasis on:

- alignment of projects with the City Plan 2035 strategic directions and foundations
- the processes in the Project Management Manual (Release 3) and/or the Capital Delivery Framework are implemented effectively for capital works projects
- a project brief/business case/Prudential Report or justification document (where relevant) was approved as per approved policies and procedures, and project delivery realises the intended business case justification outcomes
- compliance with any statutory and regulatory requirements within the process of delivering and management of capital works projects

The audit sample was chosen across a time period where both the Project Management Manual and the new Capital Delivery Framework were in use. After discussion with the audit stakeholders, Internal Audit took a pragmatic approach to testing, and particularly focussed on reviewing whether the ‘must have’ items were in place. This reduces focus on whether smaller/less critical elements were in place and aims to identify any larger issues/trends that can be addressed in the current and upcoming period - where the team are experiencing unprecedented levels of project activity.

To achieve this, audit reviewed whether the following elements were in place and adequately recorded:

| Project management document/requirement | Testing results                     | Comment   |
|---|-------------------------------------|---|
| <b>Project brief</b>                    | In place for 6 of 7 projects tested | For 1 of 7 projects, staff reported that the brief for the project was missed in error, following receipt of the related grant funding and quick commencement of the project. For this project, the subsequent design report was developed. (Also see additional discussion in Section 2.3) |

| <b>SUMMARY</b>         | This report provides an update on the status of outstanding actions arising from previously completed internal audits.                                    |

#### **RECOMMENDATION**

##### That Council:

1. Notes the update in this report and the full Internal Audit Log Actions Register in Attachment 1 to this report (Audit Committee, 12/04/2022, Item No.7.1.4).

#### **ATTACHMENTS**

This document should be read in conjunction with the following attachments:

1. Audit Log Register 12 April 2022

#### **BACKGROUND**

- 1.1 This report provides a status update on the outstanding actions from past internal audits, showing a summary position, number of actions by risk rating and the movement of actions since it was last presented to the February 2022 Audit & Risk Committee meeting.
- 1.2 A total of three actions (approx. 14%) out of the 22 outstanding actions have since been closed.
- 1.3 Previously reported closed actions are now removed from the Audit Log Actions Register.

## 2. REPORT

- 2.1 A high-level summary on the **movement of actions** from internal audits is shown below.

- 2.2 The total number of outstanding Audit actions reported to the February 2022 Audit & Risk Committee was 22, of which three (or 14% of the previous outstanding balance) actions were closed.
- 2.3 The risk profile summary position is shown below.

| Risk Rating                | Bal. as at 16 Feb 2022 | Closed*  | New      | Bal. as at 12 Apr 2022 |
|----------------------------|------------------------|----------|----------|------------------------|
| 1_Very High                | 0                      |          |          | 0                      |
| 2_High                     | 5                      | 1        |          | 4                      |
| 3_Medium                   | 5                      |          |          | 5                      |
| 4_Low                      | 5                      | 1        |          | 4                      |
| 5_Better Practice          | 4                      | 1        |          | 3                      |
| 6_LGASA Baseline Not Met * | 3                      |          |          | 3                      |
| <b>Total</b>               | <b>22</b>              | <b>3</b> | <b>0</b> | <b>19</b>              |

- 2.4 Out of the three closed Actions, there is one high risk, one low risk, and one better practice rated action.
- 2.5 There are no very high-risk actions pending.

### Closed Actions

- 2.6 The three actions reported as closed, were tested by the Internal Audit and Risk Coordinator and confirmed as fully resolved.
- 2.7 Closed Actions are as follows:

ITEM 7.1.4

| Log # | Report Date | Audit                  | Risk Rating       | Title: Finding/Opportunity for Improvement  | Recommendations  | Status | Audit Comment as at 12/04/2022 | Resolved |
|-------|-------------|------------------------|-------------------|---|--|--------|--------------------------------|----------|
| 20    | 24-Jan-20   | 3. Contract Management | 4_Low             | 3. There is a need for standardised storage of policies, procedures and contract documentation            | 5. Implement a process to ensure that policy, procedural and contract documentation is stored in one consistent location. Additional desirable features include: <ul style="list-style-type: none"> <li><input type="checkbox"/> approval processes before documentation can be uploaded into the location                             <ul style="list-style-type: none"> <li><input type="checkbox"/> clear metadata/date information about each document</li> <li><input type="checkbox"/> standard naming conventions</li> <li><input type="checkbox"/> use of consistent document templates, and</li> </ul> </li> <li><input type="checkbox"/> reviewing security/access levels for documentation, including providing transparency that a document exists even if the user does not have permission to view it.</li> </ul> This will assist in ensuring that staff are able to readily locate all information relevant to their roles and responsibilities. | Closed |                                | Yes      |
| 24    | 24-Jan-20   | 3. Contract Management | 5_Better Practice | 7. There is a need to clarify expected processes in relation to contract closure                          | 10. Formalise a process for contract closure. This can be in the form of a template, and may include but not be limited to: <ul style="list-style-type: none"> <li><input type="checkbox"/> capturing learnings/feedback on contract performance from a contractor's perspective</li> <li><input type="checkbox"/> reviewing whether goods/services have been received in full as paid for</li> <li><input type="checkbox"/> reviewing whether discounts/savings were applied appropriately as per some contract conditions</li> <li><input type="checkbox"/> identifying lessons learned and ensuring that these are communicated within the Council, to facilitate future contract management improvements.</li> </ul>   | Closed |                                | Yes      |
| 41    | 30-Oct-20   | 5. Purchase Card       | 2_High            | 3. Purchase Card Policy not in place, and Procurement Framework not reviewed before the next review date. | a) That a Purchase Card Policy is developed and adopted by Council or included with Council's Procurement Policy.<br>b) The Policy to cover expenditure using purchase cards and Council's direction on sensitive expenditure and the type and nature of expenditure that it deems appropriate for purchasing using purchasing cards.<br>c) That the Procurement Framework is reviewed, and clarified to show the value beyond which a PO is required.<br>d) That a Purchase Card Policy be developed which defines low cost and low value purchases and clarifies the type of expenditure that is suitable for purchase cards.<br>e) That the Procurement Matrix be clarified to show the value beyond which a purchase order is required.<br>f) That the use of Purchase Orders for purchase cards have the same parameters and requirements that are set for creditor invoices.   | Closed |                                | Yes      |

**Outstanding Actions**

2.8 There are 19 actions remaining on the Audit Log Register as at 12 April 2022 to be closed, and their status and risk ratings are illustrated below:

2.9 The level of completion of actions relative to the total number for respective audits is shown in table below:

| Audit  | Total # Actions | Actions Completed | %          | Actions Outstanding | %          | Status of Outstanding Actions |
|--|-----------------|-------------------|------------|---------------------|------------|-------------------------------|
| 1. Business Systems and Solutions - Apr 2018       | 10              | 10                | 100%       | 0                   | 0%         |                               |

| 4    | 19-Dec-19   | 2. Asset Management | 2_High            | 2.4 Defining clear criteria for upgrades and renewal of buildings  | 1. Review current capital investment planning for buildings and ensure that criteria for prioritising upgrades (including construction of new assets) and renewal of buildings are clearly defined, documented and based on relevant factors including defined levels of service, condition, fit for purpose audits and forecasted future demand.   | Generally in place however further improvements currently underway. Working with Council on defining 'fit for purpose' and future demand and priorities. Currently working the AMSC and developing a Place Activation Strategy to assist with this.<br>Current condition & fit for purpose audit addresses the current state with the Community Planning and Vitality Division preparing a report for ASMC regarding future demands and trends including specifications and gaps analysis with respect to Council's sporting facilities. Council's Community Hub model has been adopted with respect to the community facilities, with Burton and Ingle Farm Community Hubs being constructed over the next few years.<br><br>Ongoing formal presentations and reports to Council Committees. | Karen Pepe, Manager Property & Buildings   | Ongoing     | 31/12/2021<br>31/12/2022 | See comments above.<br>The Building Asset Management Plan (BAMP), which contributes to the Strategic Asset Management Plan and Long term Financial Plan, details the Levels of Service for buildings, and financial forecasts to deliver and maintain these Levels of Service. The BAMP also identifies the priority of building related works, which informs Council Budget Bids.<br>The Community Planning & Vitality Division put a report to the Community Wellbeing & Sport Committee in May 2021, Item 5.1.3 - Place Activation Strategy - Formal Recreation. Building Condition audit completed in 2020 and this information is used to develop capital programs. Buildings Asset Management Plan to be redrafted and reported back to the AMSC by December 2021<br><b>Update 27/01/2022:</b> BAMP scheduled to the next available AMSC meeting in Feb 2022.<br><b>Update 28/03/2022:</b> BAMP was presented to March 2022 AMSC. See further details in comments for Log item 16. | Extended |                                | No       |
| 6    | 19-Dec-19   | 2. Asset Management | 5_Better Practice | 2.7 Opportunity to review contents included in the Asset Management Plans as per IPWEA standards and the ISO55000 series | 1. Review the revised asset management plans against the IPWEA standards and ensure they address the required details regarding levels of service, asset condition, lifecycle management plan, asset criticality, risk management and processes for improvement.<br>2. Review the revised asset management strategy and ensure it includes internal and external factors that may impact on asset management objectives as well as strategic risk issues and risks relating to these factors. | 1. Review occurred in 2017 to do this and close alignment was identified.<br>Some improvements to Level of Service as above. Council currently uses the IPWEA templates. This will be revised and improved as the AMSC completes the review of assets by asset management plan.<br>2. Being considered as part of the (Strategic Asset Management Plan (SAMP) as presented to Council on 29 February 2020.<br>Asset Management Sub-committee is working through the Levels of Service for each Asset Management Plan. This will result in the upgrade of the Asset Management Plans late in 2020.<br>Action: See above.   | Dameon Roy, Manager Infrastructure Management;<br><br>Karen Pepe, Manager Property & Buildings | 31/12/2021  | 31/12/2021<br>31/07/2022 | Management Plan will be completed by December 2021 as reported to the AMSC.<br>An improvement plan is being prepared to be endorsed by SAMG. This will continue the improvements being made to Asset Mgmt and AMP's covering the period to Dec 21.<br><br><b>Update 27/01/2022:</b> BAMP scheduled to the next available AMSC meeting in Feb 2022.<br><b>Update 28/03/2022:</b> BAMP was presented to March 2022 AMSC, and Council adopted the building types and endorsed criteria for Service Levels, and a further report will be presented to the July 2022 AMSC with financial forecasts. A schedule has been prepared for the completion of other AMPs, and was endorsed by AMSC in Mar 22. See separate update report in April Audit & Risk Committee Agenda.   | Extended |                                | No       |

|----|-------------|-------------------------------------|-------------------|---|---|--|--|-------------|--------------------------|--|-------------|--------------------------------|----------|
| 0  | 24-Jan-20   | 3. Contract Management              | 4_Low             | 3. There is a need for standardised storage of policies, procedures and contract documentation                        | <p>5. Implement a process to ensure that policy, procedural and contract documentation is stored in one consistent location. Additional desirable features include:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> approval processes before documentation can be uploaded into the location</li> <li><input type="checkbox"/> clear metadata/date information about each document                             <ul style="list-style-type: none"> <li><input type="checkbox"/> standard naming conventions</li> <li><input type="checkbox"/> use of consistent document templates, and</li> <li><input type="checkbox"/> reviewing security/access levels for documentation, including providing transparency that a document exists even if the user does not have permission to view it. This will assist in ensuring that staff are able to readily locate all information relevant to their roles and responsibilities.</li> </ul> </li> </ul> | <p>Review existing policies, guidelines</p> <p>Review naming convention, security etc...</p> <p>Provide training etc...</p> <p>Audit</p> | <p>DM Community Experience &amp; Relationships / Laura Fischetti (Team Leader Business Intelligence and Data Management).</p> <p>Group / Committee identified in Rec 1</p> | 30/06/2021  | 30/11/2021<br>30/03/2022 | <p>Once CM Framework document, tools/templates, policy completed, Strategic Procurement will undertake internal training and awareness sessions for key internal stakeholder groups. This training will include awareness of existing processes for keeping of documents (Dataworks, Finance One and other supporting systems) - in accordance with current Procurement Framework.</p> <p><b>Update 20/01/2022:</b> Requirements contained within Contract Management Framework. Implementation steps in progress, will be completed by end March 2022.</p> <p><b>Update 21/03/2022:</b> Completed, implementation process underway.</p> | Closed      |                                | Yes      |
| 4  | 24-Jan-20   | 3. Contract Management              | 5_Better Practice | 7. There is a need to clarify expected processes in relation to contract closure                                      | <p>10. Formalise a process for contract closure. This can be in the form of a template, and may include but not be limited to:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> capturing learnings/feedback on contract performance from a contractor's perspective</li> <li><input type="checkbox"/> reviewing whether goods/services have been received in full as paid for</li> <li><input type="checkbox"/> reviewing whether discounts/savings were applied appropriately as per some contract conditions</li> <li><input type="checkbox"/> identifying lessons learned and ensuring that these are communicated within the Council, to facilitate future contract management improvements.</li> </ul>   | Refer Recommendation 4.  | Ben Kempster, Manager Strategic Procurement  | 31/03/2021  | 31/10/2021<br>31/03/2022 | <p>Process and documents used for formal contract closure will be part of Contract Management Framework. The tools and templates that will form part of the CM structure include formal closure templates (including Lessons Learned, provision of feedback, close out checklist).</p> <p><b>Update 20/01/2022:</b> Requirements contained within Contract Management Framework. Implementation steps in progress, will be completed by end March 2022.</p>  | Closed      |                                | Yes      |
| 0  | 03-Aug-20   | 4. Management of Contaminated Sites | 3_Medium          | 6. Further work as per National Environmental Protection Measure (NEMP) Schedule B2 - Site Characterisation           | Where potential risks cannot be adequately assessed from the existing information, further work may be required in accordance with the NEPM Schedule B2 (NEPC, 1999).   | Agreed and noted   | Dameon Roy, Manager Infrastructure Management  | 30/06/2023  |                          | <p>Next review cycle is 2023. Budget bid to be put in 22/23, to do the Site Categorisation in accordance with NEPM Schedule B2.</p> <p>14/2/22: Budget bids for existing sites (as included in report) have been included in 22/23 discussions. A prioritised list of sites requiring work in accordance with the NEPM will be prepared based on the updated risk ratings in the register.</p>   | Not Due Yet |                                | No       |
| 3  | 03-Aug-20   | 4. Management of Contaminated Sites | 5_Better Practice | 9. Identification of Potential Sources and their Trends when assessing monitoring data related to Contaminated Sites. | When assessing monitoring data, consideration should be given to their potential sources and their trends (i.e. are concentrations stable, increasing or decreasing).   | Best Practice  | Bruce Naumann, Manager, Salisbury Water and Dameon Roy, Manager Infrastructure Management  | 31/12/2021  | 30/06/2022               | <p>This is already done for MAR systems in the annual data review and submission to EPA- example report provided.</p> <p>This will be expanded for future catchment monitoring.</p>  | Extended    |                                | No       |

Item 7.1.4 - Attachment 1 - Audit Log Register 12 April 2022

| SR | Report Date | Audit                               | Risk Rating       | Title: Finding/Opportunity for Improvement  | Recommendations  | Management Response / Action Agreed  | Responsible Officer                                   | Target Date | Revised Date  | Administration's Further Comments  | Status      | Audit Comment as at 12/04/2022 | Resolved |
|----|-------------|-------------------------------------|-------------------|---|--|--|---|-------------|---|--|-------------|--------------------------------|----------|
| 5  | 03-Aug-20   | 4. Management of Contaminated Sites | 5_Better Practice | 11. Management of Contaminated Sites Integrated into a Single Framework                                   | The management of contaminated sites should be integrated into a single framework, providing documented feedback mechanisms, and ensuring the overall risk to the CoS and the Recycled Water Systems are appropriately managed.  | a) Noted<br>b) At this point in time the Contaminated Site Register sits in the Corporate GIS system and is managed by City Infrastructure, however there is no mechanism to provide ongoing reporting in this area, other than on an incident by incident basis.<br>c) Also agree that a more integrated approach across Council Departments is required. This is proposed to be done by revising the Integrated Water Cycle Management Plan into a new Integrated Catchment Risk Management Plan and up-dating all Stormwater Management Plans (SMPs) to ensure they model and monitor water quality issues as well as water quantity (ie flood management). | Dameon Roy, Manager Infrastructure Management         | 2023/2024   | Ongoing as per the separate Action Plan, reported to Feb 2022 A&RC. | The ICRMP is the first step in establishing an integrated framework.<br><b>Update 4/4/22:</b> An action plan for this was presented to Feb 2022 Audit & Risk Committee to identify the sub-components of the delivery of this item in 10 phased action milestones, whereby the ICRMP will get developed in 2026.   | Not Due Yet |                                | No       |
| 1  | 30-Oct-20   | 5. Purchase Card                    | 2_High            | 3. Purchase Card Policy not in place, and Procurement Framework not reviewed before the next review date. | a) That a Purchase Card Policy is developed and adopted by Council or included with Council's Procurement Policy.<br>b) The Policy to cover expenditure using purchase cards and Council's direction on sensitive expenditure and the type and nature of expenditure that it deems appropriate for purchasing using purchasing cards.<br>c) That the Procurement Framework is reviewed, and clarified to show the value beyond which a PO is required.<br>d) That a Purchase Card Policy be developed which defines low cost and low value purchases and clarifies the type of expenditure that is suitable for purchase cards.<br>e) That the Procurement Matrix be clarified to show the value beyond which a purchase order is required.<br>f) That the use of Purchase Orders for purchase cards have the same parameters and requirements that are set for creditor invoices. | Agree. This will be discussed with executives and policy will be developed ore revised accordingly.  | Ben Kempster, Manager Strategic Procurement           | 30/06/2021  | 31/12/2021<br>31/03/2022  | Council Adopted on 24 May 2021, Resolution : 0954/2021<br><br>Comments for 9/11/21: All actions resolved other than c & e can be closed. These remain open due to their link with updating the Procurement Framework which will be completed by end of Q1 2022.<br><br><b>Update 21/03/2022:</b> Completed. PO requirements for action item c & e are detailed under a seperate docuemnt called PO Guidelines. | Closed      |                                | Yes      |
| 7  | 22/03/2021  | 9. Complaints Handling Process      | 2_High            | 1. Lack of a Complaints Handling & Management System  | Establish a centralized system to capture information on complaints, and use the system for handling, managing and reporting on complaints received and resolved; either through an existing software solution or by introducing a dedicated complaints management system.<br>Ensure that all complaints are recorded, and reported to the management on a regular basis, including complaints received via telephone calls, and from walk-in community members.   | Investigation will need to be undertaken to find a suitable program to capture all complaints in the one place and identify funding requirements. This forms part of the scope of a current project undertaken called the Exceptional Community Experience Project.  | Hannah Walters (Project Manager Community Experience) | 30/06/2022  |   | <b>Update:</b> 9/11/21. We are currently preparing an EOI for the technology solution to manage all Community Interactions.  | Not Due Yet |                                | No       |

Item 7.1.4 - Attachment 1 - Audit Log Register 12 April 2022

| SR | Report Date | Audit                                  | Risk Rating | Title: Finding/Opportunity for Improvement  | Recommendations   | Management Response / Action Agreed   | Responsible Officer  | Target Date   | Revised Date                     | Administration's Further Comments   | Status      | Audit Comment as at 12/04/2022 | Resolved |
|----|-------------|--|-------------|---|---|---|--|---|----------------------------------|---|-------------|--------------------------------|----------|
| 3  | 29-Jun-21   | 10 Event Incident Management Framework | 2_High      | A need to clarify stakeholder responsibilities and engagement in the risk and hazard identification process | <p>1. Establish a definition of what constitutes a COS "Event" for the purposes of interpreting and enforcing event-specific policies and business rules.</p> <p>2. Formally agree and document the roles and responsibilities of stakeholder groups across Council in providing expertise for the planning and delivery of events, including the level of involvement expected of the WHS team in the risk assessment process and to whom a copy of the risk assessment must be provided. These roles and responsibilities can be determined with reference to a risk-based event categorisation (see Recommendation 4), and/or linked to specific events identified in the events calendar.</p> <p>3. Develop a business rule to determine when events are to be managed by the Events Team. This could be aligned to event risk categories (see Recommendation 4) and/or other criteria determined by the Events Team in consultation with other stakeholders.</p> <p>4. Formalise Council's expectations regarding appropriate minimum lead times for consulting relevant stakeholders in relation to the risk assessment and risk treatment processes for events.</p> <p>5. Define risk-based categories for the grouping of events, and assign each event to a category. These categories can then be used to determine the roles and responsibilities of stakeholders (including, for example, whether an event should be led by the Events Team), nature and extent of documentation and other requirements to support event management and risk assessments.</p> | <p>1. Identify the definition of COS "event".</p> <p>2. Establish and document more formally, the roles and responsibilities related to event planning and delivery, including the identification of expected involvement by the WHS representative.</p> <p>3. Adopt the above recommendation no. 3, clearly identifying the events that the Events Team shall be responsible for, including the definition of when it is required to separate infrastructure delivery from program/performance delivery.</p> <p>4. Events team will provide the WHS team a copy of their risk assessment of the up and coming event two weeks prior to the event taking place. The day before the event, any changes to the assessment will be submitted to the WHS team for review.</p> <p>5. Adopt recommendation no. 5 in addition to the preparation of an overarching Corporate Events and Public Relations plan.</p> | <p>1, 2, 3 &amp; 5- Julie Kushmir (Manager Community Experience &amp; Relationships)</p> <p>4- Michelle Dagger (Team Leader Events, Place Activation and Curation) &amp; Simon McGuinness (Team Leader Safety &amp; Wellbeing) (in consultation with Security)</p> | <p>1: 01/12/2021;<br/>2&amp;3: 31/12/2021;<br/>4: 30/06/2021;<br/>5: 31/09/2022</p> | <p>4: 30/04/2022</p>             | <p>Definitions complete. Roles and responsibility allocation complete. Business rule developed to identify when Events Team either manages event, or takes on responsibility for infrastructure, not content. 1 2 &amp; 3 complete. 4 &amp; 5 to be identified in consultation with WHS officer.</p>  | Not Due Yet |                                | No       |
| 5  | 29-Jun-21   | 10 Event Incident Management Framework | 4_Low       | Opportunity to review and refine the risk assessment template   | <p>7. Perform a review of the risk assessment template (involving key stakeholders from the WHS, operations, HUB security and events teams), with a view to simplifying the document. Specifically, the risk of insufficient resourcing should be addressed as part of the risk assessment process and be included in the template to prompt consideration. Following this review, determine and record a required next review date for the template.</p>   | <p>Agreed. To address the recommendation, the following Action Plan will be implemented.</p> <p>A - Complete the revision of the risk assessment template.</p> <p>B - Develop a 1-2 page risk assessment checklist.</p> <p>C - Develop a scalable risk assessment or other event source material that informs of relevant risk controls measures to support the risk assessment checklist.</p>  | <p>Nick Cross (Senior WHS Advisor)</p>   | <p>31/12/2021</p>   | <p>38/02/2022<br/>30/04/2022</p> | <p>A Completion of the Event Safety Handbook in lieu of revising the old risk assessment template is mostly complete. I anticipate having this finished by mid February. The handbook forms the basis of lookup for the event safety checklist.</p> <p>B The 1-2 page checklist is created after the Handbook index is completed. It's a relatively simple exercise, however it intends to accurately reference the handbook - whereby both documents need to match.</p> <p>C This is accomplished by virtue of the two items above. i.e. A person will tick against listed items on the checklist that relate to the event. In that manner it's scalable. The person then refers to the ticked checklist requirements in order to manage the risk.</p> <p><b>Update: 21/3/22:</b><br/>The draft Event Safety Handbook is currently scheduled for the next quarterly Principal WHS Committee meeting to be held on 19th April 2022, prior to finalisation of the handbook</p> | Extended    |                                | No       |
| 6  | 23-Sep-21   | 11 Volunteer Management Audit          | 3_Medium    | Volunteer Safety Handbook   | <p>As a better practice control measure, it is advisable that COS prioritise the development of a comprehensive Volunteer Safety Handbook to meet the core components of the WHS Induction and Training Procedure detailed below:</p> <ul style="list-style-type: none"> <li>•Provide WHS information, training and instruction in a way that is readily understandable to any person whom it is provided</li> <li>•Provide workers with information, instruction and training that is necessary to protect persons from risk to health and safety having regard to their role</li> </ul>   | <p>Actions proposed include sourcing funding and an external consultant to develop an accessible easy-English Volunteer Health and Safety Handbook that complies with WHS requirements</p>  | <p>Vesna Harnic (Manager Community Health and Wellbeing)</p> <p>Michelle Hodshon (Volunteer Development Officer)</p>   | <p>30/06/2022</p>   |                                  |   | Not Due Yet |                                | No       |

Item 7.1.4 - Attachment 1 - Audit Log Register 12 April 2022

|----|-------------|--------------------------------|-------------|---|---|---|---|-------------|--------------|--|----------|--------------------------------|----------|
| 9  | 23-Sep-21   | 11. Volunteer Management Audit | 4_Low       | Volunteer Interview Process & Recordkeeping     | Given that interview process is an essential process to determine suitability of volunteers for the role, it is recommended that administration takes extra measures to ensure evidences of interview are provided by relevant Volunteer Coordinators in a timely manner and prior to volunteer registration in VMS, then stored in COS's record management system.                 | Management agrees that the interview is a critical element to volunteer onboarding. It notes all staff with volunteer management responsibilities are provided training in councils volunteer management requirements including the need to undertake an interview and that the supporting documentation be forwarded to Volunteer Services as a part of the registration process. Action proposed is that Volunteer Services staff must have received interview notes, that meet the required standard, to register a person as a volunteer with the organisation, and, the interviewing staff must provide the interview notes to Volunteer Services staff to store in Dataworks for record-keeping purposes. | Michelle Hodshon, (Volunteer Development Officer) | 30/03/2022  | 30/06/2022   | Work has been undertaken on this and is approximately 80% complete. Staff leave has impacted the completion of the task. It is now expected to be completed by 30 June 2022  | Extended |                                | No       |
| 0  | 23-Sep-21   | 11. Volunteer Management Audit | 4_Low       | Volunteer Exit Process & Recordkeeping          | 1 COS should review its current volunteer feedback process and ensure that exiting volunteers are reached through appropriate mechanisms to get timely feedback.<br>2 Ensure the reasons for volunteer exiting is determined and captured in a timely manner to ensure fairness in the volunteer exit process and that volunteer exiting occurs as per volunteer management policy. | Actions proposed are to update the Volunteer Management Guidelines noting timeframe and resignation reasons are factors attributable to determining the distribution of an exit survey, and, staff with volunteer management responsibilities are reminded to immediately communicate the resignation of a volunteer, and the reason, if known, so an exit survey can be forwarded to the volunteer in a timely manner and reason recorded in the Volunteer Management System and Dataworks.  | Michelle Hodshon, (Volunteer Development Officer) | 30/03/2022  | 30/06/2022   | Part 1 of this action is complete as a new practice is in place to utilise email, as appropriate, to contact exiting volunteers, providing them with a link to an online exit survey. Part 2 of this action will be met in alignment with action 71. Work has been undertaken on this and is approximately 80% complete. Staff leave has impacted the completion of the task. It is now expected to be completed by 30 June 2022 | Extended |                                | No       |
| 1  | 23-Sep-21   | 11. Volunteer Management Audit | 4_Low       | Update Volunteer Management Corporate Guideline | It is recommended to develop a comprehensive Volunteer Management Manual or review and update the Volunteer Management Corporate Guideline with relevant version control details covering the full end to end volunteer management process, and ensure that the information held on intranet is consistent with the manual or guidelines.   | Action proposed is the Volunteer Management Guidelines be reviewed, updated and version control requirements detailed.  | Michelle Hodshon, (Volunteer Development Officer) | 30/03/2022  | 30/06/2022   | As of December 2021 work started on reviewing Volunteer Management Corporate Guidelines. Support has to be provided by staff member with access to CoSi and this has been challenging given one staff member has access and competing priorities. Work has been undertaken on this and is approximately 80% complete. Staff leave has impacted the completion of the task. It is now expected to be completed by 30 June 2022    | Extended |                                | No       |

| <b>HEADING</b>         | Risk Management and Internal Controls Activities   |
| <b>AUTHOR</b>          | Hussain Rafeeu, Internal Auditor & Risk Coordinator, CEO and Governance  |
| <b>CITY PLAN LINKS</b> | 4.2 We deliver quality outcomes that meet the needs of our community<br>4.4 We plan effectively to address community needs and identify new opportunities  |
| <b>SUMMARY</b>         | <p>This report provides an update on the risk management and internal control activities undertaken (or planned) for 2021/2022.</p> <p>The Enterprise Risk Management (ERM) Roadmap was reported to Audit &amp; Risk Committee in November 2021, and its current status is updated in this report, along with the status of other risk management and control activities undertaken this year.</p> |

## **RECOMMENDATION**

### That Council:

1. Notes the update on Risk Management and Internal Control Activities for 2021/2022 since the 16<sup>th</sup> February 2022 Audit & Risk Committee meeting, as set out in Attachment 1 to this report (Audit & Risk Committee, 12/04/2022, Item No.7.1.5).
2. Notes the Strategic Risk Register as set out in Attachment 2 to this report (Audit & Risk Committee, 09/11/2021, Item No. 7.1.5).

## **ATTACHMENTS**

This document should be read in conjunction with the following attachments:

1. Risk Management and Internal Controls Activities 2021-22\_Apr\_2022
2. Strategic Risk Register - April 2022

### **1. BACKGROUND**

- 1.1 This report provides an update on the risk management and internal control activities undertaken (or planned) for 2021/2022. The report allows the Audit & Risk Committee to monitor and review the activities and assurance they provide.

## 2. REPORT

- 2.1 The risk management and internal control activities planned for the year 2021/2022 are summarised in Attachment 1, which is updated to the Audit and Risk Committee on an ongoing basis.
- 2.2 **Financial Internal Controls:** The Local Government Best Practice Financial Controls Model is used to ensure financial controls are adequately covered, and this is managed through Control Track. The self-assessment for this year commenced in April 2022. This will be reviewed by the external auditor in the interim audit, internal control certification process. The External Auditors Interim Audit report is scheduled to be presented to the Audit & Risk Committee in July 2022.
- 2.3 **Audit & Risk Committee Performance Assessment:** The self-assessment survey response is reported to the Audit & Risk Committee in April 2022 (see Audit & Risk Committee 12/04/2022, Item no. 7.1.6).
- 2.4 **Emergency Management Project:** The City's Emergency Management Project Coordinator is undertaking the project, and so far, the Emergency Management Policy and Emergency Management Plan have been adopted, and the Incident Operations Manual has been drafted. These documentations cover the key processes to be followed in emergency management, and implementation of emergency management is ongoing as per these policies and procedures.
- 2.5 **Enterprise Risk Management (ERM) Roadmap:** An ERM Roadmap was developed and approved by Council in November 2021, covering specific deliverables to ensure that an effective risk management process is implemented. The key project milestone status is as follows:
- 2.5.1 Develop ERM Policy by end of November 2021 – completed.
  - 2.5.2 Develop ERM Framework by end of March 2022 – in progress; Executive feedback received on draft, for finalisation.
  - 2.5.3 Develop an Overall Assurance Map by end of March 2022 – in progress. Further consultation with key stakeholders is required to complete, and reporting is rescheduled for presentation to the next Audit & Risk Committee in July 2022.
  - 2.5.4 Review BCP for Critical Functions by end of March 2022 – in progress. Business impact assessments have been completed for all critical and non-critical functions and the next step is to finalise business continuity plans.
  - 2.5.5 Develop Operational Risk Registers for all Divisions under the new ERM Framework by end of June 2022 – in progress. ERM framework approved by management, and operational risk registers are planned to be developed following risk workshops and roll out of the ERM Framework implementation.
- 2.6 The **Strategic Risk Register** is updated, highlighting all new additions in red text and striking through text that has become obsolete. The main areas of change are in the risk treatment owners and risk monitor and control timelines. There are no changes noted in the risk ratings, as no further risk assessments took place during this period.

A review of the Strategic Risk Register is to be scheduled for early next financial year, and any new/emerging risks will be updated in the revised risk strategic risk register.

**3. CONCLUSION / PROPOSAL**

- 3.1 This report has provided a summary of the risk management and internal controls activities undertaken and planned for 2021/2022, since the last Audit and Risk Committee meeting.

Risk Management and Internal Controls Activities – July 2021 to June 2022

v1.5

| Annual Plan - July 2021 to June 2022  |   |   |  |   |   |
|---|---|---|--|---|---|
| Activity  | Type of Activity (Risk Management or Internal Controls) | Resourcing (Internal, External, Co-sourced) | Status:<br>Completed,<br>In progress,<br>Not yet commenced | Rationale for piece of work   | Update on progress  |
| 1. External Audit of financial internal controls  | Internal Controls                                       | External                                    | Completed  | This piece of work is legislatively mandated. Internal audit is heavily involved in facilitating the work.  | The final report from the external auditors for FY2020/2021 was delivered at the October 2021 meeting of the Audit & Risk Committee.  |
| 2. Completion of Control Self-Assessments and Risk Assessments through the Control Track system, including external audit preparation | Internal Controls                                       | Internal                                    | In progress  | The external auditor's expectations are that at least one control self-assessment will be conducted annually and a risk assessment should also be conducted on financial internal controls. | The control self-assessment has commenced in April 2022. The outcome of this assessment is scheduled to be reviewed by External Auditor in the interim audit, internal control certification process, and will be reported to the Audit & Risk Committee in July 2022, as part of the External Auditor's Interim reporting process. |
| 3. Cash Management  | Internal Controls                                       | Internal                                    | Completed  | This work needs to be completed annually as a part of the financial internal controls framework; it includes the end of year reconciliations of petty cash and till floats.                 | The petty cash and till float reconciliations were performed in July 2021 for the 2020/2021 period to substantiate the information to be contained within the Annual Financial Statements. A memo to the GM Business Excellence was prepared. No issues were identified.  |

Risk Management and Internal Controls Activities – July 2021 to June 2022

v1.5

| Annual Plan - July 2021 to June 2022                                     |   |   |   |  |  |
|--|---|---|---|--|--|
| Activity   | Type of Activity (Risk Management or Internal Controls) | Resourcing (Internal, External, Co-sourced) | Status: Completed, In progress, Not yet commenced | Rationale for piece of work  | Update on progress   |
| 4. Report on the findings of the Audit & Risk Committee self-assessments | Internal Controls                                       | Internal                                    | Completed   | The annual self-assessment reviews the performance of the Audit & Risk Committee.  | Survey commenced in March 2022 and outcome reported to Audit & Risk Committee and Council in April 2022.   |
| 5. Review the Fraud and Corruption Prevention Strategy                   | Internal Controls                                       | Internal                                    | Completed   | The Fraud and Corruption Prevention Strategy was reviewed and replaced with a Policy and a Framework.  | The Fraud and Corruption Policy was adopted by Council in February 2021 and the Fraud and Corruption Prevention and Management Framework was approved by the Executive Group in July 2021.   |
| 6. Emergency Management Project  | Risk Management   | Internal                                    | In progress                                       | Develop, implement and review the Emergency Management Framework, including the development of tools, plans and instructional guides.<br>Provide an integrated model of emergency management for City of Salisbury, with assigned roles & responsibilities | The Emergency Management Policy and Emergency Management Plan have been endorsed.<br>The Incident Operations Framework has been drafted. The project has been substantially completed from a design and documentation point of view. |

Risk Management and Internal Controls Activities – July 2021 to June 2022

v1.5

| Annual Plan - July 2021 to June 2022                     |   |   |  |   |  |
|--|---|---|--|---|--|
| Activity   | Type of Activity (Risk Management or Internal Controls) | Resourcing (Internal, External, Co-sourced) | Status:<br>Completed,<br>In progress,<br>Not yet commenced | Rationale for piece of work   | Update on progress   |
| 7. Review of Business Continuity corporate documentation | Risk Management   | External                                    | In progress  | Following the BCP Test conducted in May-June 2018 it has been determined that a comprehensive review of City of Salisbury's business continuity documentation should be conducted.                                  | Business Impact Assessments have been completed for all critical and non-critical functions. BCP will be finalised for all functions during the 2021/22 financial year.                                      |
| 8. Develop documented risk management framework          | Risk Management   | Internal                                    | Completed  | Contributes to the vision of having an organisation wide, consistent, usable risk management framework to encourage and inform risk management.   | The Enterprise Risk Management (ERM) Framework was reviewed and endorsed by the Executive Management. This is reported to the Audit & Risk Committee in April 2022.  |
| 9. ERM Program Roadmap                                   | Risk Management   | Internal                                    | In progress  | Following the development of an ERM Policy, it was decided that a Road Map is developed to ensure effective implementation is monitored as per an agreed plan.  | The ERM Roadmap milestones are delivered and progressing on time as per schedule, with ERM Policy and Framework developed as key deliverables; except for the Assurance Map – see update below (in item 10). |
| 10. ERM Roadmap Deliverable – Assurance Map              | Risk Management   | Internal                                    | In progress  | CEO asked to prepare an overall Assurance Map for the City of Salisbury to determine where we are in terms of assurance. Audit & Risk Committee has also asked for a brief on this as was agreed as an action item. | Further consultation with key stakeholders are required before the Assurance Map gets finalised, and this is now planned to be presented to the next Audit & Risk Committee meeting in July 2022.            |

| <b>DATE</b>            | 12 April 2022  |
| <b>HEADING</b>         | Audit & Risk Committee Performance Self-Assessment Survey Outcome  |
| <b>AUTHOR</b>          | Hussain Rafeeu, Internal Auditor & Risk Coordinator, CEO and Governance  |
| <b>CITY PLAN LINKS</b> | 4.2 We deliver quality outcomes that meet the needs of our community<br>4.4 We plan effectively to address community needs and identify new opportunities  |
| <b>SUMMARY</b>         | <p>Best practice suggests that the performance of the Audit &amp; Risk Committee (or “the Committee”) should be reviewed on a regular basis. The Committee approved the process for its self-assessment at the February 2022 meeting. A self-assessment survey was issued to all members of the Committee. Four out of five Committee members completed the survey and this report summarises the results. Some comments and suggestions for improvement were received in response to the survey questions. Administration requests further input and clarity from the Committee to unpack each of the statements with a level of openness and transparency to support the continued effectiveness of the Committee.</p> |
| <b>RECOMMENDATION</b>  |  |
|                        | <u>That Council:</u>   |
|                        | 1. Notes the report.   |
| <b>ATTACHMENTS</b>     |  |
|                        | This document should be read in conjunction with the following attachments:  |
|                        | 1. Audit & Risk Committee Self-Assessment Survey Result  |
| <b>1. BACKGROUND</b>   |  |
| 1.1                    | It is considered best practice to review the performance of an Audit and Risk Committee on a periodic basis. One method of conducting this performance review is through a self-assessment questionnaire, completed by the members of the Audit and Risk Committee.  |
| 1.2                    | Self-assessment surveys are an efficient method for conducting the performance review because they can be completed at the convenience of the Audit and Risk Committee members, without the need to arrange or attend any additional meetings or interviews.   |

- 1.3 The Audit and Risk Committee self-assessment survey was completed for the period 1 January 2021 to 31 December 2021. A copy of the full completed survey result is provided as Attachment 1 to this report.
- 1.4 The focus of the self-assessment is primarily to drive continuous improvement in the performance and effectiveness of the Audit and Risk Committee.
- 1.5 The self-assessment survey consisted of 46 questions across seven topics which addressed, amongst other things, the Committee's responsibilities under the *Local Government Act 1999* and its Terms of Reference. The topics of the survey related to:
  - 1.5.1 Establishment of the Committee;
  - 1.5.2 Meetings;
  - 1.5.3 Internal Audit;
  - 1.5.4 External Audit;
  - 1.5.5 Financial Oversight;
  - 1.5.6 Risk Management and Internal Controls; and
  - 1.5.7 Oversight of Other Activities.
- 1.6 The survey was provided to the Committee Members via an online survey platform, called Survey Monkey. The Committee members completed the survey online and a report was generated through Survey Monkey. The details of the respondents have been de-identified and a copy of the Performance Self-Assessment report is provided as Attachment 1 to this report.
- 1.7 It is deemed good governance that the Committee's performance is regularly reviewed. To that end the City of Salisbury ("CoS") has adopted a self-assessment approach for assessing the performance of the Audit & Risk Committee of Council. At its February 2022 meeting the Audit & Risk Committee approved the self-assessment process and a survey was issued to all members of the Audit & Risk Committee. Four out of five Audit & Risk Committee member completed the survey and this report summarises the findings and issues identified.

## 2. CONSULTATION / COMMUNICATION

- 2.1 Internal
  - 2.1.1 Nil
- 2.2 External
  - 2.2.1 Audit & Risk Committee members

## 3. REPORT

- 3.1 Four responses were received to the survey.
- 3.2 The findings and issues identified are set out below.
  - 3.2.1 *Establishment of the Committee (Questions 1 to 6)*

- The respondents did not have any disagreements with the statements contained in questions one to six of the survey, regarding the establishment of the Audit & Risk Committee.
- No comments were provided from respondents for Questions 1 to 6.

### 3.2.2 *Meetings (Questions 7 to 13)*

- The respondents agreed with five out of seven questions contained in this section regarding the meetings of the Audit & Risk Committee, and have provided comments for four out of seven questions in this section.
- For Question 8, there was no disagreement to the statement that “The Committee ensures that appropriate internal and external stakeholders attend meetings as necessary (e.g. CEO, GM Business Excellence, external audit representative, etc.)”, however, one respondent had the following comment.

*Respondent Comment – “We seem to have reduced the number of presentations on the workings of council recently....”*

- For Question 10, in relation to the statement that “The written materials (e.g. meeting agendas, reports, minutes and supporting documentation) provided to the Committee are appropriate, relevant, and concise.”, one respondent selected neither agree nor disagree, and one respondent had the following comment:

*Respondent Comment – “At times they are very difficult to read in the format provided which does give rise to risk that key aspects are glossed over or missed and it would be better if they were more targeted/focused in my view but generally yes no major concerns.”*

- For Question 11, in relation to the statement that “The written materials provided to the Committee are circulated with sufficient time to allow Committee members to consider the information” one respondent disagreed, and one respondent neither agreed nor disagreed, and two respondents left the following comments:

*Respondent Comment – “Given the typical sheer volume of material, more time would be appreciated, however I understand this is being addressed.”*

*“I do believe that it would be better to receive the paperwork 1 week prior to meetings to allow members of the committee to have sufficient time to read and possibly ask questions prior to the meeting so that staff have adequate time to prepare additional information.”*

- For Question 12, in relation to the statement that “The meeting procedures and processes in place at the City of Salisbury ensure smooth operation of the Committee.”, one respondent selected neither agree nor disagree, and one respondent left the following comment:

*Respondent Comment – “Would prefer a more congenial setting the room is very big for such a small group of people to engage even*

*allowing for covid it may be simply a matter of the way it is laid out though?”*

3.2.3 **Internal Audit (Questions 14 to 17)**

- The respondents agreed with three out of four questions contained in this section regarding internal audit, and have provided comments for two out of four questions in this section.
- For Question 14, in relation to the statement that “The Committee appropriately considers internal audit reports, management’s responses, actions for improvement, and monitors the responsiveness of the Council to recommendations based on previous audits and risk assessments, including those raised by the Council’s Internal Auditor and External Auditor”, two members agreed, two members have strongly agreed, and one respondent had left the following comment.

*Respondent Comment – “Lot going on in that space though ...”*

- For Question 15, in relation to the statement that “I have direct and unrestricted access to the internal audit function”, one respondent selected neither agree nor disagree, while two respondents agreed and another respondent strongly agreed. There was no comment left by the respondents for this question.

*Respondent Comment – No comment was left by respondents.*

3.2.4 **External Audit (Questions 18 to 21)**

- The respondents agreed with three out of four questions contained in this section regarding external audit.
- For Question 18, in relation to the statement that “I have direct and unrestricted access to the External Auditor”, one respondent disagreed and has commented “Don’t know their contact details....”.

3.2.5 **Financial Oversight (Questions 22 to 30)**

- The respondents agreed with eight out of nine questions contained in this section regarding the Audit & Risk Committee’s financial oversight role, and there was one respondent who neither agrees nor disagrees and left one comment. For Question 26, in relation to the statement that “The Committee reviews the City of Salisbury’s key accounting policy positions”, one respondent neither agreed nor disagreed and left one comment as follows:

*Respondent Comment – “Do we receive accounting policy positions regularly?”.*

3.2.6 **Risk Management and Internal Controls (Questions 31 to 38)**

- The respondents agreed with six out of eight questions contained in this section regarding the Audit & Risk Committee’s oversight role in risk management and internal controls. Two questions have a response where neither agrees nor disagrees is selected and one comment was left for each of these two questions.

- For Question 32, in relation to the statement that “The Committee assures itself that the Chief Executive Officer and General Managers take personal responsibility for risk identification and control.”, one respondent neither agreed nor disagreed and left the following comment:

*Respondent Comment – “Some additional effort required by Exec and SManagers to ensure risk information remains up-to-date and relevant”.*

- For Question 38, the statement that “The Committee understands the Administration’s fraud risk assessment and understands identified fraud risks.”, one respondent neither agrees nor disagrees and left a comment saying “*more work needed in this area*”.

### 3.2.7 **Oversight of Other Activities (Questions 39 to 46)**

- For this section, the respondents agreed to all of the five questions 39 to 43 and no comments were left by any respondents.
- The questions 44 to 46 were open ended questions. The following responses were given:
- For Question 44, “What do you consider the Committee’s greatest strength?”, the responses were as follows:
  1. *Open-ness and ability to talk freely without any constraints in time, diversity of experience*
  2. *depth of skills*
  3. *Diversity amongst its IMs and the enthusiasm and perspective of its EMs.*
- For Question 45, “Conversely, in your view what is the Committee’s greatest weakness?”, the responses were as follows:
  1. *At times can be overloaded with information and detail, making it more challenging to keep eye on bigger picture.*
  2. *Sometimes I don't get a sense that the AC is seen as an integral part of the risk management process.*
- For Question 46, “Any further Comments or Suggestions for Improvement not already covered in the sections above?”, the response was as follows:
  1. *My preference is that the AC is chaired by an IM as others are (not all) as I believe that is best practice.*

## 4. **CONCLUSION / PROPOSAL**

- 4.1 Overall the Audit and Risk Committee members were satisfied with the performance of the Audit and Risk Committee in each of the sections reviewed. Some comments and suggestions for improvements were made in response to the survey statements and Administration welcomes further feedback and clarity from the Committee.
- 4.2 The Audit and Risk Committee is to determine whether any further action is to be taken in relation to the assessment.

Audit & Risk Committee Self-Assessment for 2022

Q1 The TOR of the Committee provide clear information on the role and functions of the Committee and its oversight responsibilities on behalf of Council.

|                        | <b>AUDIT AND RISK COMMITTEE</b>   |
| <b>DATE</b>            | 12 April 2022   |
| <b>HEADING</b>         | Draft 2022/23 Long Term Financial Plan and Annual Business Plan   |
| <b>AUTHOR</b>          | Kate George, Manager Financial Services, Business Excellence  |
| <b>CITY PLAN LINKS</b> | 4.4 We plan effectively to address community needs and identify new opportunities<br>4.2 We deliver quality outcomes that meet the needs of our community |

**SUMMARY** The Draft 2022/23 Long Term Financial Plan and Annual Business Plan is presented to the Audit Committee for consideration prior to presentation to Council for endorsement for Public Consultation at the April round of meetings.

This report also provides details regarding the Local Government Reform and the rate oversight process that will be conducted by ESCOSA and will commence later this year, with City of Salisbury included in the first tranche.

#### **RECOMMENDATION**

1. The information be received
2. Council notes that the Audit Committee have reviewed the Council's Draft 2022/23 Long Term Financial Plan and Annual Business Plan in accordance with S126(4) (a,b) Local Government Act 1999.
3. That consideration is given by Council to a rate scenario that provides the ability to maintain ongoing financial sustainability balanced against the impacts for ratepayers within the range of 3.3% to 3.9%, noting that:
  - a) should Council determine a rate increase in the lower end of the range, then aligned to the work being undertaken on the Strategic Asset Management Plan, further consideration be given to addressing service levels that support the continued financial sustainability of Council.

#### **ATTACHMENTS**

This document should be read in conjunction with the following attachments:

1. Draft 2022/23 Long Term Financial Plan and Annual Business Plan
2. Budget Workshop 3 Scenario Graphs
3. Additional Scenario Graphs

## 1. BACKGROUND

- 1.1 The Annual Budget process is in progress with Council workshops during March, and the Budget and Finance Committee. The draft Long Term Financial Plan (LTFP) was presented at the third budget workshop on the 23 March 2022, which followed initial discussions of the LTFP in February.
- 1.2 The Draft Annual Business Plan (ABP) which incorporates the LTFP, Attachment 1, has been developed for Council's consideration and endorsement to commence public consultation and will continue to be updated to reflect all decisions of Council prior to public consultation commencing.
- 1.3 The attachment has been prepared with consideration of the feedback that was provided at the Third Budget Workshop 23 March 2022. The attachment will be considered formally at the Financial and Corporate Services Committee Meeting 19 April 2022, as will the rate increase for consultation, with Council to further consider and resolve at the Council Meeting 26 April 2022 and pending advice from the Audit Committee.

## 2. CONSULTATION / COMMUNICATION

### 2.1 Internal

- 2.1.1 There has been engagement across the organisation in preparing the draft operating budget and budget bids. There have been a series of workshops and meetings with Council to enable discussion and review of the draft budget, including budget bids and LTFP.

### 2.2 External

- 2.2.1 Community consultation will commence in May following endorsement by Council of a Draft Budget and Annual Business Plan.

## 3. REPORT

- 3.1 The Budget and LTFP process is well progressed with Council with the intent to go to community consultation in May. This report provides the opportunity for Council to seek advice from the Audit and Risk Committee, and meet the requirements of S126(4)(ab) of the Local Government Act.
- 3.2 There are a series of Local Government reforms that are being enacted and implemented progressively, noting that any potential impact of change in State Government on these reforms is not known at this time. Of importance in relation to the ABP and LTFP are the requirements for rate disclosures and also the rate oversight elements of the LGR which have been enacted.
- 3.3 In terms of rates disclosures, the LGA have developed a standard template and that has been included in the draft Annual Plan for public consultation on page 131 of Attachment 1, noting that it has been populated with estimates at this time.

### Rate Oversight Scheme

- 3.4 The rate oversight scheme commences in 2022/23 (for the 2023/24 ABP & LTFP) with the first tranche of Councils to provide information to ESCOSA by 30 September 2022. ESCOSA have released the draft framework for consultation, and City of Salisbury have been included in the first tranche of councils. Key elements include:

- ESCOSA will be reviewing Council's LTFPs and evaluating long term financial sustainability and providing 'advice' on the appropriateness of the plan
  - ESCOSA's advice and Council's response must be published in both the draft and adopted ABP of council for all subsequent years until the next oversight process (which happens every four years)
  - Advice will be constructive and provide council with time to implement – Councils can choose not to implement however this must be transparent and a rationale must be part of Council's response published in the ABP. Matters can be referred to the Minister for Local Government and Councils may be directed to act on ESCOSA advice.
  - First round Sept 2022 for publishing in 2023/24 ABP. This will be based on plans endorsed for 2022/23.
  - Underpinning the framework is the expectation that endorsed S126 plans, being Strategic Plan (City Plan), Strategic Asset Management Plan (SAMP) and LTFP, are integrated and aligned
  - Financial projections in SAMP must be affordable and included in LTFP, and if not affordable, what trade-off decisions are being considered to achieve long term financial sustainability
  - SAMP consultation of levels of service with the community to confirm the desired range and level of service
- 3.5 Whilst the Audit & Risk Committee and Council have a well-established practice for reviewing the LTFP, ABP and rate increases, ongoing consideration of financial sustainability, levels of service and the impact on rates will now also be independently reviewed.

#### Budget Update and Long Term Financial Plan

- 3.6 Council has been considering the 2023 budget and long term financial plan through a number of workshops over February and March. At the Budget Workshop 23 March 2022 the LTFP was considered with 3 scenarios presented, with year 1 CPI of 3.3% being the December 12 mths actual CPI for Adelaide.
- 3.7 Additionally, average rate increase set at ongoing CPI was also considered to support the understanding of the significant deficits that result from this option.

| Year 1 CPI 3.3% (Dec 2021 Actual) |  | Scenario Rate Increase |      |      |
|-----------------------------------|--|------------------------|------|------|
|                                   |  | Yr1                    | Yr2  | Yr 3 |
|                                   | 1. Average Rates at CPI+0.6% ongoing over the life of the plan   | 3.9%                   | 3.4% | 3.1% |
|                                   | 2. Average Rates Yr1=CPI, Yr2=CPI+0.9%, then ongoing at CPI+0.6% | 3.3%                   | 3.7% | 3.1% |
|                                   | 3. Average Rates Yr1=2.95%, then ongoing at CPI+0.6%             | 2.95%                  | 3.4% | 3.1% |
|                                   | 4. Average Rates = CPI   | 3.3%                   | 2.8% | 2.5% |

- 3.8 Graphs of these scenario are provided in Attachment 2 for reference.

3.9 Results of these Scenarios is presented in the table below:

| Year 1 CPI 3.3% (Dec 2021 Actual) |  | OSR | NFLR | ARFR |
|-----------------------------------|--|-----|------|------|
|                                   | 1. Average Rates at CPI+0.6% ongoing over the life of the plan   | ✓   | ✓    | ✓    |
|                                   | 2. Average Rates Yr1=CPI, Yr2=CPI+0.9%, then ongoing at CPI+0.6% | ✓   | ✓    | ✓    |
|                                   | 3. Average Rates Yr1=2.95%, then ongoing at CPI+0.6%             | ✗   | ✓    | ✓    |
|                                   | 4. Average Rates = CPI   | ✗   | ✓    | ✓    |

OSR ~ Operating Surplus Ratio  
 NFLR ~ Net Financial Liabilities Ratio  
 ASR ~ Asset Renewal Funding Ratio

3.10 Having a rate increase of CPI (Scenario 2, CPI 3.3% Dec 2021 Actual) for 2022/23 results in very low levels of surplus, whereas CPI+0.6% (Scenario 1) provides for ongoing levels of surplus with slightly more capacity, as depicted on the graph below. Scenarios 3 and 4 do not provide for ongoing financial sustainability.

3.11 Since preparing these scenarios there has been no opportunity to consider inflation further (March 2022 CPI to be released 28 April 2022), with the understanding that inflation is likely to be higher than that utilised in these scenarios

Inflation Forecast

- 3.12 The 12 months Adelaide CPI at Dec 2021 quarter was 3.3% which underpinned the scenarios presented on the 23 March 2022 to Council. However, since the December quarter there has been sustained higher fuel prices, which is filtering into the cost of groceries. It is reasonable to expect that the March Quarter CPI will be higher than December. With the Federal Budget being brought down on Tuesday 29 March, forecast national CPI has been set at 4.25%.
- 3.13 The CoS budget has been set with inflation that is now out of date, and consequently there may be cost increase that flow into 2022/23 financial year as contracts are renewed. This is always the case, that the budget lags behind actual inflation, but with a significant increase in inflation now anticipated managing within budgeted levels is a greater risk than in more typical years.
- 3.14 The increase in CPI and fuel prices is also expected to have increases into our valuation of our assets at the end of the financial year, which then impacts on the cost of depreciation into 2022/23. We have utilized a higher unit rate of escalation than in prior years to mitigate, however there is still risk that the actual escalation required will be higher than what has been provided.
- 3.15 The budget has also been recast for an increase in wages to 2.5%. With the LGE enterprise agreement expiring 30 June 2022, and MOA agreement 30 June 2023 there may be upward pressure on wages as predicted in the Federal budget.
- 3.16 With the forecast national CPI of 4.25% for the year ended 30 June 2022, further scenarios have been prepared for consideration.

Additional Scenarios

- 3.17 The following scenarios have been prepared to support Council in considering the appropriate level of rate increase in light of higher CPI and the associated impacts on our cost base.
- 3.18 The LTFP has the ongoing average rate increase at CPI+0.6%, and generally this would be based on access economics December forecasts. However, given that these forecasts are out of date with significant economic volatility, CPI has been forecast in line with the Federal Budget brought down Tuesday 29 March 2022.
- 3.19 The additional scenarios have been prepared with forecast CPI of 4.25% and are detailed below:

| Year 1 CPI 4.25% (Federal Budget 29 March 2022) |   | Scenario Rate Increase |      |      |
|---|---|------------------------|------|------|
|   |   | Yr1                    | Yr2  | Yr 3 |
| 5.  | Average Rates at CPI+0.6% ongoing over the life of the plan | 4.85%                  | 3.9% | 3.1% |
| 6.  | Average Rates Yr1=CPI, then ongoing at CPI+0.6%             | 4.25%                  | 3.9% | 3.1% |
| 7.  | Average Rates Yr1=3.9%, then ongoing at CPI+0.6%            | 3.9%                   | 3.9% | 3.1% |

- 3.20 The graph below contains these 3 scenarios, with all three being financially sustainable over the life of the plan.

3.21 Graphs of the Net Financial Liabilities Ratio and Asset Renewal Funding Ratio are contained in Attachment 1, and the table below summarises the results:

| Year 1 CPI 4.25% (Federal Budget 29 March 2022)                | OSR | NFLR | ARFR |
|--|-----|------|------|
| 5. Average Rates at CPI+0.6% ongoing over the life of the plan | ✓   | ✓    | ✓    |
| 6. Average Rates Yr1=CPI, then ongoing at CPI+0.6%             | ✓   | ✓    | ✓    |
| 7. Average Rates Yr1=3.9%, then ongoing at CPI+0.6%            | ✓   | ✓    | ✓    |

OSR ~ Operating Surplus Ratio  
 NFLR ~ Net Financial Liabilities Ratio  
 ASR ~ Asset Renewal Funding Ratio

3.22 Year 1 includes an increase in materials, contracts and other costs of an additional 0.5%, which is expected to cover cost increase that may flow through as contracts are rolled during the balance of this financial year, and during 2022/23.

3.23 In addition to the current economic variability and potential impact on expenditure, there may be further decisions that Council will take in relation to the 2022/23 budget. Examples include ongoing funding of the community bus service, which if continued on the same basis as the current trial will be a cost impact of \$200k and the potential expansion of inspector services which may be partially offset by expiation income

3.24 Also unknown at this time is the level of rate growth and additional rate revenue from other development activities. Combined, this impact has been estimated at 1% in the LTFP, and this is close to being achieved with 0.85% having flowed through rates data to date. What further movements is to come from the Valuer General is unknown at this stage.

- 3.25 The need to remain financially sustainable, the volatility in inflation, and the impact of rates on household budgets is worthy of careful consideration. The impact of the various scenarios on the proposed average residential rate and also on minimum rates is detailed below:

|                          | 2021/22  | Ave Rate Increase |          |          |          |          |          |          |          |
|--------------------------|----------|-------------------|----------|----------|----------|----------|----------|----------|----------|
|                          |          | 3.30%             |          | 3.90%    |          | 4.25%    |          | 4.85%    |          |
|                          |          | Ave Rate          | Increase | Ave Rate | Increase | Ave Rate | Increase | Ave Rate | Increase |
| Average Residential Rate | \$ 1,044 | \$1,078           | \$34     | \$1,085  | \$41     | \$1,088  | \$44     | \$1,095  | \$51     |
| Minimum Rate             | \$ 1,426 | \$1,473           | \$47     | \$1,482  | \$56     | \$1,487  | \$61     | \$1,495  | \$69     |

- 3.26 A presentation summarising the LTFP will also be provided to the Audit & Risk Committee as part of this agenda item.
- 3.27 The Draft Strategic Asset Management Plan on the agenda for tonight's meeting, is aligned to the financials in all scenarios of the LTFP, with the Asset Renewal Funding Ratio funded at 100% over the life of the plan scenarios. The intention is that the SAMP will be consulted concurrently with the Draft LTFP and ABP.

#### 4. CONSIDERATION OF A RATE INCREASE

- 4.1 Based on the information provided in this report, the Audit & Risk Committee is asked to consider the appropriate range of rate increases that balance the financial impacts on the community, while also maintaining the financial viability for Council to continue delivering the required services and also respond to emerging needs.
- 4.2 Although the forecast CPI scenario of 4.25% (Commonwealth forecast), will deliver a sound financial outcome for Council, it is unlikely that it is a viable option for the community who are also needing to fund higher costs of living due to cost pressures. This option is not being recommended.
- 4.3 The option that provides a level of funding that will allow Council to maintain a small operating surplus and minimize the impact on the community is the option aligned to the current approach to the LTFP, being CPI +0.6%.
- 4.4 At the lower end, should Council determine a rate increase towards the 3.3% then aligned to the work being undertaken on the Strategic Asset Management Plan, consideration may need to be given to the review of service levels to ensure the continued financial sustainability.
- 4.5 As such the Audit & Risk Committee is asked to consider the merits of a recommendation to Council of a rates increase within the range of 3.3% (option 2) to 3.9% (Option 1), with any increase towards the lower end needing some consideration of reduced service levels as part of the work already being undertaken on the Strategic Asset Management Plan.

##### Draft 2022/23 LTFP & ABP Consultation

- 4.6 Public consultation is planned to be conducted during May with the intended closing date for submissions being Wednesday 25 May 2022. Time will be made available at the commencement of the Council Meeting on the 23 May 2022 for verbal representations.

- 4.7 Advertising is planned to be placed in the Advertiser on Wednesday 4 May 2022, and the Draft 2022/23 LTFFP & ABP will be made available on the City of Salisbury website and social media platforms. Public comment is invited either by letter, email, phone or attendance at the May Council meeting. Additionally, the website provides the option to make a submission or to ask a question in relation to the Draft LTFFP & ABP by clicking on an embedded link.

## **5. CONCLUSION / PROPOSAL**

- 5.1 The Draft 2022/23 LTFFP & ABP has been prepared on the basis of information available as a result of budget workshops and meetings up to the end of March.
- 5.2 Various scenarios have been developed to understand the impacts on Council's financial capacity, ranging from CPI through to the forecast Commonwealth budget CPI of 4.25%.
- 5.3 It is recognised that a rate increase in the higher ranges may be more viable for Council's financial capacity but will not be viable for the community who are dealing with other cost of living pressures.
- 5.4 After an assessment of the various scenarios, it is being recommended that Council gives consideration to a rate increase within the range of 3.3% through to 3.9%.
- 5.5 If the rate increase is more aligned to the lower end of the range, then it is also recommended that consideration be given by Council on assessing service levels within the review of the Strategic Asset Management Plan that has already commenced.
- 5.6 Feedback is sought from the Audit & Risk Committee prior to seeking this endorsement of Council of an appropriate rate increase, also noting that S126(4)(ab) includes the review of the annual plan and long term financial plan as part of the functions of the Audit Committee.

## **CO-ORDINATION**

Officer:

Date:

Item 7.1.7 - Attachment 1 - Draft 2022/23 Long Term Financial Plan and Annual Business Plan

## Public Consultation

### To make a submission

If you wish to make a submission or comment on the Draft Annual Plan and Budget as currently presented, please send it to:

Financial.services@salisbury.sa.gov.au  
or call Hayley Berrisford on (08) 8406 8340

Alternatively please send to:

The General Manager Business Excellence  
City of Salisbury  
PO Box 8  
SALISBURY SA 5108

All submissions or comments need to be received by no later than Wednesday 25 May 2022 in order for them to be given due consideration. Any submissions received after this date will not be considered as part of this current budget process. Submissions may influence decisions not only for this Annual Plan but also for future years as well.

### Verbal Representation

The opportunity to make verbal representations may be impacted by COVID-19 requirements, however, at the time of preparing this document we are planning for verbal representations.

If you wish to make a verbal representation regarding the Draft Annual Plan, there will be an opportunity to do so at the commencement of the May Council meeting on Monday 23 May 2022 in the Council Chamber at 6.30pm.

If you would like to have a say on Council's plans, budget and rates please register your interest by contacting Hayley Berrisford by phone or by using the above email (see contact details above).

If the status of COVID-19 requires the discontinuation of verbal representations, parties who have registered will be contacted.

# Acknowledgement of Country

The City of Salisbury acknowledges that we are on the traditional Country of the Kurna people of the Adelaide Plains and pays respect to Elders past and present. We recognise and respect their cultural heritage, beliefs and relationship with the land. We acknowledge that they are of continuing importance to the Kurna people living today.

# Executive Summary

## Purpose

The Annual Plan describes Council's services, including new services and projects, together with their financial impacts. The purpose of the Annual Plan is to provide comprehensive information so that the community can consider the budget and how it aligns to the City Plan 2035. The Executive Summary provides a snapshot of the Annual Plan, and provides guidance as to where more information is available.

## Rate Increase

The Annual Plan is based on a proposed 3.9% average rate increase, with rates growth from the increase in the number of assessments anticipated at 0.60% and the increase from development activity estimated to be 0.40%. Further information about rates is contained in the Rating Strategy and Policy, pages 122 to 125.

|                       | 21/22<br>Actual | 22/23<br>Budget |
|-----------------------|-----------------|-----------------|
| Average Rate Increase | 2.80%           | 3.90%           |

## Service Provision

Service provision increases that will be delivered in 2022/23 include the integrated costs of operating the new Burton Community Hub \$185k, preventative maintenance of Council Property \$135k and ongoing elevated cleaning standards to combat COVID-19 \$214k.

## Operating Surplus

This year, Council has budgeted for an Operating Surplus of \$1.508M or 1.19% Operating Surplus Ratio. Further information is provided in the Budgeted Financial Statements and Analysis on pages 43 to 47.

## Financial Sustainability

Being financially sustainable means having:

- The ability to provide consistent services into the future
- Infrastructure, like roads, continuing to be maintained at an appropriate level
- Current ratepayers pay the costs associated with the services consumed
- New infrastructure provided to meet community expectations, balanced against increases in costs

We measure financial sustainability through three indicators. The Long Term Financial Plan, pages 14 to 17, shows that Council remains financially sustainable in the long term and continues to operate within target measurement ranges.

| Ratio                     | Target     | 22/23<br>Budget |   |
|---------------------------|------------|-----------------|---|
| Operating Surplus         | 0.5% - 5%  | 1.19%           | ✓ |
| Asset Renewal Funding     | 90% - 110% | 100%            | ✓ |
| Net Financial Liabilities | <70%       | 53.00%          | ✓ |

## Executive Summary continued

### Projects and Additional Services

All of Council's projects and additional services (Budget Bids) are detailed in the Annual Plan by category of spending, and can be found on pages 20 to 42.

Funds of \$17.1M are provided for asset updates/renewal in line with our Asset Management Plans, with significant items being:

- Road Reseal & Reconstruction \$8.1M
- Salisbury Water asset renewal \$1.2M
- Bridge Program \$1.7M
- Building Renewal \$1.3M
- Playspace Program \$0.6M
- Watercourse & Drainage Management \$0.8M

New or upgraded infrastructure funding of \$48.7m includes a number of new and large-scale projects, some of which are delivered over multiple years.

The redevelopment of the **Salisbury Recreation Precinct (SRP)** will transform Happy Home Reserve at Salisbury North into a modern, regionally significant aquatic, health and wellness precinct. This \$29.9 million project is made possible with the assistance of \$7.2 million funding provided by State Government.

**Reserves Upgrades**, which includes the building of Club facilities completes the upgrade to Fairbanks Drive Reserve, Paralowie and delivers the new clubroom facilities at Yalumba Drive Reserve, Paralowie. Investment in these projects is \$3.9M for 2022/23.

The **Paddocks Masterplan** implementation completes the construction of a new multi-use community facility at The Paddocks, one of the most significant recreation and open space precincts within the City. The total cost of this project is in the vicinity of \$4M, with \$3.2M of the total to be expended in 2022/23.

The **John Street and Church Street Revitalisation**, which will upgrade and refresh this precinct is scheduled for completion in early 2022/23.

The **Streetscape Program** is focused on improving the amenity of the City by replacing and upgrading existing street trees with species more appropriate to the space provided within our streets, plus renewal of verges to complete a more holistic transformation of the streetscape amenity. Council will spend \$2.3M in 2022/23 in this area.

**Major Traffic Improvements Program** expenditure of \$1.2M includes measures to address identified, specific major traffic network deficiencies.

The **City Wide Trails Program** aims to deliver a network of 37km of "Off road" linked shared use paths, with projects scheduled for completion in 2022/23 costing \$1.0M.

Item 7.1.7 - Attachment 1 - Draft 2022/23 Long Term Financial Plan and Annual Business Plan

## Elected Members

The Council of the City of Salisbury consists of the Mayor and 14 Councillors who represent the interests of the people of Salisbury. They are elected every four years during the South Australian Local Government elections. The Council is supported by administration staff who are led by the Chief Executive Officer.

The Council makes decisions about the governing and management of the City of Salisbury.

The Council sets the strategic directions, and makes decisions about allocation of the budget and the services and infrastructure that are provided within the boundaries for the City of Salisbury.

The administration, under the direction of the Chief Executive Officer, is responsible for providing advice, implementing the Council's agenda and strategic directions, delivering the services and undertaking the required works on behalf of the Salisbury community.

The Members of Council also vote on what action will be taken with regard to issues brought before the Council.

Elected members are volunteers who want to be involved in making the City a better place in which to live, work and do business. They do not get paid for the work they do for Council. They do receive an allowance to support them in discharging their duties as a Councillor, for expenses incurred and time spent in undertaking their role as Councillors, often making difficult decisions about complex and important matters.

The geographic area of the City of Salisbury is divided into seven parts, known as wards. Each ward has two Councillors who pay particular attention to what happens in the area they represent and advocate on its behalf.

Councillors are elected by the voters within the ward.

The Mayor of the City of Salisbury is the 'principal' member of the Council and is elected by all voters in the Council area.

Elected Members can be contacted to discuss any matter relating to Council.

# Our Vision

# Salisbury

a progressive, sustainable  
and connected community

Council's vision is for Salisbury to be a progressive, sustainable and connected community.

Council's Elected Members developed this vision after they considered the factors that characterise successful cities and their aspirations for Salisbury.

Successful communities are **progressive**. They embrace change as essential if they are to be liveable and competitive in a changing environment and economy. At the same time, successful communities take pride in their heritage and use their history as the foundation for identifying and creating opportunities and for understanding how to respond to challenges.

Successful cities think about the long term while making decisions today – this is the essence of **sustainability**. They care about the environment, their people and the legacy they leave for future generations. Internally, they are financially responsible, have excellent systems in place and promote a culture that values enduring outcomes.

**Connections** abound and take many forms. Some connections are social, such as friendships formed through community groups or with neighbours. Some are environmental, including the connections people have with nature or the biodiversity corridors that support wildlife. Other connections are economic, such as the links between residents, jobs and businesses. Salisbury is a diverse community and we value connections between our many cultures. For connections to prosper, there must be appropriate infrastructure that enables people to move and connect with places further afield.

The Salisbury community consists of the 143,560 people who live in our 32 suburbs, whether they have been here all their lives or are new arrivals; the 7,200 businesses and 53,000 workers that make Salisbury the state's fourth largest economy; and the community groups, schools, churches and sporting clubs that bring people together.

Salisbury has many of the building blocks in place to achieve its vision. The City Plan outlines the actions that Council will prioritise over the next four years to enable Salisbury to achieve it. The City Plan can be viewed at [www.salisbury.sa.gov.au](http://www.salisbury.sa.gov.au)

# Key Directions

This Annual Plan contains four key directions. Each direction includes a statement of what we want to aspire to achieve during the life of the annual plan, how we will achieve it and the indicators that will tell us how our City is progressing.

|  |   |  |  |
|--|---|--|--|
|  <p>A welcoming and liveable City</p>   |  <p>A sustainable City</p>   |  <p>A growing City that creates new opportunities</p>   |  <p>Innovation and Business Development</p>               |
| <p>Encompasses issues that affect the liveability of the City and the health and wellbeing of its people, including safety, social connections, the look and feel of our neighbourhoods, and the facilities and programs available to support our community's aspirations.</p> | <p>Includes protecting and conserving our diverse natural environment to support biodiversity, reducing Council's environmental footprint, ensuring we make the most of our resources and enabling our community, environment and infrastructure to be resilient to a changing climate.</p> | <p>This focuses on how we support the success and growth of local businesses, job opportunities for our residents, attracting investment, quality urban planning and providing infrastructure that supports economic activity.</p> | <p>Outlines how Council will work to provide exceptional experiences, deliver quality outcomes and be recognised as a great place to work.</p> |

### Overview

While seeking to achieve its City Plan vision, Council is mindful of its responsibilities to be financially sustainable. Being financially sustainable means having a financial position capable of meeting long term service and infrastructure levels and standards, acceptable to the community, without substantial increases in rates or disruptive cuts to services. It implies equity between generations. That is, each generation of ratepayers should pay for the services they consume. Future generations should not have to pay to maintain and renew the services they benefit at the expense of ratepayers.

Maintaining services (roads, drains etc.) are also appropriately maintained and renewed, and that there is investment in new assets. Two significant costs associated with infrastructure assets are depreciation, which is the decline in value of assets through their use, and borrowing costs to fund new assets.

Council Asset Management Plans (AMPs) define the level of expenditure required to maintain and renew assets. The Long Term Financial Plan (LTFP) aligns to the AMPs, although in each budget year Council may vary its expenditure for a variety of reasons including updated asset information that indicates higher or lower levels of renewal expenditure are required.

Property development projects will continue to provide significant cash injections over the 10 year plan. Returns are based on the land feasibility and have been discounted reflecting that further detailed work is required to finalise financial returns on a project by project basis.

The Statement of Comprehensive Income (see next page) shows the Operating Surplus/(Deficit) before Infrastructure Amounts, and reflects the decisions to expand service delivery in 2021/22.

### Assumptions

The forecasts are based on a number of assumptions and as with all projections it is likely that actual events will turn out differently. These figures, however, represent our best estimates for planning purposes. Key assumptions are detailed in the table above, and commentary includes:

- Rates growth from new development in the city is projected at a low level reflecting primarily infill development.
- Developments financial returns annum over the 10 year plan, subject to a regular capability review.
- Superannuation contribution includes superannuation contribution which remains at 9.5% until 30 June 2021 and then increases to 12% by 30 June 2026.
- Inflation reflects Access Economic CPI forecasts.

Additionally the estimated new and upgraded infrastructure assets expenditure has been set at \$24.2M in year two of the LTFP. This is reflective of the current scale of the infrastructure program, and the desire of Council to continue to improve the service delivery from our infrastructure assets. However from year three of the plan the budgeted new infrastructure expenditure has been normalised to \$15M and then adjusted by CPI over the remaining years.

Salisbury Water business returns are kept constant into the future, as our aim is to be financially sustainable without these returns.

The full ten year Long Term Financial Plan Budgeted Financial Statements are contained within Appendix A.

# Long Term Financial Plan 22/23 to 31/32

## Financial Indicators

As part of the emphasis for Councils to become financially sustainable standardised indicators have been developed. These indicators compliment the financial detail contained within the Long Term Financial Plan, and highlight our projected success at maintaining a financially sustainable Council.

- Within Endorsed Operating Range
- Outside Endorsed Operating Range

### Operating Surplus Ratio

Councils with a positive Operating Surplus Ratio have current rate payers meeting the costs of the services that they are consuming. The larger the ratio the more revenue that is available to fund infrastructure expenditure, which results in lower levels of debt. The Operating Surplus Ratio is the primary indicator of Financial Sustainability.

City of Salisbury is within the operating range of this indicator over the life of the plan.

# Long Term Financial Plan 22/23 to 31/32

Net Financial Liabilities Ratio

This ratio indicates the extent that Council can meet its net financial liabilities out of a single year's operating revenue. Councils with a lower ratio are stronger in their capacity to meet their financial obligations.

Council took the decision to support economic recovery following the COVID-19 pandemic, through a range of initiatives including an expanded infrastructure program. This has resulted in our sitting outside the endorsed target range for this indicator for the first three years of the plan and then within the range for the rest of the life of the plan. Sitting above the range is not an issue as the plan reflects that it is short term, and in response to extraordinary circumstances.

Asset Renewal Funding Ratio

This ratio indicates whether infrastructure assets are being renewed in line with the Strategic Asset Management Plan (SAMP). A ratio of 100% means that Council is budgeting to renew assets as initially planned, and as SAMP details the optimum timing for the renewal and replacement of assets, a ratio of 100% means that infrastructure assets are maintained, as are service levels, at the lowest cost to the community.

As the SAMP is a long-term plan, Councils will vary expenditure based on updated asset information, and also to time new and renewal works together to achieve better outcomes, and reduce the cost. The \$100M COVID-19 Infrastructure Recovery Program in 2021 has impacted the ratio, with year 1 being above the normal budgeted level of 100%, and year 2 being slightly below the endorsed range. Over the life of the plan renewal expenditure is within the endorsed range.

## Overview of Our Annual Plan 2022/23

The City of Salisbury's Annual Plan is an important part of our planning; one that links our overarching long term City Plan with our budget, the services delivered and rate levels.

### Key Directions

Sustainable Futures - Salisbury City Plan outlines four Key Directions which guide our objectives and strategies over the long term:

- A welcoming and liveable City
- A sustainable City
- A growing City that creates new opportunities
- Innovation and Business Development

### Budget Pressures

Council continues to monitor closely its financial position and especially long-term financial sustainability. Cost inflationary pressures, the demand for increased services and the delivery of new initiatives are carefully considered and managed so that Council is able to deliver sustainable long-term financial outcomes.

### Sound Financial Management

The budget delivers an operating surplus to ensure our financial position is sustainable and equitable between generations of ratepayers, and builds capacity for the future. The 2022/23 budget delivers:

- An operating surplus of \$1.508M
- Gross infrastructure investment of \$65.8M (including \$17.1M of asset renewal) and a net cost of \$63.7M including grants.
- Moderate and sustainable levels of debt, with net financial liabilities of \$78M or 58% of total operating revenue.

### Rate Increase

The 2022/23 proposed average rate increase is 3.9% and increases from rates growth from the increase in the number of assessments is anticipated at 0.68%, while the increase from development activity is estimated to be 0.40%. Actual Adelaide Annualised CPI at December 2021 was 3.3%, and whilst some Local Government costs move in line with CPI, Councils purchase a different "basket of goods" to households, and consequently CPI is not fully reflective of Local Government cost increases.

More detail regarding rates is contained within the Rating Strategy and Policy section of this document.

### Operating Budget Bids

Some of the projects included in the budget are:

|   |          |
|---|----------|
| Information Technology                        | \$0.6M   |
| COVID-19 Cleaning Measures                    | \$0.2M   |
| Burton Community Hub Operations               | \$0.185M |
| Property & Buildings Preventative Maintenance | \$0.135M |

Full details of Council's operating bids are provided from page 20.

Council continues to invest in its Information Technology systems to ensure a robust, protected and sustainable technology platform for the community and Council's operations. Technology enhancements for 2022/23 include the introduction of social media management tools; improvement of access and security for user access to Council systems; and ongoing development of network protection measures.

COVID-19 has an ongoing impact on the cleaning and sanitary aspects of Council's operations and community assets. To ensure the safest possible experience for the community, high touch cleaning takes place across our high traffic sites, which include public toilets, Salisbury Community Hub, Operations Centre and Jack Young Centre. Auto hand sanitizer units are placed throughout Council occupied buildings, and hygienic wipes are available for staff and public to wipe down work spaces after use. The COVID-19 Cleaning Measures initiative provides ongoing elevated service levels in 2022/23 for cleaning and sanitation across Council.

The new Burton Community Hub will be delivered and open for the public in July 2022. As a new integrated facility across several buildings and services, a new 'hub' budget incorporates the operating costs of running this facility. This operating budget covers all operational costs for the Burton Community Hub, including the increase in service provision for the new facility.

Additional funding is required for the Property & Buildings Preventative Maintenance Program to ensure that building assets are maintained in accordance with legislative requirements, Australian standards and lease obligations. This increase in service levels ensures that building assets are regularly maintained to reduce reactive maintenance, which can impact on the users of the building as well as increasing the life of the asset overall.

# Overview of Our Annual Plan 2022/23

## Infrastructure Program

### Asset Renewal

Council manages community assets valued at \$2 billion in the form of roads, footpaths, drains, buildings, parks etc. Many were created as the city developed rapidly in the 1960's, '70's and '80's. Our Asset Management Plans set our forward plan for how to most economically manage, maintain and renew our assets.

In 2022/23 Council will spend \$17.1M on renewal, with major items being:

- Road reseal and reconstruction \$8.1M
- Salisbury Water Asset Renewal \$1.2M
- Bridge Program \$1.7M
- Building Renewal \$1.3M
- Playspace Program \$0.6M
- Watercourse and Drainage Management Works \$0.8M

### Major Infrastructure Works

The infrastructure program includes a number of large scale projects, some of which are delivered over multiple years. 2022/23 expenditure for these projects is detailed below:

|  |         |
|--|---------|
| Salisbury Recreation Precinct Redevelopment  | \$25.5M |
| Reserves Upgrades including Club facilities  | \$3.9M  |
| The Paddocks Masterplan Implementation       | \$3.2M  |
| John Street and Church Street Revitalisation | \$5.0M  |
| Streetscape Program                          | \$2.5M  |
| Major Traffic Improvements Program           | \$1.1M  |
| City Wide Trails Program                     | \$1.0M  |

Full details of Council's four-year Infrastructure program is provided from page 26.

### Salisbury Recreation Precinct Redevelopment

The redevelopment of the Salisbury Recreation Precinct (SRP) will transform Happy Home Reserve at Salisbury North into a modern, regionally significant aquatic, health and wellness precinct. This \$29.9 million project is made possible with the assistance of \$7.2 million funding provided by State Government. The new aquatic facility will operate all year round and includes new swimming centre building infrastructure and amenities; a new indoor multi-use lap/leisure pool and specialty program pool; a fitness gym and café; a new outdoor 8 lane 50m swimming pool; new outdoor water slides and fun waterplay area; landscaping improvements; and upgraded carpark and pedestrian links. The Salisbury Aquatic Centre is expected to be complete in 2023.

### Reserves Upgrades including Club facilities

Following community consultation and design development, 2022/23 will see the completion of the upgrade to Fairbanks Drive Reserve, Paralowie and the delivery of the new clubroom facilities at Yalumba Drive Reserve, Paralowie. Investment in these projects is \$3.9M for 2022/23.

### The Paddocks Masterplan Implementation

The Paddocks is one of the most significant recreation and open space precincts within the City of Salisbury. The construction of a new multi-use community facility, commenced in 2021/22, will be completed in 2022/23 at a total cost of \$4M, with \$3.2M of the total to be expended in 2022/23. The project will deliver improved connections between residential and recreation areas; provide footpath connections and open sightlines between the residential neighbourhood and the sports ovals to improve safety and accessibility; add a sense of connectivity for residents; and provide improved landscaping and carparking.

### John Street and Church Street Revitalisation

In accordance with the Salisbury City Centre Church and John Street Improvement Plan community consultation and Salisbury City Centre Renewal Strategy the completion of the Church and John Street upgrade is anticipated for early 2022/23.

### Streetscape Program

The Streetscape Program is focused on improving the amenity of the City by replacing and upgrading existing street trees with species more appropriate to the space provided within our streets. Council's focus is on improving the amenity of the City by replacing and upgrading existing street trees with species more appropriate to the space provided within our streets and renewal of verges to complete a more holistic transformation of the streetscape amenity.

### Major Traffic Improvements Program

The Major Traffic Improvements Program includes measures to address identified, specific major traffic network deficiencies. In 2022/23 funds have been allocated for works including Light Common /Main Street intersection; Ingle Farm Local Area Traffic Management Plan; and Helps/Edinburgh Roundabout and similar intersections upgrades to accommodate A-Trains.

### City Wide Trails Program

The City-Wide Trails Program aims to deliver a network of 37km of "Off road" linked shared use paths. Proposed development for the 2022/23 financial year (subject to a successful funding application) will be Dry Creek, Valley View following the completion of the Pauls Drive upgrade, which includes a shared use path underpass & alternate route connection improvement at the Port Wakefield Road, Dry Creek Underpass which is currently in the design phase.

# Information Technology Budget Bids

Item 7.1.7 - Attachment 1 - Draft 2022/23 Long Term Financial Plan and Annual Business Plan

## Information Technology Budget Bids

|   | 2022/23 |                    | 2023/24 | 2024/25        | 2025/26        |                |
|---|---------|--------------------|---------|----------------|----------------|----------------|
|   | Exp     | \$000's<br>Funding | Net     | \$000's<br>Net | \$000's<br>Net | \$000's<br>Net |
| <b>Innovation and Business Development</b>  |         |                    |         |                |                |                |
| <b>IT Desktop Asset Renewal</b>   |         |                    |         |                |                |                |
| Programmed asset refresh of desktop and end user equipment across all City of Salisbury operating locations.  | 267     | 0                  | 267     | 347            | 1,249          | 459            |
| <b>Social Media Enhancement Tool</b>  |         |                    |         |                |                |                |
| Implement social media enhancements such as pre-scheduled social media posts, superior photographic capabilities, image resizing and copying to enhance vital components and features of the City of Salisbury's social media content.  | 16      | 0                  | 16      | 17             | 0              | 19             |
| <b>Transition Telephony to MS Teams</b>   |         |                    |         |                |                |                |
| Complete the final transition of telephony services to a full hosted telephony solution (Microsoft Teams) and provide a single toolset for collaboration and telephony.   | 96      | 0                  | 96      | 14             | 6              | 4              |
| <b>Access &amp; Security - Single Sign-On Activation</b>  |         |                    |         |                |                |                |
| Access & Security is a crucial information security, risk management and business discipline critical to our cybersecurity program. Activating Single sign-on (SSO) to our applications and solutions ensures the right people gain access to the right resources with a single set of credentials.   | 35      | 0                  | 35      | 30             | 0              | 0              |
| <b>Access &amp; Security - Multi Factor Authentication for CoS Staff</b>  |         |                    |         |                |                |                |
| Access and Security is a crucial information security, risk management and business discipline critical to our approach to cyber security. Activating multi-factor authentication (MFA) will enhance security by requiring users to identify themselves by more than a username and password. Whilst important, usernames and passwords are vulnerable to brute force attacks and can be stolen by third parties. | 86      | 0                  | 86      | 41             | 41             | 41             |
| <b>Expansion of Centrally Managed Wi-Fi</b>   |         |                    |         |                |                |                |
| To facilitate a roll-out of corporate grade Wi-Fi at community centres to align with the solution provided in the Salisbury Community Hub.  | 101     | 0                  | 101     | 101            | 0              | 0              |
| <b>Asset refresh of ESXi Servers</b>  |         |                    |         |                |                |                |
| Programmed asset refresh of ESXi Servers across City of Salisbury operating locations. As more corporate systems move to a hosted environment, there will be significantly less requirement to replace serviced infrastructure in the future.   | 22      | 0                  | 22      | 22             | 22             | 22             |
| <b>Digital Media Database</b>   |         |                    |         |                |                |                |
| Implement a digital media database to provide the ability to store, catalogue and retrieve our corporate photographs and videos and allow the tracking of intellectual property (copyright) to prevent misuse and potential penalty.  | 19      | 0                  | 19      | 15             | 16             | 17             |

| Other Revenue                  | 1.1.7     | 831                                  | 897                                   | 65                                 | 7.83%           |
| <b>Total Operating Revenue</b> |           | <b>129,286</b>                       | <b>135,990</b>                        | <b>6,704</b>                       | <b>5.19%</b>    |

### 1.1.1 Rates Revenue (\$5.9M Increase)

The anticipated rates revenue in 2022/23 is \$112.2M which when compared to 2021/22 of \$106.3M, represents an increase of \$5.9M or 5.54%. This reflects the average rate increase of 2.9% with rates growth from the increase in the number of assessments anticipated at 0.6% and the increase from development activity estimated to be 0.4%.

### 1.1.2 Statutory Charges (\$155k Decrease)

Statutory Charges relate to fees and fines levied in accordance with legislation and include Dog Registrations, Health Act Regulations, Development Act fees and Parking Expiations. Statutory Charges are forecast to decrease by 5.17% or \$155k compared to 2021/22.

This incorporates decreases in Parking Expiations of \$115k and Dog Registration Fees of \$52k associated with lower volumes.

### 1.1.3 User Charges (\$21k Decrease)

User Charges are for the recovery of service delivery costs through the charging of fees to the users of the Council's services. These charges are forecast to be \$5.3M in 2022/23, which is a decrease of 0.39% or \$21k compared to 2021/22, resulting from a decrease in Activity Income of \$34k and Hall Hire Fees of \$19k associated with lower volumes across Community Centres.

# Budgeted Financial Statements and Analysis 2022/23

## 1.1.4 Operating Grants & Subsidies (\$888k Increase)

Operating Grants and Subsidies for 2022/23 are forecast to be \$14.3M, which is an increase of \$888k or 6.61% as compared to the budgeted amount of \$13.4M in 2021/22.

The forecast increase in Operating Grants & Subsidies is the result of \$771k higher Grants Commission funding.

## 1.1.5 Investment Income (\$22k Decrease)

The Council earns investment income primarily in the form of interest from the investment of cash surpluses throughout the financial year.

Investment Income for 2022/23 is forecast to generate \$71k which is a decrease of \$22k compared to 2021/22.

## 1.1.6 Reimbursements (\$60k Increase)

From time to time the Council enters into commercial arrangements under which it performs services on behalf of third parties, and seeks reimbursement for undertaking those services.

During 2022/23 it is estimated that the Council will receive \$60k higher reimbursements for council facilities which is offset by higher costs.

## 1.1.7 Other Revenue (\$65k Increase)

Other Revenue comprises all the miscellaneous items of revenue which do not fall into any of the other revenue categories.

During 2022/23 Other Revenue is forecast to increase to \$897k as compared to \$831k in 2021/22. This represents an increase of \$66k or 7.94% and is mainly associated with \$73k higher internal water sales related to new projects which is offset by higher costs.

| Finance Costs                           | 1.2.3     | 1,222                                | 1,444                                 | 222                                | 18.16%          |
| Depreciation, Amortisation & Impairment | 1.2.4     | 30,061                               | 31,856                                | 1,795                              | 5.97%           |
| <b>Total Operating Expenses</b>         |           | <b>127,603</b>                       | <b>134,482</b>                        | <b>6,880</b>                       | <b>5.39%</b>    |

### 1.2.1 Employee Costs (\$2.6M Increase)

Employee costs include all associated labour related on-costs such as allowances, leave entitlements and the Superannuation Guarantee Charges (SGC). It also considers the effects of Enterprise Bargaining Agreements; general salary increments and the impact on employee costs resulting from changes in grant funding.

During 2022/23 employee costs are forecast to increase to \$42.8M as compared to \$40.1M in 2021/22, which is an overall increase of \$2.6M or 6.58%. In addition to enterprise agreement wage increases this increase includes a legislated increase to the SGC of 0.5% in 2022/23, outcomes from organisational structural changes, and changes in capitalisation levels of staff time.

### 1.2.2 Materials, Contracts & Other Expenses (\$2.2M Increase)

Materials, Contracts and Other Expenses include purchases of consumables that are used throughout the Council for the provision of services. It includes utility costs, and works and services which the Council sources externally, so as to allow the Council to perform its operations. It encompasses a broad range of other expense items including contributions to community groups, advertising, insurance, legal advice, motor vehicle registrations and numerous other miscellaneous expenses.

The budgeted amount for materials, contracts and other expenses is forecast for 2022/23 at \$58.4M as compared to \$56.2M in 2021/22. This is an increase of \$2.2M or 3.96%. Major movements in expenditure include Information Technology \$920k, COVID-19 Cleaning measures \$214k, service level increases relating to the Burton Community Hub \$185k, Waste Management \$184k, and Home and Community Support \$200k which is offset by additional funding.

# Budgeted Financial Statements and Analysis 2022/23

## 1.2.3 Finance Costs (\$222k Increase)

Borrowing costs relate to interest charged by financial institutions on funds that have been borrowed by the Council.

The interest costs of \$1.44M forecast for 2022/23 is an increase of \$222k or 18.16% as compared with \$1.22M in 2021/22. This results from the infrastructure recovery program that was implemented by Council in response to the economic impacts of COVID-19, which has necessitated higher borrowings and increased grant funding which requires matched funding from Council.

## 1.2.4 Depreciation, Amortisation & Impairment (\$1.8M Increase)

Depreciation is an accounting measure which measures the usage of the Council's infrastructure (such as roads and drains), property, plant and equipment over the estimated effective useful life of the assets.

In 2022/23 the forecast amount of depreciation is \$31.9M compared to \$30.1M for 2021/22. This is an overall increase of \$1.8M or 5.97%, which reflects the impacts of new assets coming on stream and the revaluation of existing assets.

# Functional Presentation of the Budget

In this section of the Annual Plan the Operating Budget has been presented using a Functional View.

## Full Cost

The City of Salisbury has a legislative obligation, under the Local Government (Financial Management Regulations) 2011 that requires Councils to ensure that externally provided financial information is made available on a full cost basis.

Full cost attribution is effectively a system under which all costs, including indirect and overhead costs, are allocated to a function, activity or program on a reliable and consistent basis. In other words full cost attribution seeks to determine the true cost of any function of Council by allocating indirect costs, including administration and management costs, to Council services.

The most prevalent reason to provide financial information on a full cost basis is that knowing and understanding the full cost of a service is essential information required in order for Council to continue to effectively manage and administer the City of Salisbury's budget.

For 2021/2022 The City of Salisbury has implemented an updated full cost allocation model, and for consistency this updated model has been applied to the 2020/2021 budget.

## Functional Presentation of the Budget

The presentation of the Budget has been aligned with the City of Salisbury's Planning Framework; that is the City Plan 2035. This Planning Framework is structured around four Key Directions, A welcoming and liveable City, A sustainable City, A growing City that creates new opportunities, Innovation and Business Development.

The various Council services are presented in accordance with the Key Direction they are related to. This has the effect of demonstrating the contribution each service area will achieve in working towards the goals outlined under each direction, as well as presenting key service levels and costs associated with the performance of these services.

\* Sundry expenditure is primarily depreciation, with income being untied grant funding.

## A welcoming and liveable City

Item 7.1.7 - Attachment 1 - Draft 2022/23 Long Term Financial Plan and Annual Business Plan

# Foundations

- ✓ Our City is attractive and well maintained
- ✓ The health and wellbeing of our community is a priority
- ✓ People are valued and they feel safe, included and connected
- ✓ We are proud of our strengths, achievements and cultural diversity
- ✓ Our community is resilient and adaptive to change

## Council's commitment to develop a welcoming and liveable City

Council will:

- ✓ deliver and support programs that promote active living, health and wellbeing throughout the community
- ✓ provide community and sporting facilities that cater for a diverse range of interests and needs
- ✓ support clubs and community groups to increase participation
- ✓ connect people to information, people and programs that help them achieve their goals
- ✓ celebrate our community's diversity
- ✓ design services, places and programs that are safe and welcoming for all
- ✓ inform, connect and empower people and neighbourhoods to increase self-reliance
- ✓ provide experiences that make our places lively and interesting
- ✓ facilitate housing choices
- ✓ encourage businesses to become more involved in our community

## CRITICAL ACTIONS

| Strategic Projects   | Budget Context   |
|--|--|
| Upgrade community hubs at Burton and Ingle Farm  | The Burton Community Hub is on track to be delivered on time and within budget. The Communications Plan is being executed as planned and work has occurred to ensure the furniture, fixtures and equipment expenditure is within budget. An opening day will be delivered in the first quarter for the Community to come and experience the new facility.  |
| Implement St Kilda and Paddocks masterplans  | St Kilda Master Plan works were completed in 2021 with the delivery of the new boat ramp and launch structures. Subsequent stages of the Master Plan remain unfunded in Council's long term financial plan.<br>The Paddocks Masterplan is continuing to be delivered with the New Regional Playspace being delivered in the second quarter of 2022, as well as new fitness equipment nodes, viewing mound, clearing of reeds from the pond, and installation of a viewing deck. A new shared clubroom facility is also being designed, with construction expected to commence in coming months. Upgrades to site access trails and the Netball courts are also underway.<br>Renewal maintenance works have been scoped for the Para Hills knights club rooms and will be completed in late 2022.<br>Concept work is being developed to scope and cost future works in accordance with the endorsed Masterplan. |
| Complete the Bridgestone athletics facility and maximise its use   | Bridgestone Athletics Centre will continue to provide a state-of-the-art home to three local athletics clubs, supporting increased participation in physical activity. The Centre will continue to host large scale events and will broaden its reach to further activate the Centre. Athletics SA will be supported to use the facility whilst the State Centre is upgraded.  |
| Provide at least 15% affordable housing through Council's development projects   | All Council's future development sites will include a minimum of 15% affordable housing. The Lake Windemere project is progressing and will deliver well over 15% affordable housing.  |
| Implement the regional public health plan and wellbeing agenda   | The new Regional Public Health Plan will be delivered this year. The Reconciliation Action Plan review continues and an enhanced program has been developed to commemorate Sorry Day and celebrate National Reconciliation Week and NAIDOC.  |
| Enhance the visual appearance and amenity of public space through an expanded verge maintenance program, appropriate lighting and more greening of reserves        | Council is delivering the Reserve Upgrade and New Playgrounds infrastructure bids in alignment with the agreed levels of service along with irrigation reactivation projects completed to date include:<br>Sunderley Green playground renewal and irrigation;<br>Camelot Drive dog park and playground;<br>Baltimore Reserve dog park and playspace;<br>Delamere Reserve irrigation reactivation; and<br>Camelot Drive Reserve irrigation and playground.<br>Lighting activation programs are continuing with the support of budget allocations to enhance the spaces throughout the city. These projects include:<br>Carisbrooke shared use path lighting;<br>Davey Oval sports field; and<br>Mawson Lakes lake edge lighting.  |
| Improve our playgrounds and sporting facilities and cycle paths  | Council continues to deliver the Reserve Upgrade and Renewal Playspace and programs with an increase in Levels of Service through consultation with Ward Councillors.<br>Further extension of the Green Trails project along Little Para River Trail from Main North Road to Jenkins Reserve, Salisbury Park has been completed.<br>Sections of Gawler Greenway through Parafield Gardens have been completed north of Mawson Lakes with additional stages to be funded with Department for Infrastructure and Transport, over the next 3 years connecting the City of Salisbury to the Gawler Greenway which currently exists on Council's southern boundary at Cavan.  |
| Implement the 'Ability Inclusion Strategic Plan', including providing more equipment in our playgrounds that is able to be used by people with different abilities | The Ability and Inclusion Strategic Plan is being implemented with a particular focus on developing Universal Design Guidelines for Local Government, Easy Access Communication training for front line staff and Universal Design workshops and training for staff.   |

| CRITICAL ACTIONS  |  |
|---|--|
| Operational Focus   | Budget Context   |
| Improve quality and cleanliness of residential areas  | Increased verge maintenance has been endorsed as business as usual with budget allocated for this increased level of service.<br>Council has endorsed a verge revitalisation program to be run in association with the streetscape renewal program, to increase the greening within the City.<br>An additional Street Sweeper and Sweeper Operator are funded in 2021/22 Budget. This additional resource will assist with urgent reactive street sweeping and also enable an improved service during times of heavy leaf fall, or storm response.   |
| Promptly remove rubbish dumped on public land   | 100% compliance to 10 days service response. Comment that there continues to be a large volume of dumped rubbish across the city, with over 1200 dumped rubbish litter jobs so far this financial year.  |
| Implement Council's community safety strategy, including CCTV coverage  | Delivery of actions in Council's community safety plan include:<br>Finalisation of the relevant procedures and delivery of the Community and Special Circumstances CCTV programs in 2022.<br>Development and delivery of a White Ribbon event and maintaining our accreditation.<br>Public lighting upgrades and public realm improvements<br>Community safety awareness campaigns and localised responses to antisocial behaviour to support amenity and community connections.<br>John St/Church St renewal project including community safety improvements and activations<br>Delivery of the Salisbury Interchange Memorial improvement project<br>Regular stakeholder engagement meetings with SAPOL and other key community safety groups  |
| Ensure public places are accessible and sporting facilities are maintained  | Access for public spaces and sporting facilities is an ongoing consideration and undertaken in all of our planning and design phases.<br>Council has increased the number of pieces of equipment fully accessible with rubber pour through the renewal program with policy developed to support minimal access requirements for public places and facilities.<br>Council is in the process of developing a Universal Design Policy/Framework, with this to be applied all projects, with a focus in 2022/23 on John Street, Church Street, and the new Salisbury Aquatic Centre having a universal and inclusive focus.<br>Inclusions in upgrade works generally include: <ul style="list-style-type: none"> <li>- Compliant paths to and from the carpark</li> <li>- Access through the clubroom (eg door widths)</li> <li>- Inclusive toilets including a dedicated disabled toilet, which includes a shower</li> <li>- Ambulant toilets in the Male &amp; Female restrooms</li> <li>- Projects completed in the last 24 months (Which include the above in their upgrade) include: <ul style="list-style-type: none"> <li>- Cycle Speedway Salisbury North</li> <li>- Pooraka Tennis Club</li> <li>- Parahills West Soccer club</li> <li>- Parahills Tennis Club</li> <li>- Brahma Lodge Football/Macedonian Soccer Club</li> <li>- Cross Keys BMX Club</li> <li>- Unity Park Public Toilets</li> </ul> </li> </ul> |
| Provide support and grants to sporting and community groups   | The Minor Capital Works and Community Development Grants will be delivered supporting local organisations to deliver meaningful outcomes for the community.  |
| Work closely with Community and Senior Centres to provide effective and well received programs  | Council will continue to deliver high quality Services to NDIS and CHSP clients in a challenging COVID environment. We have an ongoing focus on working with the information provided by CHSP and SA Health to ensure staff and clients have up to date and reliable information regarding the unfolding COVID-19 circumstances.<br>Inclusive and accessible programs continue to be delivered.<br>Consultation with community members continues to occur to ensure the programs delivered are addressing the requirements community needs.  |
| Deliver Council's intercultural Strategic Plan to build connections and increase collaboration among community groups and service providers | Council won the Cohesive Communities national Local Government Awards presented by the Commonwealth for its work on the Intercultural Strategic Plan and the Access and Inclusion Plan. This work will continue this year.<br>The Intercultural Alliances continue to meet regularly, and the Universal design guidelines are on track for delivery this year.<br>Council was also awarded the 2021 Minister for Health and Wellbeing - Excellence in Public Health Award for our commitment and partnership approach to ensuring the continued delivery of services to vulnerable and isolated older community members during the first and second year of the pandemic. This work will continue this year and council will continue to be a leader within the sector.<br>A Harmony Week event will be held in March.   |

| CRITICAL ACTIONS  |   |
|---|---|
| <p><b>Future Planning</b></p> <p>Develop a place activation strategy</p> <p>Assess future social infrastructure needs</p> <p>Update the 'City Pride' strategy</p>   | <p><b>Budget Context</b></p> <p>Framework for consideration of place activation by use, per destination has been endorsed by Council. Consideration of the levels of service for Community Facilities is currently being developed</p> <p>The first phase of Council's community planning process has commenced. Council will establish a report outlining Council's key data sets across a series of quality-of-life measures which will inform future social infrastructure needs.</p> <p>The Place Activation Strategy – Community Facilities will be delivered and provide direction on Council's community assets.</p> <p>Community Capacity &amp; Learning's Northern Regional Consortium Employment Pathways Project has established an integrated framework that links 3 local councils, their economic development teams, learning programs and employment pathways. This consortium will continue to deliver programs this year.</p> <p>The first phase to establish a report outlining Council's key data sets across a series of quality-of-life measures that Council can deliver has commenced. The following phases will include community consultation and the development of both the Regional Public Health Plan and the City Pride Strategy later this year.</p>   |
| <p><b>Advocacy Priorities</b></p> <p>Increased resourcing and services to make our community a safer place</p> <p>Improve public transport options</p> <p>Improved infill development policies and urban design</p> <p>Programs and services to address mental health, housing and income inequality issues</p> | <p><b>Budget Context</b></p> <p>Twelve25 has implemented a series of infrastructure enhancements that will improve the amenity and safety of the site and activation of the back courtyard will occur this year.</p> <p>Council has implemented Neighbour Days with the first to be held in late March 2022. These events will increase neighbourhood connections and build community resilience.</p> <p>Play Streets will be delivered in October to promote children having safe places to play within their local neighbourhood streets.</p> <p>Council has been working with the State Government on a major amenity uplift to the Salisbury Interchange, including new public toilets and landscaping. This work is currently being implemented and will be complementary to the upgrade of Church and John Streets.</p> <p>Council is working to support delivery of Gawler Greenway project with the State Government as funding becomes available.</p> <p>Council has also assisted the State Government with the Gawler Electrification Project and will deliver revegetation works following completion of project by the State Government</p> <p>Council continues to refurbish bus shelters across the city.</p> <p>Council offers a free internal design review process for developers at pre-lodgement stage (also used during development assessment phase). In addition, infill guidelines for narrow frontage homes and verge reinstatement developed have been made available to the public. Other guidelines are being developed as required.</p> <p>Council continues to collaborate with The Northern Homelessness Alliance to re-establish services in the north. A commitment has been provided by the Alliance to develop a service model that will provide a Rough Sleep Protocol to assist homeless people.</p> <p>In late 2021, Council approved a financial contribution to the appointment of the Wellbeing Director for the Health Precinct at the Lyell McEwin Hospital. This will ensure our Council area continues to be a focus for health delivery in the north.</p> |

Item 7.1.7 - Attachment 1 - Draft 2022/23 Long Term Financial Plan and Annual Business Plan

Item 7.1.7 - Attachment 1 - Draft 2022/23 Long Term Financial Plan and Annual Business Plan

## Foundations

- ✓ Salisbury has a balance of green spaces and natural environments that support biodiversity
- ✓ We make the most of our resources including water, waste and energy
- ✓ Our community, environment and infrastructure are adaptive to a changing climate

## Council's commitment to develop a sustainable City

### Council will:

- ✓ manage the impacts of increased heat, flooding, intense storms and bushfires
- ✓ work with our community so they are better prepared for extreme weather events
- ✓ encourage our community to be actively involved in caring for our environment
- ✓ enhance our natural spaces, including our coast, hills and creeks
- ✓ support the establishment of a circular economy
- ✓ improve the energy efficiency of Council's operations
- ✓ help the community and businesses reduce waste, water and energy and associated costs

| CRITICAL ACTIONS   |   |
|--|---|
| Strategic Projects   | Budget Context  |
| Replace all Council-owned street lights with energy efficient lighting   | The first stage of the LED rollout to replace 8,000 luminaires on SA Power Network infrastructure is progressing well with 3,500 replacements completed. It is expected that the remaining luminaires will be installed by the end of June 2022.<br>Council has also ordered 1,700 additional luminaires to replace side entry lights on Council infrastructure.  |
| Improve the environmental performance of Council buildings   | This is considered in all future building renewal and upgrade projects. This will continue to be considered as new technologies and practices develop.<br>An environmental consultant is currently being engaged to assess key Council buildings and prepare a report on what we currently do and what we could be doing. It is expected that this will be completed in June 2022.<br>Council monitors the consumption and solar generation of the systems installed at club rooms and uses this data to validate and calculate cost sharing across sites and provides insights into the energy performance and peak consumption times across the City.<br>Council also monitors the demand and power factor indicators at recreation and community centres.  |
| Enhance our biodiversity corridors along Dry Creek and Little Para River and other environmentally sensitive areas such as coastal mangroves | Council has an ongoing program focused on the many watercourses across the City to enhance the biodiversity value and environment benefit of these environmentally sensitive areas.<br>Council is working closely with State Government Departments in relation to the management of the St Kilda mangroves and the coastal areas of the City.<br>Council will continue to work with the State Government Departments to secure funding and deliver works that identify, buffer and enhance known sensitive areas within this corridor.<br>In the last 12 months we have completed works in open swale corridors which lead to the Dry Creek and Little Para River corridors, to ensure that there is reduced likelihood of flooding in urban areas.<br>Council has identified works to occur within Cobbler Creek to strengthen the biodiversity and environmental value of this drainage corridor. Works will continue along the Little Para River corridor in priority areas to buffer and enhance the high biodiversity and environmental of this corridor. |
| Involve people and use sensors to better understand and improve our environment's health   | City Infrastructure have sensors at numerous locations to monitor water quality. This data is reviewed quarterly.<br>Council holds numerous community planting events throughout the year to improve the environment health of the City.<br>Council is investigating what other sensors are available for use within its public open space to gather data which could be useful to the community who use the many open space areas.   |
| Develop markets for recyclable materials through the Northern Adelaide Waste Management Authority  | Council is working with industry partners to innovate and use recycled material in projects with recycled materials being sourced from the Northern Adelaide Region where possible.<br>Council recently completed the shared use path from Jenkins Reserve to Main North Road, Salisbury Park, 2 kilometres in length, which utilised recycled material such as glass fines and concrete and bitumen aggregates.  |

NOT YET REVIEWED BY COUNCIL

Item 7.1.7 - Attachment 1 - Draft 2022/23 Long Term Financial Plan and Annual Business Plan

## CRITICAL ACTIONS

| Operational Focus   | Budget Context  |
|---|---|
| Use recycled or re-used materials where possible in construction and maintenance programs                       | Commencing work on new Paving Maintenance contract - incorporating recycled materials into specification as appropriate. Our existing civil projects use recycled materials where possible, with some projects able to incorporate 90% of recycled materials. Recycled Glass has been utilised in the most recent Green Trail project from Jenkins Reserve to Carisbrooke Reserve. Council secured funding for the rollout of Kitchen Caddy's and increased promotion of the Food Organics Green Organics to ensure that waste is dealt within its appropriate stream.  |
| Maintain weekly rubbish collection for residents and promote initiatives that reduce waste to landfill          | Northern Area Waste Management Authority (NAWMA) continues to deliver services in line with the agreed levels of service and agreement.   |
| Adopt practices and infrastructure that make the City cooler in an increasingly warm climate                    | Council is increasing canopy cover in reserves, through the Native Forest project and significantly increasing the number of irrigated spaces and reactivation of irrigated spaces throughout the City. The Native Forest plantings were completed in 2021 and Council has secured further funding from the State Government for the continued development and implementation of the Native Forest along the Little Para River. Irrigation reactivation program continues to be implemented as part of annual program of works. Council continues to investigate new innovations and practices to improve the heat island effect in partnership with universities. Council has an annual program of works for Watercourse Management, with watercourse management works typically scheduled for January - March. Works occur within each riverine corridor with works scheduled in the Little Para River, Dry Creek and Cobbler Creek corridors within the next financial year. Projects completed include: <ul style="list-style-type: none"> <li>- Gabion stabilisation works in Dry Creek below Pratt Avenue;</li> <li>- Wetlands outlet modification in Little Para side channel below Port Wakefield Road (to help mitigate flooding of Port Wakefield underpass);</li> <li>- Cascade wetlands desilting;</li> <li>- Cobbler Creek access works;</li> <li>- Amundsen's Gully flood mitigation works; and</li> <li>- Desilting of Bellchambers waterway.</li> </ul> |
| Stabilise major creek lines and banks to improve biodiversity and reduce scour and silting                      | A report has been compiled on bottom end catchment solutions which includes the data analysis of potential options. The options are being considered with the intent to put forward a funding submission via the Federal Government Coastal and Estuarine Risk Mitigation Program. The program provides 75% for the funds necessary for infrastructure works and associated activities, with remaining 25% by council/state and can include work carried out to date. Applications are being screened/supported by the State and submissions are required by end of April. The State Gov will send supported applications to the Federal Gov around June 7. Further modelling is being investigated in relation to 2050 development scenarios and impervious areas.   |
| Manage and plan assets so they are resilient to a changing climate  | Council is developing a communications strategy in consultation with The Northern Adelaide Waste Management Authority and the Sustainability Strategy to increase awareness of environmental practices to increase the resilience of households and our City. Roll out of kitchen caddies, education on use of yellow bins and more green bins being delivered.   |
| Work with and educate our community on ways to improve the environmental performance of households and our City |   |

| CRITICAL ACTIONS  |  |
|---|--|
| <p><b>Future Planning</b></p> <p>Review Council's sustainability strategy to include waste and energy management, cooler suburbs, biodiversity and water</p> <p>Complete the Dry Creek Stormwater Management Plan to protect the City from flooding</p> <p>Develop a business case to showcase good design techniques that improve the environmental performance of housing and streets</p> | <p><b>Budget Context</b></p> <p>Development of Sustainability Strategy underway with draft strategy expected to be considered by Council in mid-2022 prior to public consultation.</p> <p>Stage 1 modelling completed with verification of assets on site underway.</p> <p>A design brief is being developed to inform how the business case will be incorporated into future Strategic Development Projects.</p>  |
| <p><b>Advocacy Priorities</b></p> <p>Investment in programs that reduce waste to landfill such as incentives to increase recycling and 'circular economy' initiatives</p> <p>Integrate urban water planning and funding for catchment programs</p>  | <p><b>Budget Context</b></p> <p>Council in partnership with Green Industries SA rolled out the Kitchen Caddy and Green Waste Bin education materials following the securing of grant funding. In partnership with Northern Adelaide Waste Management Authority, Council has raised awareness of the 3 waste streams and that correct use will significantly reduce waste to landfill within the City.</p> <p>Ongoing review of wetland and waterway function, maintenance and management are considered as part of the Watercourse Management Plan across the City.</p> <p>The Greater Edinburgh Park Stormwater Management Plan on hold pending further discussions with Playdome.</p> <p>The Dry Creek Stormwater Management Plan is underway with water harvesting and wetland management being reviewed as part of future considerations for this network.</p> |

# Water Management

## Key Partners:

- State Government
- Australian Government Department of Agriculture, Water and the Environment
- Department for Environment and Water (DEW)
- Renewal SA
- SA Water
- Tea Tree Gully Council
- Playford Council
- Department of Defence
- CSIRO
- UniSA
- Flinders University

Water Management contains the following Service Areas, Activities and Service Levels:

| SERVICE AREAS  | ACTIVITIES AND SERVICE LEVELS   |
|--|---|
| <b>Drainage Systems</b><br>The Drainage Asset Management Plan includes maintenance and cleaning rubbish collection devices, on a continual basis. The maintenance of drains includes the clearing of underground pipes from obstructions such as siltation and root penetration and the desilting, rubbish removal and repair of open drains and river reaches. The servicing of flood retention dam penstocks, the cleaning of all road side entry pits, the desilting of blocked drains and the inspection and maintenance of the City's flood control dams are also included. | <ul style="list-style-type: none"> <li>• Maintain over 140 rubbish collection devices at less than 25% full of rubbish</li> <li>• Service 14,000 Side Entry Pits and Junction Boxes on a 5 year cycle</li> <li>• Ongoing inspection and cleanout of underground drains when necessary</li> <li>• Annual inspection of all open drains/river reaches with desilting, root and tree removal and repair where necessary</li> <li>• Water Quality is monitored to ensure Council continues to improve waterways to minimise pollutants into the Barker Inlet</li> <li>• Ongoing inspection of all flood control dams, including servicing and checking the operation of all penstocks</li> </ul>  |
| <b>Salisbury Water (Business Unit)</b><br>Implementation of the Recycled Water Risk Based Management Plan and implementation of the Salisbury Water Business Plan to facilitate operation as a licenced water retailer under the Water Industry Act, harvesting, cleansing and reticulating recycled water across the city.  | <ul style="list-style-type: none"> <li>• Operate 9 Managed Aquifer Recharge (MAR) schemes with 32 MAR wells</li> <li>• Operate 22 Groundwater bores</li> <li>• Licenced monitoring and reporting on all operational sites and associated groundwater monitoring points</li> <li>• Harvest, cleanse and store up to 5GL/year of stormwater</li> <li>• Retail, on average, 2.5GL/year of recycled water to over 1,000 internal and external customers.</li> </ul>   |
| <b>Water Systems</b><br>Preparation and implementation of Stormwater Management Plan and implementation of Watercourse Management Plans.   | <ul style="list-style-type: none"> <li>• Council is continuing with the delivery of Major Flood Mitigation Strategy to increase the number of homes and businesses not affected by a large flood event (greater than 100mm/hr).</li> <li>• Council currently has a focus on Escarpment Dams and the Pooraka Dry Creek area</li> <li>• Environmental Watercourse monitoring including water quality is enabling Council to improve the Terrestrial Zones of waterways, with a focus on in stream wetland development and natural creek plantings to reduce erosion along the corridors and improvements to Biodiversity in the waterways</li> <li>• Council is currently undertaking the Stormwater Management Plan for Dry Creek, which will be used to prioritise Flood Mitigation Works, Harvesting Opportunities and Water Quality Improvements for the Creek</li> </ul> |
| <b>Wetlands and Biodiversity</b><br>Planning and Asset Management of wetlands, watercourses and habitat reserves.  | <ul style="list-style-type: none"> <li>• Council continues to develop, enhance and renew its' 46 wetlands, total area exceeding 300ha as part of the Watercourse Management Program</li> </ul>  |

# Waste Management

Waste Management contains the following Service Areas, Activities and Service Levels

| SERVICE AREAS   | ACTIVITIES AND SERVICE LEVELS  |
|---|--|
| <b>Coleman Road Landfill</b><br>Following closure in 1997 Council is continuing to rehabilitate the site, with ongoing monitoring and capping.  | <ul style="list-style-type: none"> <li>Monitoring of gas extracted from the landfill site</li> <li>Annual monitoring of groundwater within the site</li> <li>Increasing the Cap over the landfill</li> </ul>   |
| <b>Domestic Hard Waste Collection</b><br>Managed by NAWMA with all hard waste collection services provided through a booking arrangement. Residents may also receive a voucher for free disposal of prescribed materials at the Pooraka Transfer Station in lieu of property collection.        | <ul style="list-style-type: none"> <li>Council provides the option of either two hard waste home collection services or two Vouchers for use at the Waste Transfer Station or a combination of one of each.</li> <li>About 7,000 tonnes of waste are collected each year by the property collection service and the voucher service</li> </ul>         |
| <b>Domestic Refuse Collection</b><br>Council provides a weekly domestic refuse collection service operated by NAWMA for residents using a 140 litre bin.  | <ul style="list-style-type: none"> <li>Weekly to residential properties (140L bin)</li> <li>Domestic Refuse: 31,000 tonnes pa</li> </ul>   |
| <b>Green Waste Kerbside Service</b><br>Council provides a collection service run by NAWMA for all residents who wish to participate and purchase a 240 litre bin for the purpose.   | <ul style="list-style-type: none"> <li>Fortnightly to residential properties (240L bin)</li> <li>Green waste conversion: 15,000 tonnes pa</li> </ul>   |
| <b>Kerbside Recycling</b><br>Council provides a 240 litre bin recycling collection service and all recyclables are processed at the NAWMA Materials Recovery Facility (MRF).  | <ul style="list-style-type: none"> <li>Fortnightly to residential properties (240L bin)</li> <li>Kerbside recycling: 11,000 tonnes pa</li> </ul>   |
| <b>Loose Litter</b><br>Provides for the collection and disposal of rubbish dumped on Council reserves and roads. Also the collection of waste from public rubbish bins. The Department of Correctional Services provide litter collection to arterial and collector roads.                      | <ul style="list-style-type: none"> <li>Programmed loose litter and litter bin collection</li> <li>3 day cycle for high traffic locations</li> <li>Ad-hoc collection of dumped rubbish on verges/road reserves</li> <li>Cyclic collection of litter from collector/distributor for roads</li> <li>Removal of dead animals from public places</li> </ul> |
| <b>Pooraka Resource Recovery Centre</b><br>The Pooraka Resource Recovery Centre (formerly Research Road Waste Transfer Station) is externally operated by NAWMA on Council's behalf. The centre is available seven days per week except Christmas Day, New Year's Day, Good Friday & ANZAC Day. | <ul style="list-style-type: none"> <li>Visits: 40,000pa</li> <li>Annual disposal of: General waste 6,200t, Green waste 3,700t, Concrete 2,100t, Oil 42,000L, Tyres 2,300, Metals 500t and E-waste 400t</li> </ul>  |

A growing City that creates new opportunities

Item 7.1.7 - Attachment 1 - Draft 2022/23 Long Term Financial Plan and Annual Business Plan

## Foundations

- ✓ Salisbury's businesses are successful and part of our community
- ✓ Salisbury is a place of choice for businesses to start, invest and grow
- ✓ Our infrastructure supports investment and business activity
- ✓ Our urban growth is well planned and our centres are active

### Council's commitment to develop a growing city that creates new opportunities

#### Council will:

- ✓ support and deliver initiatives to create jobs and increase investment
- ✓ build work readiness in our community so residents are aware of and can pursue job opportunities
- ✓ be business friendly
- ✓ provide services and infrastructure that support entrepreneurs and emerging industry sectors
- ✓ provide a safe transport network that enables efficient freight and commuter movement
- ✓ ensure Salisbury's activity centres are interesting places to visit, attractive places to invest and great locations to work
- ✓ have modern, well-maintained commercial areas
- ✓ ensure new housing developments enhance our community

| CRITICAL ACTIONS   |   |
|--|---|
| <p><b>Strategic Projects</b></p> <p>Enhance the Salisbury City Centre by upgrading Church and John Streets and attracting investment by the private sector into surplus Council sites</p> <p>Attract firms to Salisbury, providing job opportunities for residents</p> <p>Link Technology Park with other innovation precincts in Adelaide</p> <p>Deliver a residential development program by using surplus Council land</p>                                  | <p><b>Budget Context</b></p> <p>Conversations with Salisbury Business Association are ongoing. The preferred contractor has been selected and Council has been working with them to progress the project with commencement of works expected mid-April 2022. Design work is well advanced for both streets with palettes for plantings and furniture selected. Improving community experience and safety in the streets are core aspects of the design process, which will include new CCTV, lighting and wi-fi. Currently working with 14 firms on proposals to relocate into Salisbury and working with 8 Salisbury-based firms on expansion opportunities. There have been ongoing discussions with State Government regarding the role of Technology Park in the state's innovation ecosystem. This discussion will be renewed following election of new State Government.</p> <p>The Lake Windemere Expression of Interest was released to the market seeking innovative, affordable partnerships with builders and community housing providers. Walkleys Road corridor community engagement was finalised and work in continuing on local traffic investigations.</p> |
| <p><b>Operational Focus</b></p> <p>Support new and existing businesses and industries to grow and create jobs</p> <p>Improve infrastructure, signage, safety, streetscapes and upkeep of commercial and industrial areas to support economic sustainability and growth</p> <p>Improve parking in Salisbury City Centre and Mawson Lakes Central business and recreation precincts</p> <p>Streamline processes to improve how Council works with businesses</p> | <p><b>Budget Context</b></p> <p>1226 service assists provided to 284 businesses including 115 people intending to start a business or early stage businesses this financial year. 97% satisfaction rating. 36 firms engaged in formal mentoring programs.</p> <p>Council is reviewing its maintenance programs to ensure that services meet community expectations and support economic growth across the City.</p> <p>As part of the Church and John Street upgrade Council will be better utilising technology to improve parking management in the City Centre. This has been included in the Church &amp; John Street upgrade with smart signage, digital entry signs and smart parking. Mawson Lakes on street parking and controls are reviewed annually. Case management approach through the Economic Development Team to development and investment by new and existing businesses and supported by efficient and timely development assessment processes. "Business Friendly" agenda being progressed across the organisation to embed practices that assist and support businesses in their interactions with Council.</p>                                       |

NOT YET REVIEWED BY COUNCIL

Item 7.1.7 - Attachment 1 - Draft 2022/23 Long Term Financial Plan and Annual Business Plan

| CRITICAL ACTIONS  |  |
|---|--|
| <p><b>Future Planning</b></p> <p>Develop a structure plan for the land west of Port Wakefield Road to open up new development opportunities while preserving the existing character of Globe Derby and St Kilda</p> <p>Review the existing economic growth strategy</p> <p>Review Council's 'Growth Action Plan'</p> <p>Develop guidelines and policies to improve the quality of infill development, starting with Ingle Farm</p> <p>Develop plans to progress economic activity in Technology Park and Edinburgh Parks</p>  | <p><b>Budget Context</b></p> <p>High level structure plan which identified ten planning areas west of Port Wakefield Road was endorsed by Council in September 2021. A more detailed Strategic Growth Framework is being prepared for planning areas 1, 2, 6 and portion of 7 which will guide the land use and infrastructure planning for potential future rezoning.</p> <p>Review of existing 2008 economic growth strategy is commencing in second quarter 2022.</p> <p>Not yet commenced.</p> <p>The development of the Ingle Farm Improvement Plan has included a range of draft principles that will form the basis of the final Ingle Farm Neighbourhood Improvement Plan and which are potentially applicable to guide improved infill outcomes in other neighbourhoods.</p> <p>Ongoing discussions with State Government regarding development of Technology Park. Funding secured for economic value and governance model study for Precinct. There is strong interaction with Renewal SA in relation to sale of land in both precincts. Upgrade of Technology Drive to improve access has commenced.</p>   |
| <p><b>Advocacy Priorities</b></p> <p>Redevelopment of the Salisbury and Mawson Lakes interchanges</p> <p>Improvements to the east-west roads including increasing the capacity and safety of Kings Road and Waterloo Corner Road, duplication and extension of Elder Smith Road and road/rail grade separation of Park Terrace &amp; Kings Road</p> <p>Appropriate and well planned development of the Dry Creek Salt Fields</p> <p>Edinburgh Parks to be business ready as a modern industrial area with efficient freight routes to the Northern Connector, fast digital connectivity and access to alternative energy sources and recycled water</p> | <p><b>Budget Context</b></p> <p>Concept designs and cost estimates associated with increasing the capacity of Kings Road from Salisbury Highway west to the Northern Connector through traffic management initiatives or carriageway/dual carriageway development, have been prepared and shared with the State Government for consideration. Also upgrades to the Waterloo Corner Road from Bolivar Road to Heaslip Road are in progress.</p> <p>Council is working with the State Government on this major residential project.</p> <p>Council continues to advocate to State Government on the importance of Edinburgh Parks as a jobs growth and investment generator, and in discussions with potential developers and investors as an investment destination as part of Council's investment attraction activities.</p> <p>Council is continuing to progressively upgrade its road network through the area to improve key freight routes. This includes improvements to West Terrace and Edinburgh Road to improve capacity and suitability for B triple and rigid omnibus vehicles, with funding through Council and State Government.</p> <p>Discussions are continuing with Department of Infrastructure and Transport representatives and relevant Ministers on required upgrades to the western end of Waterloo Corner Road, Diment and Heaslip Roads.</p> |

# Footpaths

Footpaths contains the following Service Areas, Activities and Service Levels

| SERVICE AREAS   | ACTIVITIES AND SERVICE LEVELS   |
|---|---|
| <p><b>Footpath Maintenance</b><br/>                     A program of footpath auditing is conducted every two years to gather data which is used to quantify the overall condition of the network. This data is also used to identify priority areas for maintenance works based on proximity to critical pedestrian generating activities.</p> <p>Community requests for additional footpaths are investigated by the multidisciplinary Footpath Request Evaluation Team, and prioritised based on the destination of the path and the additional inclusion opportunities the footpath would give. Council also maintains footpaths and shared use paths through public reserves, with Council continuing to build the Green Trails network across the City.</p> | <ul style="list-style-type: none"> <li>• Provision of a footpath on one side of a road/street where appropriate as a minimum service standard.</li> <li>• Council minimum width of 1.5m.</li> <li>• Council repairs faults based on the risk assessment associated with the destination. For example Council has a focus on prioritising faults around Schools and Retirement Villages</li> <li>• Council repairs footpath failures throughout the year based on a program of priority works and on customer requests where appropriate.</li> </ul> |

## Innovation and Business Development

Item 7.1.7 - Attachment 1 - Draft 2022/23 Long Term Financial Plan and Annual Business Plan

## Foundations

The delivery of these foundations will be underpinned by Council's values of respect, accountability, collaboration and helpfulness.

- ✓ Members of our community receive an exceptional experience when interacting with Council
- ✓ We deliver quality outcomes that meet the needs of our community
- ✓ The City of Salisbury is recognised as a great place to work
- ✓ We plan effectively to address community needs and identify new opportunities
- ✓ We engage meaningfully and our community is aware of Council initiatives

## Council's commitment to develop an organisation that is innovative and develops our business

Council will:

- ✓ place the needs of our community first
- ✓ meaningfully engage with our community and stakeholders as we plan and make decisions
- ✓ consider the long term when we plan and innovate
- ✓ use data to inform decision-making and understand community needs and expectations
- ✓ seek partnerships to deliver facilities, services, programs and infrastructure to address community needs
- ✓ promote Salisbury and advocate for its priorities
- ✓ strengthen and promote the Salisbury brand
- ✓ embed our organisational values in all we do
- ✓ invest in the development of our staff and elected members
- ✓ maintain sound financial management within a transparent and accountable organisation

| CRITICAL ACTIONS  |   |
|---|---|
| <p><b>Strategic Projects</b></p> <p>Use technology so people can better access Council services</p> <p>Implement a change plan so Council provides as exceptional community experience, delivers quality outcomes and is a great place to work</p> <p>Upgrade Council's Operations Centre at Cross Keys Road to support business transformation</p> <p>Provide opportunities for staff to be innovative and shape the next generation of Council business, investment and services</p> <p>Deliver Council's COVID-19 response package</p>                                 | <p><b>Budget Context</b></p> <p>A key initiative in the 2022/23 budget will see the delivery of a new Customer Relationship Management system (CRM) to ensure the community interaction with Council is enhanced and leverages the digital medium but also provide the community with flexibility as to how they want to interact with Council.</p> <p>Construction works are well underway with an expected completion date of August 2022.</p>  |
| <p><b>Operational Focus</b></p> <p>Improve how we use data to better inform decision making</p> <p>Buy locally and sustainability with an emphasis on reuse and recycled materials</p> <p>Deliver the commitments in our Annual Plan</p> <p>Continuous Improvement Program</p> <p>Meaningfully engage with our community so we better anticipate and respond to needs and opportunities</p> <p>Improve communication with community members to increase awareness of Council initiatives</p> <p>Acknowledge and celebrate the achievements of staff and our community</p> | <p><b>Budget Context</b></p> <p>Building on the work completed in 2021/22 to establish a model to provide relevant and up to date data, this year will see the sharing of key Council information that the community can view. Examples will include graphical and textual information on Council's reserves so that the community can determine which reserves align with their needs. A dashboard on the City Plan key indicators will also be shared with live data and links to key supporting information, again to allow the community to access at their leisure data on Council's performance against the agreed indicators.</p> <p>We continue to look at ways to increase spend with Salisbury LGA (and wider Northern Region) suppliers, which has been supported by a revised Procurement Policy to embed these practices into the organisation. Work will also continue with the industry to support delivery of a circular economy.</p> <p>The organisation is in the process of transitioning to the Agile methodology as part of the Business Transformation initiative. Continuous Improvement tools and support will continue to be provided for smaller, incremental initiatives, while the Agile methodology will support delivery of step changes in the way the organisation operates.</p> <p>The new website was launched during 2021/22 with further enhancements being delivered. Linked to the CRM project, the website will be the interface for a community member portal where the community member can access the relevant information they may need to engage with Council. Work will also progress on revising the community engagement model with the aim to utilise a digital tool that will assist Council in its community consultation and ensuring a wide range of feedback is gained on initiatives that require community engagement</p> <p>We continue to enhance how we engage with the community to make them aware of the many projects and initiatives that Council delivers to improve the community's wellbeing. We continue to see an increase in the number of people accessing our social media platforms which will be used as the predominant medium to communicate with our community.</p> |

| CRITICAL ACTIONS   |   |
|--|---|
| <b>Future Planning</b>   | <b>Budget Context</b>   |
| Develop a digital strategy and framework to implement technology-based initiatives to improve the management of the City   | A draft digital strategy titled Digital Salisbury has been developed aimed at transitioning the organisation to a contemporary digital platform. The strategy will provide the direction as to the 'what and how' Council will enhance and support smart technology in managing the City. |
| Review our community engagement strategy so the needs of diverse groups in our community are recognised at an early stage of planning  | This action was not delivered in 2021/22 and has been scheduled to be delivered in 2022/23. It will see the review of the existing community engagement strategy and also consideration of an appropriate application to enhance the engagement process.                                  |
| Review Council's 'Strategic Asset Management Plan'   | An Interim Strategic Asset Management Plan will be considered by Council in April 2022 and staff and Elected Members will continue to investigate levels of service to further develop a final Plan in early 2023.  |
| Enable the community to monitor Council's progress in implementing this Plan and compare performance with that of other Councils   | A number of City Plan indicators have been published on a static dashboard on Council's website. Currently developing an online dynamic dashboard that will display the latest data on corporate and City Plan indicators.  |
| Identify opportunities to increase non-rates revenue   | The organisation has for some time ensured it maintains a strong financial position so it is able to meet emerging community needs. Work continues where appropriate to identify alternate revenue streams to support the ongoing financial sustainability of services to the community.  |
| Council governance and practices   |   |
| <b>Advocacy Priorities</b>   | <b>Budget Context</b>   |
| Develop deeper and more effective relationships with government agencies and other organisations to progress the priorities identified in this City Plan and its supporting strategies |   |

# Rating Strategy and Policy

## What are Rates?

Rates are the principal source of funding for Council services, representing approximately 82% of the total operating revenue. Rates are levied as a tax on property in accordance with the provisions of the Local Government Act. They are not a service or user charge. Consequently, some property owners may choose not to use various council services but nevertheless make a contribution through their rates. As rates are levied on the value of property as determined by the Valuer-General, those in higher valued properties pay more than those in lower valued properties, noting the higher value property adjustment detailed on page XX.

## Capital Value as a basis for Rating

The Council has adopted the capital value method to value properties in its area, in common with most other Adelaide metropolitan Councils. This method values the land and all of the improvements on the land.

While no valuation method is considered perfect the capital value method is considered the most equitable because:

- It is the most equitable method of rating.
- As a result, it is the most equitable method of rating.
- It accords with the principle of rating on the basis of capital value.

Other valuation methods are not appropriate in this situation.

## Strategic Focus

In setting its rates for the 2022/23 financial year the Council considered its City Plan 2035, and other strategic planning documents including Asset Management Plans and the Long Term Financial Plan.

## Setting Rates

Apart from the need to ensure sufficient revenue to meet its expenditure needs, Council is always mindful of the impact and affordability of rates to the community, both residential and business, and regularly makes comparison of its rates across Council areas.

In 2020/21 Salisbury's average residential rate was the 3<sup>rd</sup> lowest of the metropolitan Councils.

The first action in setting the new rate is to adjust for the impact of the average increase or decrease in market property values over the past year so that the rate increase is not compounded by property value increases.

This year the 'market' movement also includes adjustments undertaken by the Valuer-General through the Revaluation Initiative. This project is a comprehensive review of market valuations to ensure accuracy which contributes to equity in the distribution of rates across assessments. More information regarding this project is available at: [https://www.salisbury.sa.gov.au/resources/what-is-the-revaluation-initiative](#)

# TO BE UPDATED

[https://www.salisbury.sa.gov.au/resources/what-is-the-revaluation-initiative](#)

Changes in market value evaluation Initiative, up to limit the impact of the "Capping Rebate".

Information regarding the market revaluation Initiative. As a result of the average market increase of 2.4% the average market increase dollar. The average market increase dollar. The average market increase dollar.

|                         |      |
|-------------------------|------|
| Residential             | 2.4% |
| Commercial / Industrial | 1.4% |

Secondly, Council considers the appropriate average rate increase to apply taking into account a number of factors. Council consider current service levels, and the community's current and future needs, and the methods by which services are provided. Council each year consider the budget in detail, and reviews requests for new expenditure and how it contributes to the delivery of the City Plan. Consideration is also given to having capacity to respond to the community's changing needs.

# Rating Strategy and Policy

After critically reviewing expenditure priorities and income from other sources Council propose to increase residential rates by an average of XX% for properties not on the minimum rate. The minimum rate is also increasing by XX% from \$1,044 to \$XX for 2022/23. Noting that in 2020/21 Council determined a zero percent increase in rates to support the community in responding to the COVID-19 pandemic.

Council has maintained surplus operating budgets since 2008/09 which is a significant achievement. This has resulted from managing escalating costs through reviewing and reducing property development resulting in lower savings of \$XX through a zero rate increase.

### Categories of

#### General Rates

General rates are subject to differential rating

valuations are performed independently by the Valuer General on an annual basis and an owner has up to 60 days from notification in which to object.

A minimum rate applies to all properties where the value falls below a certain level. The minimum rate is imposed to ensure all properties make a fair contribution to general community facilities.

No more than 35% of properties can be subject to the minimum rate. The minimum rate will increase to \$XX from \$1,044 for the 2022/23 year.

#### Differential Rating

Differential rates may be applied according to land use. A differential loading is applied to commercial and industrial properties and to vacant land. Residential and other properties pay the base rate.

- a. The purpose of the differential on commercial and industrial properties is to:
  - Recover from the business sector a greater share of costs relating to:
    - Economic development and promotion

**TO BE UPDATED**

NOT YET REVIEWED BY COUNCIL

The differential rate for vacant land is 30% higher than for residential properties. This is consistent with the previous year which was also 30%.

# Rating Strategy and Policy

## Separate Rates

Council uses its separate rating powers to collect rates for three existing purposes:

### *Salisbury Business Association*

Rates are collected for the Salisbury Business Association, from commercial and industrial properties within the Salisbury City Centre to enable it to market and promote the centre. All funds collected are passed on to the association.

### *Globe Derby Community Club Inc*

Rates are collected for the community club, common land, sports ground and common land.

### *Landscape Administration*

The Council acts as the Regional Landscape Resource Manager. Rates are not determined.

## Residential Impact Statement

Council propose a XX% average rate increase to residential rates in the 2022/23 year. However the actual increase for an individual property will vary depending on the actual changes in valuation above or below the average valuation increase of XX%.

In order to achieve the proposed average rate increase of XX% the rate (cents in the \$) will increase from 0.4217 to 0.XX.

An assessment of the resulting rate increases suggests the following number of owners:

**TO BE UPDATED**

| Rate Increase                     | Number of Properties |
|-----------------------------------|----------------------|
| 6.1 - 8.0%                        | 2,966                |
| 8.1 - 10.0%                       | 4                    |
| 10.1 - 12.5%                      | 5                    |

# Rating Strategy and Policy

## Payment of Rates

### Quarterly Billing

Rates are payable in quarterly instalments due in September, December, March and June each year. Rate notices will be issued prior to each quarterly instalment.

Payment methods are described on the reverse of the rate notice.

### Advance Payments

Ratepayers may choose to make fortnightly or monthly payments in advance towards their rates if this suits their budgetary circumstances. No interest is paid on these amounts due to the additional transaction processing costs associated with this service.

### Seniors Postponement of Rates

Residential property owners with a Seniors Card may apply to postpone payment of rates until the property is sold. Seniors who opt to postpone rates are required by the Local Government Act to pay \$500 in rates each year, with the balance being postponed. Postponed rates are a charge on the land and are not postponed.

## Adjustment

### High Value

Council has... are subject to... low average... some other... to ensure the... city.

### To overcome

adjustment for residential properties with a value over \$483,000, provided the property is not used for commercial purposes or entitled to a mandatory rebate:

\$483,001 to \$536,000: a reduction of 10% of the general rates payable on the value above \$483,000 up to and including \$536,000, which is an increase on the 2020/21 tier of \$472,001-\$523,000.

\$536,001 to \$650,000: a reduction of 15% of the general rates payable on the value above \$536,000 up to and including \$650,000, which is an increase on the 2020/21 tier of \$523,001-\$635,000.

\$650,001+: a reduction of 35% of the general rates payable on the value above \$650,000, with the 2020/21 tier being \$635,001.

### Discretionary Rebates

The Local Government Act 1999 enables Council to grant discretionary rebates up to 100% for land used for the purposes of a community benefit.

Council has adopted a policy concerning such rebates, a copy of which is available from our Rates Section (Telephone 08 8406 8255).

### Rate Capping Rebate

Council has a policy to cap rate increases in the following circumstances:

- **Market Valuation Increase Cap** - for residential property which is the ratepayers principal residence, and the ratepayer is a natural person, the maximum increase in the general rate will be 12.5% of that paid in the previous year (excluding the application of the COVID-19 capping rebate) where that increase is as a result of significant valuation movements but not as a result of improvements, a change

### Disclaimer

A rate cannot be challenged on the basis of non-compliance with this policy and rates must be paid in accordance with the required payment provisions.

### Financial Hardship

Council is committed to providing support to ratepayers experiencing financial hardship with further information available on the City of Salisbury website.

| Regional Landscape Levy   | \$2,084,640             | \$2,139,763 (f)          |             | The Regional Landscape Levy is <b>not retained</b> by council.   |
| Separate and Special Rates  | \$124,930               | \$185,075 (g)            |             | Separate rates are collected on behalf of the Salisbury Business Association and Globe Derby Community Club. These funds are not retained by Council   |
|   | \$107,135,932           | \$112,440,677            |             |  |
| Less: Discretionary Rebates   | (\$40,000)              | (\$40,000) (h)           |             |  |
| <b>Total Rates Revenue</b>  | <b>\$104,886,362</b>    | <b>\$110,075,839 (i)</b> | <b>4.9%</b> | Excluding the Regional Landscape Levy and minus Mandatory & Discretionary Rebates.   |
|   |                         | (i)=(e)+(h)              |             |  |
| <b>Growth in number of rateable properties</b>  |                         |                          |             |  |
| <b>Number of rateable properties</b>  | <b>61,101</b>           | <b>61,410 (i)</b>        | <b>0.5%</b> | Growth of 0.5 per cent is expected to account for around 0.4 per cent of the estimated increase in General Rates to be collected (refer b) due to the mix of the new assessments created being lower capital value than average.   |
|   | Actual                  | Estimate                 |             |  |
| 'Growth' is defined in the regulations as where new properties have been created which have added rateable properties to council's ratepayer base. Growth can also increase the need and expenditure related to infrastructure, services and programs which support these properties and residents.   |                         |                          |             |  |
| <b>Average General Rates per rateable property</b>  |                         |                          |             |  |
| <b>Average per rateable property</b>  | <b>\$1,738</b>          | <b>\$1,814 (i)</b>       | <b>4.4%</b> | These 'averages' are based on the total of all rateable properties and are therefore not necessarily indicative of either the rate or change in rates that all ratepayers will experience. The proposed average rate increase is 3.9%, with the balance resulting from new assessments and construction activities.                                  |
|   |                         | (o)=(c)/(p)              |             |  |
| Councils use property valuations to calculate each rateable property's contribution to the required rate revenue total. Councils do not automatically receive more money because property values increase but this may alter how rates are apportioned (or divided) across each ratepayer (ie. some people may pay more or less rates, this is dependent on the change in value of their property relative to the overall valuation changes across the council area).<br>The total rates paid by all rateable properties will equal the amount adopted in the budget. |                         |                          |             |  |
| <b>Notes</b>  |                         |                          |             |  |
| d) Councils are <b>required</b> under the Local Government Act to provide a rebate to qualifying properties under a number of categories:   |                         |                          |             |  |
| Health Services - 100 per cent      Religious purposes - 100 per cent      Royal Zoological Society of SA - 100 per cent  |                         |                          |             |  |
| Community Services - 75 per cent      Public Cemeteries - 100 per cent      Educational purposes - 75 per cent  |                         |                          |             |  |
| The rates which are foregone via Mandatory Rebates are redistributed across the ratepayer base (ie. all other ratepayers are subsidising the rates contribution for those properties who receive the rebate).   |                         |                          |             |  |
| e) Presented as required by Regulation 6(1)(ea) of the <i>Local Government (Financial Management) Regulations 2011</i> .  |                         |                          |             |  |
| <b>Please Note:</b> The percentage figure in (e) relates to the change in the total amount of General Rates revenue to be collected from <u>all</u> rateable properties, not from <u>individual</u> rateable properties (ie. individual rates will not necessarily change by this figure).  |                         |                          |             |  |
| f) Councils are required under the <i>Landscape South Australia Act 2019</i> to collect the levy on all rateable properties on behalf of the State Government. The Regional Landscape Levy is <b>not retained by council</b> .  |                         |                          |             |  |
| h) A council <b>may</b> grant a rebate of rates or service charges in a number of circumstances. The rates which are foregone via Discretionary Rebates are redistributed across the ratepayer base (ie. all other ratepayers are subsidising the rates contribution for those properties who receive the rebate).  |                         |                          |             |  |
| i) 'Growth' as defined in Regulation 6(2) of the <i>Local Government (Financial Management) Regulations 2011</i> .  |                         |                          |             |  |
| <b>Please note:</b> The 2022/23 number of rateable properties is an estimate based on the most current information available at the time of going out to consultation on the ABP&B. This information is updated regularly and therefore may be subject to change at the time of adoption of ABP&B.  |                         |                          |             |  |

## Uniform Presentation of Annual Business Plan and Budget (ABP&amp;B)

## Differential Rates

|   | Total expected revenue |                      |             | No. of rateable properties |               | Average per rateable property |                    |             | Cents in the \$ |
|---|------------------------|----------------------|-------------|----------------------------|---------------|-------------------------------|--------------------|-------------|-----------------|

| Vacant Land                             | \$2,002,297            | \$2,130,856          | 6%          | 964                        | 1,042         | \$2,077                       | \$2,045 (p)        | -\$32       | 0.810325        |
| Other                                   | \$937,429              | \$1,002,044          | 7%          | 161                        | 158           | \$5,823                       | \$6,342 (p)        | \$520       | 0.382908        |
| <b>GRAND TOTAL (GROSS)</b>              | <b>\$106,196,361</b>   | <b>\$111,405,841</b> | <b>4.9%</b> | <b>61,101</b>              | <b>61,410</b> | <b>\$1,738</b>                | <b>\$1,814 (p)</b> | <b>\$76</b> |                 |

Council uses a differential rating system, using Land Use Codes as the factor to apply such differential rates. In applying differential general rates, council has considered and is satisfied that the rating system addresses the issue of consistency and comparability across all council areas, particularly as it relates to the various sectors of the business and wider community.

## Minimum Rate

|                     | No. of properties to which rate will apply |                                | Rate           |                    |             |
|---------------------|--|--------------------------------|----------------|--------------------|-------------|
|                     | 2022/23                                    | % of total rateable properties | 2021/22        | 2022/23            | Change      |
| <b>Minimum Rate</b> | <b>10,762</b>                              | <b>17.5%</b>                   | <b>\$1,044</b> | <b>\$1,085 (r)</b> | <b>\$41</b> |

The Minimum Rate provides a mechanism where lower valued properties do not pay less than a minimum amount as determined by the council. Typically, only a small number of all properties (with no more than 35%) pay a minimum amount. Council proposes to set a minimum rate of \$1,085 which shall be applied to all rateable properties. This will affect 17.5% of rateable properties.

## Adopted valuation method

## Capital Value

Council has the option of adopting one of three valuation methodologies to assess the properties in its area for rating purposes:

**Capital Value** – the value of the land and all improvements on the land;

**Site Value** – the value of the land and any improvements which predominantly affect the amenity of use of the land, such as drainage works, but excluding the value of buildings and other improvements (Note: Site Value will cease to be an option from 1 Sept 2023); or

**Annual Value** – a valuation of the rental potential of the property.

Council continues to use **Capital Value** as the basis for valuing land within the Council area. Council considers that this method of valuing land provides the fairest method of distributing the rate burden across all ratepayers on the following basis:

- The equity principle of taxation requires that taxpayers of greater wealth pay more tax than those of lesser wealth.

- Property value is a relatively good indicator of wealth and capital value, which closely approximates the market value of a property and provides the best indicator of overall property value.

## Notes

(p) Average per rateable property calculated as General Rates for category, including any fixed charge or minimum rate (if applicable) but excluding any separate rates, divided by number of rateable properties within that category in the relevant financial year.

(r) Where two or more adjoining properties have the same owner and are occupied by the same occupier, only one minimum rate is payable by the ratepayer.

| <b>SUMMARY</b>         | This report, gives a brief overview of the Interim Strategic Asset Management Plan attached for Approval by Council as part of the 2022/23 Strategic Business Papers. |

**RECOMMENDATION**That Council:

1. Notes that the Audit and Risk Committee has reviewed and endorses for Council's approval the Interim Strategic Asset Management Plan process as included in Attachment 2 – Draft Interim Strategic Asset Management Plan 2022 (Audit and Risk Committee – 12 April 2022 – Item No 7.2.1– Interim Strategic Asset Management Plan – Process Review) and notes the content of the Interim Strategic Asset Management Plan provides alignment between the City Plan and Long Term Financial Plan as part of the City of Salisbury Strategic Management Plans, pursuant section 126(4)ab) of the *Local Government Act 1999*.

**ATTACHMENTS**

This document should be read in conjunction with the following attachments:

1. Graph 3 - Interim Strategic Asset Management Plan Expenditure
2. Draft Interim Strategic Asset Management Plan 2022

**1. BACKGROUND**

- 1.1 Council has a Strategic Asset Management Plan (SAMP) that ensures service continuity including renewal, upgrade and at times new funding which reflects the costs of providing and maintaining services (through assets) to the endorsed or targeted levels of service. The SAMP is one of Council's strategic documents, along with the Long-Term Financial Plan (LTFP) and City Plan Documents, required under Section 122 (E) of the *Local Government Act 1999*.
- 1.2 The SAMP allows Council to consider what expenditure is required to manage, maintain and renew assets to deliver the endorsed levels of service and ensures that these requirements are aligned with the LTFP.
- 1.3 It is critical that Council endorses a SAMP that not only explains the targeted levels of service and associated financial forecasts, but that is also financially sustainable.

1.4 The attached document is regarded and in turn referred to as an Interim Strategic Asset Management Plan, and outlines the targeted levels of service and associated financial implications for the 2022/2023 financial year. Over the next 6 to 9 months, Council will review key asset classes, levels of service and associated financial forecasts with the outcome being the preparation of a revised SAMP for public consultation in early 2023 which will integrate with the City Plan and LTFP and subsequently form part of Council’s approved Strategic Papers for 2023/2024.

**2. CITY PLAN CRITICAL ACTION**

2.1 The review of the SAMP is critical in enabling the Council to deliver on the 2035 City Plan Strategies.

**3. REPORT**

3.1 The SAMP is the mechanism for Council to undertake a review of levels of service and the effect on the revenue requirements to maintain the \$1.6 Billion of existing assets and services for the City.

3.2 The SAMP has a twenty-year per-view, with a detailed focus on the next 10-year Service Continuity Program.

3.3 The assets are broken up into the following classes:

**Graph 1** – Replacement value of Council’s assets by percentage

3.4 The following is the overall renewal expenditure in the Capital Works Program:

**Graph 2** – Current service continuity expenditure by percentage

- 3.5 Where levels of service are significantly increased for an existing asset class, such as replacing them more regularly and/or with more elements, (for example, universal access for local playspaces), Council can either increase revenue to fund the increase in levels of services, and/or reduce other assets levels of service to fund these increases.
- 3.6 In the short term another acceptable option is to not replace/renew assets when they are due and manage the risk associated with this; however, this increases the number of asset renewals required in future years and may create an increase in maintenance costs due to older assets.
- 3.7 Over the last 3 years Council has endorsed a number of level of service increases (most notably playgrounds and buildings) and these have been included in the Capital Programs for those years, recognising that a detailed consideration of the long-term financial sustainability, when considering the total value of the increased levels of service across all the asset classes, needs to be undertaken.
- 3.8 To help accommodate this increased expenditure program Council has utilised its financial capacity, injecting an additional \$7M per year into its budgets for both 2020/21 and 2021/22, which covered the increased level of service requirements for those years.
- 3.9 During the 2022/23 budget and financial planning process, Asset Managers have looked to continue to deliver Council agreed levels of service through the Capital Works Program. However, with the removal of the additional two year Capital Expenditure injection, adjustments to the renewal programs have had to be made to ensure that expenditure is consistent with the LTFP.
- 3.10 In the short term (2022/23) this has been primarily achieved in the Renewal Program by allowing a backlog of work in future years, rather than reducing any levels of service. For example, the number of playground renewals has been revised from 6 playgrounds per year currently, back to 3 playgrounds per year. Similarly, with respect to roads, the average condition of the local road network has been deliberately allowed to reduce in a managed way, so to reflect a closer alignment between service capability of the pavement/surface with the road function and alternate use of surface and pavement maintenance treatments to make savings to support other asset classes.
- 3.11 As previously mentioned, due to the long-term nature of most council assets, temporarily reducing the number of renewal projects/program expenditure undertaken in a financial year is acceptable as a short term strategy. However, this is not a viable option for the medium term, and needs to be addressed either by increasing funding to that program (in a financially sustainable manner), or reducing the targeted level of service for that asset class.
- 3.12 Graph 3 shows the Interim SAMP based on a reduction in projects/programs expenditure to deliver Current Endorsed Service Continuity which includes decreases in expenditure based on reductions in the pace of renewal of some assets, which is discussed in the Interim SAMP.

**Graph 3 - Interim SAMP based on revised programs to ensure a sustainable LTFP (a larger copy of Graph 3 is attached).**

- 3.13 As noted, Graph 3 assumes in the short term that there is the creation of an increase of assets that will not be replaced at the currently agreed end of life as per the 2015 SAMP, or the condition of some assets will be deliberately allowed to deteriorate further than previously expected. In deploying this approach Asset Managers are cognisant of managing any associated asset or service related risks.
- 3.14 This means that the Interim SAMP as attached, needs to be revised to ensure that Council can sustainably afford to maintain current assets and services at endorsed service levels for the longer term (10 to 20 years), while still providing the financial capacity to accommodate future new projects, particularly those outlined in the 2035 City Plan.
- 3.15 As per the 15 March 2022, Council Report *ASMC 3 – Strategic Asset Management Plan - Schedule*, a two stage approach to review key asset classes was endorsed by Council:
  - 3.15.1 the first report based on a breakdown of each relevant asset class, and a proposed set of criteria to consider levels of service options and associated financial forecasts; and
  - 3.15.2 the second report explaining the range of level of service options considered with associated costs, and seeking confirmation for endorsement of the preferred option for that asset class.

- 3.16 That report also endorsed the development of an Interim SAMP for approval in May. However, the draft Interim SAMP has been brought forward to April seeking Council's approval for the purpose of public consultation in line with the timeframes associated with Council's other Strategic Papers.

#### **4. CONCLUSION / PROPOSAL**

- 4.1 The existing SAMP was endorsed in 2015. Council was expected to approve a revised SAMP in 2019/20, however this was delayed because of the major adjustments to the budget and renewal programs as part of the COVID Response.
- 4.2 Due to increases in some levels of service an Interim SAMP has been developed to ensure endorsed levels of service can be delivered in a manner consistent with the LTFP while risks are adequately managed for the short term. This has involved a significant slowing of renewal and upgrade programs in some cases, with the lives of some assets, increasing significantly and the condition before replacement reducing in some asset categories.
- 4.3 These changes need to be reassessed over the next twelve months, weighing carefully the balance between community expectations, endorsed service levels, and long-term future expenditure by the Council, culminating in an updated SAMP being prepared. This is why the attached Interim Strategic Asset Management Plan, for Council approval, is noted clearly as being an interim document.
- 4.4 The SAMP includes a Risk Register, pulled in from the revised Asset Management Plans, which is in the Document which shows how Council is considering various elements of Risk related to each Asset Class. It is noted that the two risks considered as "high" are currently being addressed through audits currently underway.
- 4.5 As a short term solution, the Interim SAMP (Attachment 2), which has informed the 2022/23 Budget Bids is consistent with the LTFP and is acceptable from a management of asset related risk. However, it needs to be reviewed to ensure endorsed levels of service are financially affordable over the longer term (10 to 20 years), while still providing for future new projects, particularly those outlined in the 2035 City Plan.

Item 7.2.1 - Attachment 1 - Graph 3 - Interim Strategic Asset Management Plan Expenditure

# Interim Strategic Asset Management Plan 2022

## Acknowledgement of Country

The City of Salisbury acknowledges that we are on the traditional Country of the Kurna people of the Adelaide Plains and pays respect to Elders past, present and emerging. We recognise and respect their cultural heritage, beliefs and relationship with the land. We acknowledge that they are of continuing importance to the Kurna people living today.

# Executive Summary

*The City of Salisbury is responsible for the acquisition, operation, maintenance, renewal and disposal of an extensive range of \$1.6B of Assets, which enable Council to provide a wide range of Services to the Community.*

These assets include land, buildings, parks, recreation areas, roads, footpaths, drainage systems, and associated operating assets and provide service essential to our community's quality of life.

This Strategic Asset Management Plan (SAMP) takes the organisational objectives in our Strategic Plans, reviews how the Community receives and uses the service and whether the organisation is providing community value.

The SAMP takes into account Key Legislative & Risk Mitigation such as:

- Universal Access (DDA)
- Inclusion / Female friendly
- Road Safety Framework linking to the School Framework
- Climate change (AR&R for example)

This Interim Strategic Asset Management Plan (SAMP) has understood the Community Expectations/Council Directions & Strategy with respect to improved levels of service in a number of areas:

- Verges & Street trees
- Urban Spaces (Universal Design)
- Playspaces & Facilities (Inclusive Design)
- Path Lighting (Improved Light levels to improve community safety)
- Shade
- Irrigation Areas Increased
- Playing Surfaces
- Sportsfield Lighting Management (now under Council Management)
- Community and Club Event Spaces

This Plan is an interim step in that it proposes expenditure across the Asset Classes to meet the endorsed levels of service, but has reduced the number of assets renewed or replaced, whilst a detailed review of assets is undertaken. Council is engaged in an Asset Management Improvement Process to further review Structure & Hierarchy of key Asset Classes and subsequent Community Levels of Service to ensure that the Council's Renewal Programs are Financially Sustainable and deliver Intergenerational Equity. In other words, Council makes sure we build infrastructure to provide a quality

of service that the Community needs, that Council can afford to maintain and renew and replace in years to come.

### Strategic issues

Council is developing a Sustainability Strategy, finalising a Place Activation Strategy and Facilities Management model that will set out the long-term investment in Building and Infrastructure across the City. Similarly, there will be significant

investment in Infrastructure, including regional drainage systems in the west of the City to support industry and community facilities, particularly with the development of up to 15,000 dwellings on the salt fields. Whilst not included in the SAMP, which focuses on Service Continuity, the total capability of Council to fund their component of new work needs to be considered together with the capacity of Council to fund the increases in levels of service of existing Assets.

## Current situation

Asset Managers have been moving from Condition based to a Service Continuity based Asset Management Planning. They have been working closely with Council to determine the Community's Expectations and Levels of Service for key asset classes, which has been reflected in the Asset Management Operational Plans and the subsequent projects currently under construction and in the budget for 2022/23. However, over the next twelve months Council is working through a confirmation process of the Asset Structures and Hierarchy and Levels of Service to ensure that the upgrade component of the renewal program is financially affordable and sustainable in the long term, particularly with respect to current inflationary pressures, which is seeing the cost of construction and raw materials increase by in some cases over 20%.

Council have determined a number of measures to support the community, to look towards economic recovery through this COVID period, bringing forward \$12M of renewal and upgrade works.

## Financial implications

The SAMP is in line with the Long-Term Financial Plan, however because of the increases in Levels of Service in some classes, developed over the last 3 years, working with the Council, the cost to renew or build new to meet these levels of service, will increase substantially in the long term. This will mean either a smaller number of assets will be renewed, useful lives extended in some asset classes, or additional funding will be required. This needs to be addressed in the medium term to ensure the level of service is financially sustainable. Due to the long term lives of these assets an interim approach has been put in place, Council decides a more sustainable model, balancing the desired levels of service with affordability over the next twelve months.

| <b>Executive Summary<br/>- What does it cost?</b>                           | <b>(\$000)</b> |
|---|----------------|
| 10 year total cost [10 yr Ops, Maint, Renewal & Upgrade Proj Exp]           | \$338,125      |
| 10 year average cost  | \$33,813       |
| 10 year total LTFP budget [10 yr Ops, Maint, Renewal & Upgrade LTFP Budget] | \$226,665      |
| 10 year average LTFP budget   | \$22,666       |
| 10 year AM financial indicator  | 100%           |
| 10 year average funding shortfall   | \$0            |

## Opportunities

Council has been working through an Asset Management Improvement Plan (AMIP) since 2018 with initial phases completed to improve the accuracy of the asset register and move to field mobility and electronic work orders. Future phases of the AMIP have been identified to further improve asset management with key objectives identified and reported to internal stakeholders.

## Risks

Risks previously identified in the Asset Risk Register have been reviewed and updated with most risks having been mitigated or eliminated.

There is a significant challenge with balancing the communities expectation of service levels and Council's long term financial sustainability. This will be mitigated by increasing the level of understanding within the community in regards to cost associated with changes in levels of services and balancing service levels between asset categories.

In undertaking the Confirmation process of Levels of Service over the next twelve months, this will enable Council to have an overarching view of the asset renewal program and consider the value of each service against another to determine whether there needs to be funding increases or reductions in expectations with respect to some assets.

## Asset management approach

Council has introduced a new Sub Committee focused on Asset Management and progressing from asset centric based asset management to service based asset management.

Council recognises that the SAMP is an integral part of the Strategic Management Plans of the Council including the City Plan and Long Term Financial Plan. The SAMP is also cognisant of other key Council Strategies such as the Sustainability Strategy, Place Activation Strategy & Integrated Transport Plan.

The key outcomes from the SAMP include:

Increases in operating for buildings as Council continues to improve levels of service for its Community facilities

Increase in capital expenditure for Street and Verge Renewal Projects to transition Streets from Links to Destinations. (\$800,000 per year)

Increase in operating costs due to improved Levels of service with significant increases in irrigated spaces and playground soft fall and infrastructure (inclusive play elements & toilet facilities). (\$450,000 per year)

## The next steps

The SAMP will be recommended to Council, for public consultation, in line with the long term financial plan. Once these comments have been received and any adjustments made, the updated SAMP will be recommended to Council for endorsement.

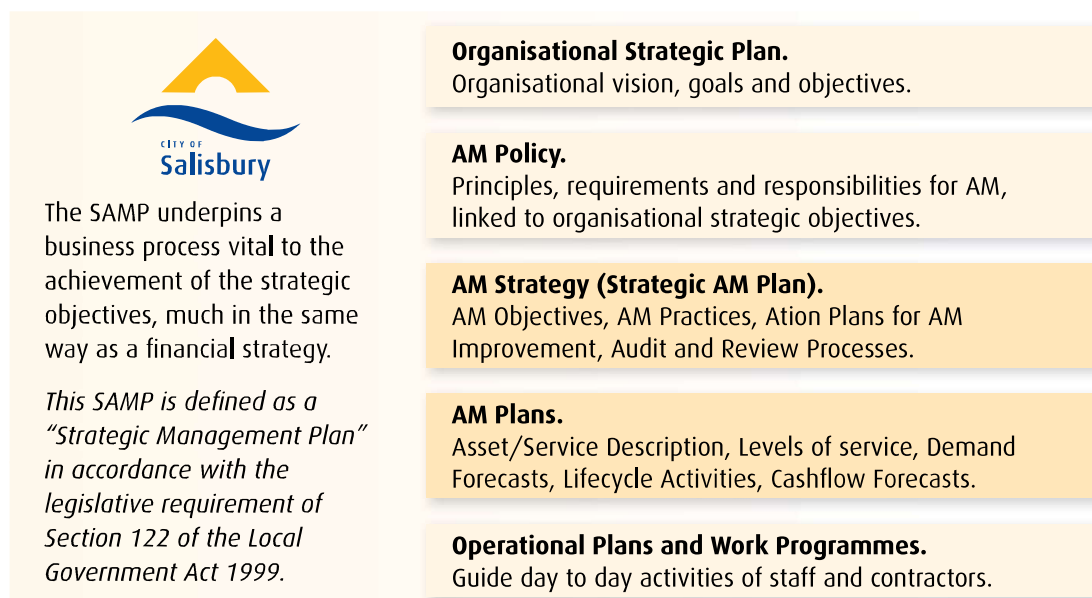

# 1. Introduction

The Strategic Asset Management Plan (SAMP) “includes documented information that specifies how organisational objectives are to be converted into asset management objectives, the approach for developing asset management plans and the role of the asset management system in supporting achievement of the asset management objectives”<sup>1</sup>.

This SAMP is an integral part of the organisation’s planning framework. This includes the organisational strategic plan, asset management (AM) policy, AM strategy/SAMP, AM plans for individual portfolios and operational plans and work programs. There is a clear alignment from the organisational vision and objectives, AM policy, AM objectives, AM plans, operational plans, work programs through to performance measures as shown in **Figure 1**.

This SAMP is defined as a “Strategic Management Plan” in accordance with the legislative requirement of Section 122 of the Local Government Act 1999.

**Figure 1 - Asset Management Planning Framework**

Source, IIMM Fig 4.2.2, p 4|22.,  
<sup>1</sup>IPWEA, 2015, IIMM, Sec 4.2.3, p 4|28.

## 1.1 Scope of Asset Management System

### 1.1.1 Asset Management System

The AM system is “the set of inter-acting elements of an organisation to establish AM policies and objectives, and processes to achieve those objectives”<sup>2</sup>.

The AM system is applied to the delivery of AM objectives services/products from the following asset portfolios with additional detail in section 3.1.

- Drainage & Waterways
- Parks & Streetscapes
- Street Trees
- Public Lighting
- Transportation
- Property & Building
- Salisbury Water
- Plant & Fleet
- Information Technology (to be developed).

The AM system scope is determined after consideration of:

- AM objectives
- External and internal issues relevant to the purpose of the organisation
- Community Expectations and requirements

- Interaction/linkages with other management systems
- Criteria for AM decision making <sup>3</sup>.

### 1.2 Purpose and Structure of Asset Management System

The AM system is to assist the organisation achieve its AM objectives. It includes “all the functions, people, processes, information and tools that deliver AM objectives” <sup>4</sup>. The AM objectives are the results to be achieved from the AM system. AM objectives are guided by organisational objectives and the AM policy and drive AM practices undertaken by the organisation <sup>5</sup>.

The AM system structure includes

- AM Policy (Developed and Approved through the Asset Management Sub-Committee, or existing programs previously in place)
- AM Operational Plans for the asset portfolios
- Integration of AM processes, activities and data with other organisational functions including levels of service KPI’s and subsequent service delivery, quality, financial and asset accounting, risk management, safety and human resources

- Reporting of AM objectives (Levels of Service) and resources needed to achieve the objectives in annual budgets
- Reporting of AM objectives achievements in annual reports.

### 1.3 The SAMP and our Planning Framework

The SAMP is an integral component of our planning framework. It is linked to the Organisation’s strategic plan and sets the structure for AM Operational Plans for included asset portfolios. The AM Operational Plans are linked to the Strategic Asset Management plan which forms the basis for development of annual budgets to deliver agreed levels of service for available resources. The annual budget sets the framework for annual work plans and division and staff performance targets.

**Figure 2** shows how the AM system integrates within our planning framework.

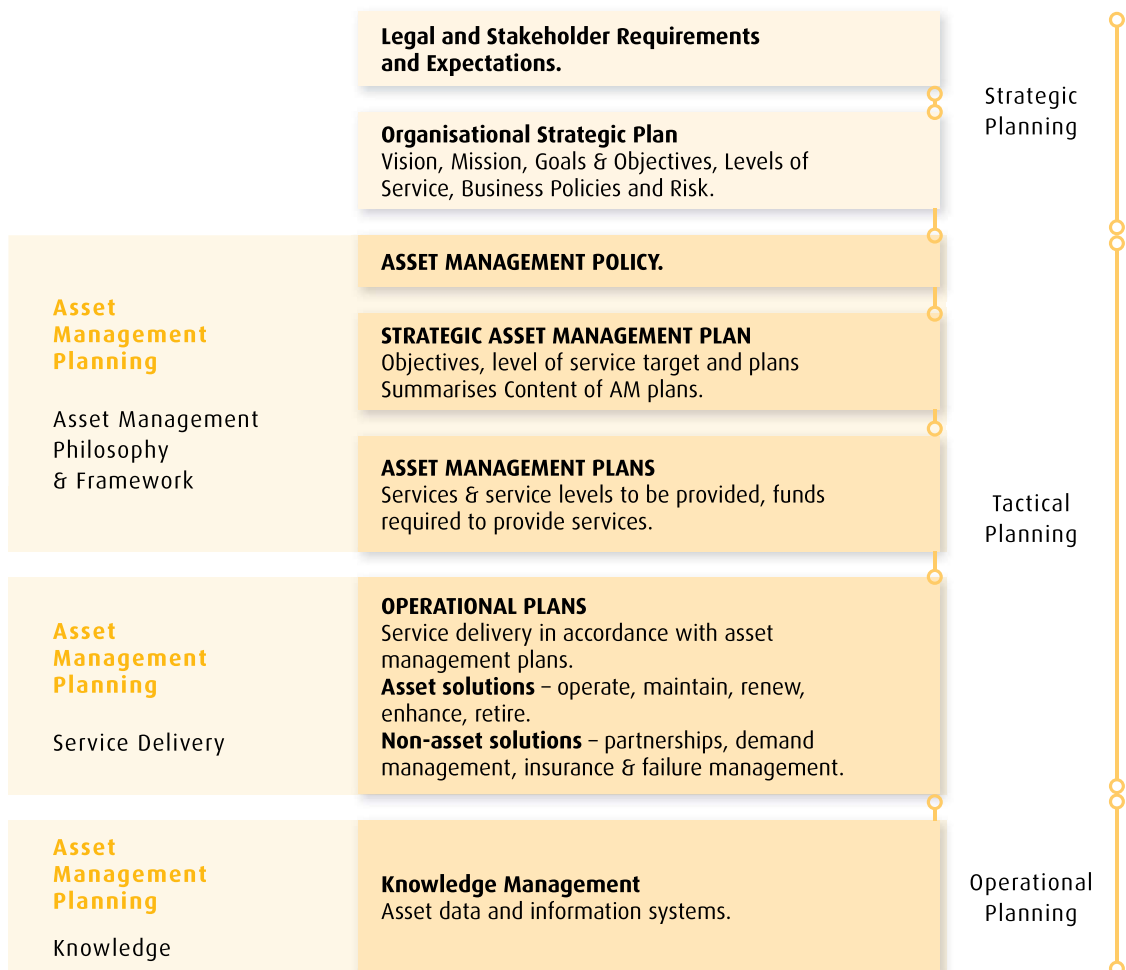

<sup>2</sup> IPWEA, 2015, IIMM, Sec 2.1.1, p 2|3.

<sup>3</sup> IPWEA, 2015, IIMM, Sec 2.1.1, p 2|3.

<sup>4</sup> IPWEA, 2015, IIMM, Sec 2.1.1, p 2|3.

<sup>5</sup> IPWEA, 2015, IIMM, Sec 2.1.3, p 2|13.

Figure 2 - Strategic Asset Management fit in Asset Planning Process

### 1.4 Asset Management Objectives

The City of Salisbury's Asset Management Objectives is to deliver and manage assets to Achieve the City Plans Vision of a progressive, sustainable connected community.

The AM objectives are developed from our strategic plan and:

- Review of risks including the potential impacts from failure of:
  - Assets from a Material/Structural Perspective, or
  - AM activities, (Quality or Level of Renewal and Maintenance) which prevents Council from Achieving their agreed to Levels of Service for the Community, both individually or in combination
- Review of the importance of assets related to their intended outcomes, objectives and product or Community Experience levels of service requirements
- A check on the applicability of AM objectives during the AM planning process<sup>6</sup>.

AM objectives are specific, measurable, achievable, relevant and time bound (SMART). AM objectives are developed in Section 4.

AM plans are to be formulated and documented to achieve the AM objectives. This includes documentation of decision making criteria, processes for managing the complete life cycle of assets, addressing risks and opportunities, activities to be undertaken, resources, responsibilities, timelines, performance criteria and financial implications<sup>7</sup>.

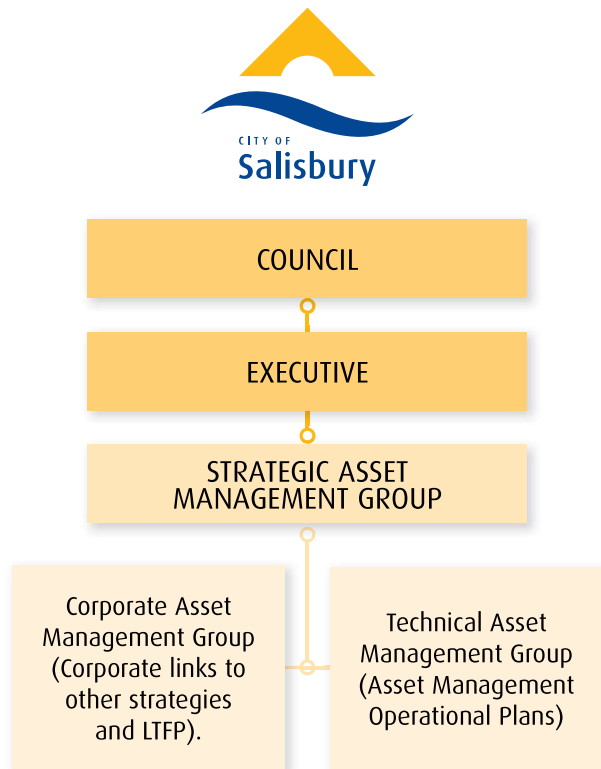

<sup>6</sup> ISO 2014, ISO 55002, Sec 6.2.1, p 9

<sup>7</sup> IPWEA, 2015, IIMM, Sec 4.2.3, p 4|29.

### 1.5 Responsibility for the SAMP

The Manager Infrastructure Management is responsible for development and maintenance of the SAMP. The SAMP is reviewed at regular intervals and presented to the Strategic Asset Management Group (SAMG), Executive (EXEC) and then to Council.

The Strategic Asset Management Group comprises of a select group of senior staff and report directly to EXEC. Additional internal working groups report to SAMG to deliver continuous improvement, develop and review Asset Management Operational Plans, service levels, asset structures and ensure ongoing general asset management planning.

### 1.6. SAMP Planning Horizon

The SAMP has a planning horizon of 20 years, it is based on detail in existing Asset Management Operational Plans (AMOP) which has been updated and revised with updated AMOPs to follow as part of the Asset Management Improvement Plan (AMIP).

Like the other Strategic management Plans of Council the SAMP has a life of 4 years or as required when there is a major change in Strategy.

## 2. Strategic Organisational Context

This section details the Strategies of the organisation over the period of the plan and presents options for addressing those issues including those that cross all parts of the organisation as they are likely to impact on our ability to achieve our AM objectives.

### 2.1 Alignment to City Plan 2035

City Plan 2035 contains a vision for Salisbury to be ‘a progressive, sustainable and connected community’. It has three directions that capture the social, environmental and economic influences on Salisbury, and one direction that addresses factors within the organisation itself.

Several ‘Foundations’ are then identified for each of the 4 directions. Council has determined that these Foundations are the goals that we will seek to achieve for Salisbury. They are supported by critical actions that outline the Council’s priority deliverables over the life of the plan

Our critical actions range from operational and site-specific projects that will have immediate impact, to strategic objectives that will guide how and what Council achieves in the longer term.

Key critical actions that are linked to this Strategic Asset Management are listed on the following page.

| <b>A welcoming and liveable City</b>   |  |

## 2.2 Services Provided

We provide essential services to the 142,000 residents, visitors and businesses in the City of Salisbury community including:

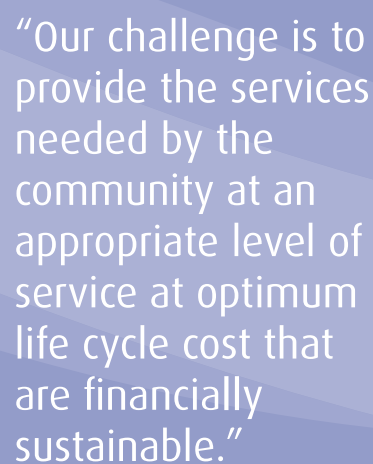

- Integrated Traffic Network of 900 km, including major off-road pedestrian cycling network in 50% of the City.
- Stormwater Flood management network that provides up 99% of homes flood proof to a 1 in 100 year event.
- 165 local, 32 District and 6 regional reserve/play spaces.
- A Hub model which is being developed to be incorporated across the City, which will see a reduction in the number of facilities, but an increase in service offering at a district level, providing Community Services including locating of neighbourhood centres, libraries and senior services and wellbeing services.
- Council Leases 120 Facilities to Clubs and Associations to deliver Sports and Recreation Across the City.

These services are an essential component to the liveability and economic prosperity of the community.

## 2.3 Our Community

We provide services to a range of customers and community users. These include:

- Residents
- Visitors staying in the area
- Businesses and industry within the area, and
- Business and industry users and visitors passing through the area.

“Our challenge is to provide the services needed by the community at an appropriate level of service at optimum life cycle cost that are financially sustainable.”

## **2.4 Strategic Challenges & Opportunities**

### **2.4.1 Place Making:**

Council, in providing “Exceptional Community Experience”, is transforming its Asset Management Planning Processes from an “asset centric” approach to a “service approach”, with a focus on place and destination. This will enable service levels and associated budgeting to be focused on providing a service in a place or destination which includes grouped assets.

### **2.4.2 Climate Change:**

Council is continuing to revise its’ models with respect to Climate Change, particularly in the Drainage area. This has meant a continuation of the Major Flooding Program, and Stormwater Management Plan development as the Australian Rainfall and Runoff Guidelines continue to be modified to include changes in weather patterns, particularly with the increase in intensity of storms and levels of storm surge. The extended duration of Heat Wave events (greater than 10 days above 38) also has a direct effect on the road condition with the durability of asphalt compromised as loading occurs during more regular high heat periods, not allowing the road to rest, and subject to higher levels of brittleness & cracking.

### **2.4.3 Socio-Economic Conditions:**

COVID response has seen a small number of rate payers under significant stress, due to loss of work, to pay rates. Council has in response not included an increase in rates and the bringing forward of \$12M of renewal work. With the reduction in yard size across the City, Council has recognised the need and increased the availability of public irrigated space and playgrounds. Similarly, it has recognised the Streetscape (Street trees, verge & footpath) now as a key aspect of the Communities recreational area. This has meant that Council has and continues to significantly increase the level of service for the community in these areas. These two combined aspects are challenging Council’s ability to pay for services.

### **2.4.4. Schooling Changes:**

The State Government will complete the move of year 7’s to high school for the start of 2022. Similarly Early Learning Centres are being developed in and around the primary school precincts. What this has meant is a significant increase in traffic management issues around state schools in the area, bearing in mind the private schools have undertaken the changes in the last 2 years. Unfortunately, whilst the changes have been made by the state,

Local Government has been left with the responsibility to invest in Traffic Infrastructure around the City. Council has developed a School Framework, which delivers over the next two years a significant capital program. Similarly, Council, whilst not receiving any financial support have developed a program to upgrade and redevelop bus stops, including bus pads, footpath connections and the replacement of old bus shelters.

### 2.4.5 Demographic Change

Table 1 - Demographic Change and Demand Impact

| Item                      | Present Position | Expected Position | Demand Impact  |
|---------------------------|------------------|-------------------|--|
| Population & Demographics | 142,555          | 153,520 by 2036   | <p>The City Plan 2035, initial expectations show no significant changes in Demographics, with the general trend being to an older population. This will have to be reassessed if and when the Salt Fields Development comes on line as a major project.</p> <p>Current demographic modelling predicts a significant increase in the proportion of retirement age from 2016 and 2036. This highlights the need for increases in universal access and inclusion with an additional focus on the diversification of Salisbury's population.</p> <p>Participation particularly in women's sport is significantly increasing the requirements of Council's sporting facilities and functional requirements. The initial additional estimated costs to improve the next group of sporting facilities is included in the additional costs of the paddocks master plan project and the Building Upgrade Program. These improvements will provide for an increase in change facilities to ensure appropriate facilities are provided.</p> |

Council are seeing a clear change in areas such as Para Hills and Salisbury North as the original landowners are aging and moving out, which is meaning that there is now becoming a significantly different suburb demographic. Similarly Salisbury’s population continues to diversify with the ongoing increase in migrants into the area, which is challenging how to best target services in the area. An excellent example of this is playgrounds, that were built in new estates, 20 years ago, were built for the young family, needs upgrading to meet the needs across all ages, for example the inclusion of basketball courts etc. for youth. Council has significantly improved the Community Level of service in this area to increase availability of Playspaces but also investing more to diversify the type of equipment.

Figure 3 – Population Forecast

Figure 4 – Forecast age structure 2016 to 2036

### 2.4.6 Legislative Requirements

Major legislative requirements are detailed in **Table 2** together with expected changes that may impact future operations.

Table 2 - Legislative Requirements

| Legislation/Regulation  | Major requirement   |
|---|---|
| <b>All portfolios</b>   |   |
| Local Government Act  | Sets out role, purpose, responsibilities and powers of local governments including the preparation of a long term financial plan supported by asset management plans for sustainable service delivery. Council is required to have an adopted plan covering a period of at least 4 years which meet the requirements of Section 122 of the Local Government Act 1999 for "strategic management plans".          |
| Australian Accounting Standards   | Set out the financial reporting standards relating to. Inter alia, the (re) valuation and depreciation of Assets.   |
| Work Health & Safety Act 2012   | To secure the health, safety and welfare of persons at work.<br>To eliminate, at their source, risks to the health, safety and welfare of persons at work.<br>To protect the public against risks to health or safety arising out of or in connection with the activities of persons at work, or the use of operation of various types of plant.  |
| Disability Discrimination Act (DDA)   | To ensure, as far as practicable, that persons with disabilities have the same rights to equality before the law as the rest of the community. <i>Council has adopted a more "Universal &amp; Inclusive" aligned approach to infrastructure delivery. As per the discussion regarding adult change facilities this has significantly increase the cost to build and maintain Council's Regional facilities.</i> |
| <b>Transportation</b>   |   |
| Civil Liability Act, 1936   | Liability of road authorities - Section 42, May 2004 inclusion in the Act to provide a replacement for the nonfeasance defence consequent to May 2001 High Court judgement.   |
| Code of Technical Requirements for the Legal Use of Traffic Control Devices | Details the design and construction parameters to which traffic management devices installed by City of Salisbury must comply.  |
| Highway Act 1926  | Set out the Legislative framework for drainage of roads and road authorities' In SA.  |
| Land Administration Act, 2002   | Standard for land acquisition and management of land.   |
| Road Traffic Act 1961   | Contains powers for City of Salisbury to install and remove traffic control devices.  |
| Water Resources Act 1997 (Department of Environment and Water)              | Regulates Resource Management , e.g. requires 'Water Effecting Activities' permits for Diversions (harvesting), dams, bores etc.  |

| Legislation/Regulation        | Major requirement   |
|-------------------------------|---|
| Native Vegetation Act 1991    | The Governor considers that the regulation should be made in order to enhance the preservation or management of an area that includes significant native vegetation, or in order to assist in the provision of a significant environmental benefit. |
| Community Land Management Act | Section 194 The Act places obligations and responsibilities on City of Salisbury to manage community land for the current and future benefit of the community.  |
| Land Administration Act, 2002 | Standard for land acquisition and management of land.   |

**Streetscapes**

|   |  |
|---|--|
| Sewerage Act 1996                                     |  |
| Details species, location and damage responsibilities | Details species, location and damage responsibilities. |
| Electricity Act 1996                                  |  |

**Property & Buildings**

|  |   |
|--|---|
| Building Code Australia                                    |   |
| Disability (Access to Premises - Buildings) Standards 2010 | These Standards set performance requirements and provide references to technical specifications to ensure dignified access to, and use of, buildings for people with disability. <i>Council has adopted a more “Universal &amp; Inclusive” aligned approach to infrastructure delivery. As per the discussion regarding adult change facilities this has significantly increase the cost to build and maintain Council’s Regional facilities.</i> |

**Plant, Furniture & Equipment**

|                                |   |
|--------------------------------|---|
| Australian Design Rules (ADRs) | The Australian Design Rules (ADRs) are national standards for vehicle safety, anti-theft and emissions. The ADRs are generally performance based and cover issues such as occupant protection, structures, lighting, noise, engine exhaust emissions, braking and a range of miscellaneous items. |
|--------------------------------|---|

| Legislation/Regulation   | Major requirement  |
|--|--|
| <b>Salisbury Water</b>   |  |
| The Water Industry Act 2012 (ESCOSA) (OTR)   | The Act requires a Water Retail Licence to be held by the City of Salisbury. Salisbury Water is the Division tasked with meeting Council’s obligations as a licenced retailer. Regulate water price setting, customer service standards and customer issues. Regulate technical standards and safety issues. |
| Environment Protection Act 1993 (EPA )   | Regulates activities that have the potential to pollute the environment<br><i>Requires a risk-based management approach including licences for Managed Aquifer Recharge (MAR) and brine disposal, with extensive monitoring and reporting.</i>   |
| Water Resources Act 1997 (DEW)   | Requires ‘Water Effecting Activity’ permits for diversions (harvesting), dams, wells etc.<br>The Water Allocation Plan for the Northern Adelaide Plains Prescribed Area requires Water Licences to for injection, extraction and trading of allocations.   |
| National Water Quality Management Strategy Australian Govt. Dept. of Agriculture and Water Resources | Australian Guidelines for Recycling - Managing health and environmental risks<br><ul style="list-style-type: none"> <li>- Augmentation of drinking water supplies</li> <li>- Stormwater harvesting and reuse</li> <li>- Managed Aquifer Recharge.</li> </ul>   |

## 2.4.7 Organisational Issues

### Asset Management System

Council has made the appropriate structural changes to improve the focus on Asset Management Planning. There are some challenges to keep Level of Service Expectations from Council (Asset Management Sub-Committee) at sustainable levels in line with the long term financial plan, with financial implications of service level changes often only realised in the following year's budget cycle.

### Asset Management Maturity

We have taken steps to improve our asset and associated financial management performance including assessing our asset management maturity against the 3 Frameworks of the Local Government Financial Sustainability National Assessment Framework (NAF). Our target is to achieve 'core' maturity with the Frameworks. **Figure 3** and **Figure 4** show the current and target 'core' and 'advanced' maturity scores for the eleven elements of the National Frameworks for asset and financial management.

A NAF maturity assessment was undertaken internally in 2013 prior to development of Asset Management

Plans and a more recent internal maturity assessment undertaken using the NAF for comparison. In future maturity assessments will be undertaken using the seven elements of ISO 55001 as the organisation aims to align to ISO 55001.

It is noted that Council is currently undertaking a level of service review of key assets, which from a maturity expectation, will not meet the "advanced level" between now and the next SAMP, and therefore has been reduced to an expectation of achieving an "intermediate" stage by the end of 2021. The long-term strategy will be to achieve an "advanced Level" over the next 3 years.

Improvement in 'core' maturity is indicated by movement of the blue ● (current maturity) line to the red ● ('core' maturity) and green ● (desired or aspirational target maturity) and significant improvement is visible in the comparative maturity assessments undertaken in 2013 (**Figure 3**) and 2019.

Figure 5 - 2013 Maturity Assessment

Figure 6 - 2019 Maturity Assessment

# 3. Asset Portfolio

## 3.1 Asset Dimensions and Value

Council manages a large number and variety of assets to provide services to our community. The assets provide the foundation for the community to carry out its everyday activities, while contributing to overall quality of life. **Table 3** highlights key assets by asset management area with the breakdown replacement cost by area shown in **Figure 7**.

| Asset Management Area | Asset Summary   |
|-----------------------|---|
| Drainage & Waterways  | 16,000 Stormwater Pits<br>500 km Stormwater Pipes<br>10 km Open Channels<br>20 Flood Dams   |
| Parks & Streetscapes  | 163 Playspaces<br>30 Fitness Stations<br>297 Irrigation Systems<br>648 Bins<br>1,062 Seats/Tables<br>9 Dog Parks<br>182 Sports Courts/Grounds/Athletics Facilities                |
| Streetscapes          | 77,000 Trees  |
| Public Lighting       | 3,846 Public Lights<br>172 Solar Lights<br>155 Sports Lights  |
| Transportation        | 6,288,079 m <sup>2</sup> Roads<br>18,12,320 km Kerbing<br>1,536,376 m <sup>2</sup> Footpaths<br>11,086 Kerb Ramps<br>181 Car Parks<br>346 Traffic Control Devices<br>20,000 Signs |
| Property & Building   | 245 Buildings<br>45 Artwork<br>100 Historical Monuments/Plaques<br>185 Shelters/Gazebos<br>130 Statement Walls<br>1 Swimming Pool Facility<br>1 Golf Course<br>CCTV Systems       |
| Plant & Fleet         | 92 Heavy vehicles<br>125 Light vehicles<br>57 Trailers  |

Figure 7 - Asset Replacement Values

### 3.3 Asset register

This SAMP is based on information from our infrastructure asset register. Access to reliable asset information is critical to the success of good asset management in the organisation.

Council’s asset register is continuously updated following the completion of capital works completed by Council or donation of assets from private developers or government departments. Asset structure and asset components are routinely reviewed with assets broken down into components where applicable to help manage asset accounting and asset reporting.

Council’s asset register stores condition information against discrete assets and routine condition assessments are undertaken on various asset classes.

Asset performance information particularly maintenance data is being recorded at an individual level now, following the completion of the Asset Management Improvement Project in 2018/19.

Data trends are now becoming available and valuable to increase the knowledge around function and capacity of assets in the field. Decision making is now beginning to be made based on function and capacity and maintenance data rather than on Condition Assessment through Audits alone. This is enabling Asset Managers to be more targeted and efficient in the renewal programs.”

As the Council moves to Digital Cloud based data management, it is expected that total integration between GIS, the Asset Management System, Customer Management System and the Financial System will allow further refinement and enable real time predictive modelling. This is currently being trialled with road assets as part of the update to the AMOP for roads, but will be able to be applied across the total asset base in the future as the register and maintenance information continues to develop in sophistication.

## 4. Asset Management Objectives

Council's Asset Management Objective is to provide "Exceptional Community Experience", is transforming its Asset Management Planning Processes from an "asset centric" approach to a "service based" approach with a focus on place and destination, aided by the use of high quality asset management data.

The AM objectives, developed in this SAMP provide the essential link between the organisational objectives and the AM plan(s) that describe how those objectives are going to be achieved. The AM objectives are developed from our strategic plan and a range of requirements including corporate goals and stakeholder, regulatory and legislative requirements.

The AM objectives are aligned to the organisational objectives in the strategic plans, with the objective of establishing alignment from the organisational objectives through the AM objectives to AM initiatives, projects and performance measures. It is expected that the Organisational objectives will be modified as the Council's Place Activation Strategy and Sustainability Strategy are formally adopted. A number of Organisational Objectives are included below but it is by no means a complete list.

The AM objectives incorporate our desire to ensure that infrastructure assets are managed in an efficient and sustainable manner and asset cost is optimised over the asset's lifecycle. AM objectives transform the required outcomes (product or service) to be provided by the assets, into activities typically described in the asset management plans.

**Table 4** shows the AM objectives developed under each organisational objective with a performance target/timeline and responsible officer.

Table 4 - Asset Management Objectives

| Organisational Objective<br>AM Objective   | Action /<br>Strategy  | Performance<br>Target /Timeline  |
|--|---|--|
| Financial Sustainability   | Ensure the SAMP is routinely reviewed/ updated and informs the LTFP to ensure service delivery is financially sustainable.  | Within 2 years of a Council election and/or following significant changes to asset management planning strategies. |
| Streetscape Renewal and improvement in aesthetic to create Place and Destination                     | Street Tree Renewal program modified to increase diversity of species into the City. Integrate Footpath, Street Tree & Kerb Renewal programs to develop a whole of street approach, where possible (trial underway)   | Dec 2023   |
| Environmental Sustainability Strategy  | Continue to implement Circular Economy approach with respect to the delivery of the Capital and Operational Programs<br>Improve Environmental Performance & Climate Resilience of Infrastructure (reduction in heat island in roads, natural creek design, sustainable resource use)<br>Increase the use of recyclables in key renewal programs (Building, Road, Bridges, Outdoor Furniture). | Ongoing  |
| Improved Management and efficiency and capacity of Public Lighting                                   | Replacing Council owned luminaires with LED's.  | 2021-2028  |
| Improved Access to Green Space –Increase in Irrigated Areas in Local Playspaces                      | Implement Program to increase supply of shaded Playgrounds within a maximum of 800m walking distance of residents and irrigated open space areas within 400m walking of residential areas.  | 2021 to 2030   |
| Flood Management – Reduce Risk to Residential and Commercial Premises to above 1 in 100 year events. | Ongoing delivery of the Major Flood Mitigation Strategy.  | 2018 to 2028   |

# 5. Asset Management Planning Approach (Action Plan)

The AM planning approach provides direction for AM Plans to achieve the organisational objectives. This includes documentation of decision making criteria, processes for managing the complete life cycle of assets, addressing risks and opportunities, activities to be undertaken, resources, responsibilities, timelines, performance criteria and financial implications for Council.

## 5.1 Levels of Service

We have defined service levels in two terms.

**Community Experience Levels of Service** measure how the community receives and uses the service and whether the organisation is providing community value.

The following measures are typically used in AM Plans to monitor and report on asset performance against Community Experience Levels of Service.

|                      |   |
|----------------------|---|
| Quality/condition    | How good is the service?                      |
| Function             | Does it meet users' needs?                    |
| Capacity/Utilisation | Is the service usage appropriate to capacity? |

These measures will be gathered from asset inspections, community satisfaction surveys and feedback from the community through CRMs and other communication methods. Historically condition has been the primary focus for monitoring asset performance and improvement plans to include function, capacity and utilisation.

Our current and projected community levels of service for the services covered by this strategic asset management plan are summarised in this strategic asset management

plan with future revisions of the Asset Management Operational Plans based on agreed Structure, Hierarchy & Community Experience Levels of Service. These Community Experience & Subsequent Technical Levels of Service are being adjusted over the next twelve months.

Technical Levels of Service - Supporting the community service levels are operational or technical measures of performance. These technical measures relate to the allocation of resources to service activities that the organisation undertakes to best achieve the desired community outcomes and demonstrate effective organisational performance.

Technical service measures are linked to annual budgets covering:

- Operations – the regular activities to provide services such as utility costs (water/electricity), cleansing, mowing, etc.
- Maintenance – the activities necessary to retain an asset as near as practicable to an appropriate service condition (e.g. road patching, unsealed road grading, building and structure repairs, cleaning

fire hydrants),

- Renewal – the activities that return the service capability of an asset similar to that which it had originally (e.g. road resurfacing and pavement reconstruction, pipeline replacement and building component replacement),
- Upgrade/New – the activities to provide a higher level of service (e.g. widening a road, sealing an unsealed road, replacing a pipeline with a larger size) or a new service that did not exist previously (e.g. a new library).

Asset Managers plan, implement and monitor the achievement of technical service levels. Together the community and technical levels of service provide detail on service performance, cost and whether service levels are likely to stay the same, get better or worse.

Our current and projected technical levels of service for the services covered by this strategic asset management plan are being developed in the Asset management Operational Plans and are summarised in this strategic asset management plan in **Table 5** on the next page.

Table 5 - Community Experience Service Levels

| Service Area                          | Current Level of Service   | Customer Experience Level of Service   |
|---------------------------------------|--|--|
| <p><b>Community Facilities</b></p>    | <p>The overall condition of the building and its fit-for purpose requirements are based on the Place Activation Strategy, for Regional, District and Local Facilities Hierarchies including maintenance response times. Design of replacement facilities are through direct engagement with the users of the facilities.</p> | <p>The Facility is suitable for use, based on function and capacity developed through direct engagement during the design phase, with users of the facilities, clubs, and relevant State Sporting Bodies, based on the Hierarchy of the Facility. Facilities utilised Universal and Inclusive Design principles where possible.</p>  |
| <p><b>Drainage &amp; Flooding</b></p> | <p>Homes and businesses will not have flood waters through their buildings and facilities in less than a 1 in 100 year flood event, other than those already identified and notified.</p>  | <p>Homes and businesses will be safe in significant storm events (under 100mm of rainfall per hour).<br/>                     Transportation networks (roads, paths, bridges) will be accessible in a minor storm event (under 20mm per hour).<br/>                     Underpasses and ford crossings will be closed above a minor storm (over 20mm per hour) event to keep the community safe.</p> |

| Technical Level of Service  | Key Strategy/Program to Deliver   |
|---|---|
| <p>The technical level of service accepted as a minimum threshold for habitable and utilised Council buildings is a condition rating of “3 – Fair” With minor deterioration present and routine maintenance may be required.</p> <p>The assets are fit for purpose based on the PAS for regional and community facilities and maintenance response times.</p>   | <p><b>Strategy</b></p> <ul style="list-style-type: none"> <li>· Place Activation Strategy</li> <li>Capital Renewal</li> <li>· Building Renewal/Upgrade Program.</li> </ul> <p><b>Operating/Maintenance</b></p> <ul style="list-style-type: none"> <li>· Programmed &amp; Contracted Maintenance</li> </ul>  |
| <p>Flood dams and major waterways are designed to cater for a 1 in 100 year flood event.</p> <p>Underground Stormwater network and overland flow paths and basins are designed to cater for a 1 in 10 year flood event.</p> <p>Council stormwater network is routinely cleaned on a 4 year cycle.</p> <p>Key stormwater infrastructure (such as known high risk areas) are inspected and cleaned prior to key storm events.</p> <p>Flood maps are reviewed and updated routinely on a 5 year cycle.</p> <p>Routine inspections are undertaken on a routine basis for key assets such as:</p> <p>Side Entry Pits, Trash Racks &amp; Headwalls, Gross Pollution Traps to ensure water quality is maintained in the network.</p> | <p><b>Strategy</b></p> <ul style="list-style-type: none"> <li>· Flood Mitigation Strategy</li> <li>· Stormwater Management Plans</li> </ul> <p><b>Capital Renewal</b></p> <ul style="list-style-type: none"> <li>· Currently no budget exists as stormwater network has not reached renewal age.</li> </ul> <p>Capital Upgrade/New</p> <ul style="list-style-type: none"> <li>· Major Flood Mitigation Program</li> <li>· Minor Flood Mitigation Program</li> <li>· Dry Creek Stormwater Management Plan</li> </ul> <p><b>Operating/Maintenance</b></p> <ul style="list-style-type: none"> <li>· SEP Cleaning Program</li> <li>· Civil Maintenance Program</li> </ul> <p><b>Water Quality</b></p> <ul style="list-style-type: none"> <li>· Water Quality is monitored to ensure Watercourse Management Plan works continue to reduce the pollution to the Barker Inlet, and maximise harvesting.</li> </ul> |

Table 5 - Community Experience Service Levels

| Service Area                            | Current Level of Service  | Customer Experience Level of Service   |
|---|---|--|
| <p><b>Playspaces &amp; Reserves</b></p> | <p>Irrigated Areas are located within 400m walking distance of residents</p> <p>Playgrounds are located with an 800m walking distance.</p> <p>Regional and District reserves deliver a higher community experience and are distributed within the City.</p>   | <p>Playspaces are accessible by the community via walking.</p> <p>Playspaces will be renewed with universally accessible elements incorporated where applicable.</p> <p>Playspaces and irrigated open spaces will be accessible within 400m of residences.</p> <p>Regional and District informal recreational areas will be designed to provide facilities for visits over 1 hour, in accordance with universal and inclusive design principles.</p> |
| <p><b>Streetscape</b></p>               | <p>Street Trees are provided based on 1 per residential property.</p> <p>The number of Street Trees in the City is to be maintained at approximately 80,000 trees.</p> <p>Verges are unirrigated and maintained to a neat standard, with a new program incorporating the renewal of Street Trees, Footpath, Kerb &amp; Verge to be introduced in 2021/22 financial year.</p> <p>Street Tree Pallet to be modified to diversify the species mix.</p> | <p>Street Trees provide amenity for the streetscape and are maintained to a safe level to reduce risk to property damage and infrastructure.</p>   |

| Technical Level of Service  | Key Strategy/Program to Deliver   |
|---|---|

Table 5 - Community Experience Service Levels

| Service Area                        | Current Level of Service   | Customer Experience Level of Service  |
|-------------------------------------|--|---|
| <p><b>Roads &amp; Transport</b></p> | <p>Roads are maintained to an acceptable level with a focus on safety and ride ability.</p> <p>Footpaths are provided on at least 1 side of residential streets and both sides of major roads where possible.</p> <p>Provision of a Green Trails ring route around the City for pedestrian and cycle movement.</p> <p>Bus stops and path linkages are designed to be universally accessible with Bus Shelters provided on high usage bus stops.</p> <p>Public Lighting is provided on all road networks and key links with higher standards prioritised on risk.</p> | <p>Provide safe and efficient commuter use travel across the city.</p> <p>Efficient and effective heavy vehicle/freight movement throughout the city.</p> <p>Safe pedestrian and cycle movement through the City with a significant portion off road.</p> <p>Universally accessible public transport use between residential and business areas.</p> <p>Safe pedestrian and cycle travel at night on streets and key links.</p> |

<sup>8</sup> 0-6 Condition Rating with 0 being Brand New and 6 being End of Life.

| Technical Level of Service  | Key Strategy/Program to Deliver   |
|---|---|
| <p>Pavement Condition Index 3 (on a condition rating scale where 1 is new and 6 is undriveable).</p> <p>Council streets are designed based on AustRoads Guidelines and incorporating the "Safe System Approach".</p> <p>New Council footpaths are designed with universal access principles with minimum widths of 1.5m on residential streets and 1.8m on major roads where possible.</p> <p>Road defects such as minor pot holes and deformation will be completed within 10 days, with dangerous defects made safe within 24 hours.</p> <p>Public Lighting is designed to comply with AS1158 and P3 Category for new developments.</p> <p>Routine inspections are undertaken on a routine basis for key assets such as;</p> <ul style="list-style-type: none"> <li>· Roads</li> <li>· Footpaths</li> <li>· Kerbing</li> <li>· Bus Shelters</li> <li>· Signage</li> </ul> | <p><b>Strategy</b></p> <ul style="list-style-type: none"> <li>· Integrated Transport Plan</li> </ul> <p><b>Capital Renewal</b></p> <ul style="list-style-type: none"> <li>· Road Reseal Program</li> <li>· Irrigation Program</li> <li>· Outdoor Furniture Program</li> <li>· Bridge Program</li> <li>· Bus Shelter Renewal Program</li> </ul> <p><b>Capital Upgrade/New</b></p> <ul style="list-style-type: none"> <li>· Footpath Program</li> <li>· Minor and Major Traffic Improvement Programs</li> <li>· School Framework Program</li> <li>· City Wide Trails Program</li> <li>· Kerb Ramp Upgrade Program</li> </ul> <p><b>Operating/Maintenance</b></p> <ul style="list-style-type: none"> <li>· Road Maintenance Program</li> <li>· Footpath Maintenance Program</li> <li>· Kerb Maintenance Program</li> <li>· Bus Shelter Maintenance Program</li> <li>· Signage Maintenance Program</li> </ul> |

### **5.1 Community Experience Levels of Service under review over the next twelve months**

Council's Asset Management Sub Committee are reviewing the service levels in the following areas, to be finalised over the next 12 months;

- **Playspaces (playgrounds)**
  - Universal access, providing for change in demographics, provision of coverage across the City, modern functionality/design
  - Consider the number of irrigated spaces and access to playgrounds which will require additional operating and maintenance budgets particularly for mowing, water usage and safety inspections and repairs.
  - Consider the provision of shade structures for playgrounds.
  - Consider the provision of universally accessible playgrounds
  - Consider the provision of toilet and adult change room facilities
- **Streetscapes (verge/trees/footpaths)**
  - Consider the verge renewal and management service level across City
  - Targeted approach to footpath management based on risk, usage and destination.
- Consider improvements to service level of footpaths to improve accessibility by increasing minimum standard widths within existing budgets for new footpath provision from 1.5 to 1.8m.
- Consider improvements to street trees range across the City engaging the community in decision making, including diversifying the tree pallet for the City.
- Canopy Cover, net neutral for street trees with increases in canopy cover in reserve open space (10,000 tree project).
- **Links and Destinations**
  - Public Lighting of destinations and level of lighting in key links.
- **Dog Parks**
  - Consider the provision of dog parks including separate areas for small dogs
- **Roads**
  - The Integrated Transport Plan has identified key intersections to be upgraded to improve heavy vehicle access into industrial areas with 6 intersections being prioritised for upgrade over the next 8 years with significant external funding being

sought or already approved.

- Current maintenance regimes and feedback from the community has indicated that the community is satisfied with the current level of service being provided and Council is using new treatment strategies to improve financial and environmental sustainability with no impact to community experience.
- **Drainage & Waterways**
  - Council continues to deliver the flood mitigation strategy and has further reduced the number of properties at risk of flooding during significant flood events.
- **Buildings**
  - Recent audit of buildings has shown the current condition of Council Buildings are in a good state. However through discussion with the Asset Management Sub Committee the community experience around the function and fit for purpose is not meeting the expectation. This has led to a service level review to define the required service level with a gap analysis being undertaken of Council's community and recreation facilities to identify future upgrade projects.

- The creation of Hubs has led to a significant increase in operating budgets and will continue to do so as additional hubs are completed as these have a higher level of service to the Community compared to the existing facilities.

## 5.2 Risk Management

Risks previously identified in the 2015 Strategic Asset Management Plan Risk Register have been reviewed and updated with 30 risks having been mitigated or eliminated. An updated risk register is attached in **Table 6** on the following page.

Table 6 - Risk Management Plan

| Asset Providing the Service                                     | What can happen   | Risk Rating |
|---|---|-------------|
| All Assets  | Premature asset failure.  | High        |
| All Assets  | Donated/gifted assets do not meet service levels.   | High        |
| Flood Levee Banks   | Flooding due to storm events.   | High        |
| All assets  | Uninformed decision making for Asset Management Planning  | High        |
| Flood Dams  | Failure to dam resulting in major flooding, overtopping and upstream siltation.   | High        |
| Reserve Trees   | Failure, injury, loss of amenity, damage to infrastructure.   | High        |
| Roads   | Increase in heavy vehicle traffic. Roads may not be designed or structurally suitable for heavy vehicles.                                   | High        |
| Major Road Intersections (Heaslip/ Diment & Heaslip/ Edinburgh) | Unsafe/unfit for purpose intersections for heavy vehicle movement along Heaslip Road and intersections with Diment Road and Edinburgh Road. | Very High   |
| St Kilda Road   | Road Failure due to heavy vehicle loadings.   | High        |
| Signage   | Poor condition/function of asset could result in traffic accidents.   | Very High   |
| Council Maintained Street Lighting                              | Poor street lighting can lead to injuries to pedestrians, traffic accidents at traffic control devices and provide an unsafe environment.   | High        |
| Reserve Lighting  | Poor lighting in reserves can lead to Injuries to pedestrians, undesirable activity and provide an unsafe environment.                      | High        |
| New assets contributed from Northern Connector Project          | Funding from State Government or Council is not sufficient to Maintain newly created assets.  | High        |
| Dry Creek   | Flooding from river system resulting in property damage and/or personal injury.   | High        |

| Risk Treatment Plan  | Residual Risk | Treatment Costs (\$)                               |
|--|---------------|--|
| Regular asset/condition inspections by dedicated full time/contracted employees.   | Medium        | 100,000 (p.a.)                                     |
| Improve specification/handover process and relationships with Government Departments.  | Medium        | N/A (Within existing budget)                       |
| Undertake review of Levee Banks in 2022/23 and seek appropriate budget for capital works in 2022/23.   | Medium        | 200,000  |
| Ensure all staff undertake asset inspections in the AMIS (Confirm Connect) or ensure information is recorded in a compatible format that can be imported in a timely manner to ensure the AMIS and associated asset information is accurate and current. | Low           | N/A (Within existing budget)                       |
| Dam Survey Audit (every 4 years).  | High          | 100,000  |
| Develop a reserve tree management renewal and maintenance programs and seek additional capital works budget in 2022/23.  | High          | 50,000 (p.a.)                                      |
| Evaluate land use changes which may impact on the local roads network, submit new budget bids when required. Budget for works will be supplemented by grants where possible.   | Medium        | 500,000 (p.a. seek grant funding)                  |
| Seek grant funding from State and Federal Governments to upgrade both intersections from 2022/23.  | Medium        | 5,000,000  |
| Routine monitoring of St Kilda Road for road and drainage deterioration, Negotiations have occurred with SA Water to fully fund Robinson Road Upgrade works from 2022/23.  | Low           | N/A (externally funded)                            |
| Complete audit via contractors and undertake analysis and development of renewal and maintenance programs every 4 years.   | Medium        | 40,000 (every 4 years)                             |
| Analysis of poor lighting areas has been completed and an upgrade program developed to be completed by 2023/24.  | Medium        | 0 (within existing capital works/ budget bids)     |
| Develop budget bid for reserve lighting upgrade program to seek appropriate funds for capital works program from 2022/23.  | Medium        | 150,000 (p.a.)                                     |
| Negotiate with DIT to seek an ongoing operating/maintenance budget for landscaping and shared use paths.   | Low           | 0 (seeking external funding from State Government) |
| Undertake SMP study in 2022/23 with results to be used to determine future Budget Bids from 2022/23.   | Low           | 500,000 (p.a. for 5 years)                         |

### 5.3 COVID19 Response

In response to the COVID 19 Pandemic Council endorsed an ongoing \$2.4M Operating Saving, to offset the 0% Rate rise increase.

Key operational savings included:

- Reduction in footpath maintenance (\$400k)
- Kerb Maintenance reduction of (\$800k) in both Kerbing maintenance and Road Reseal Program.

This was based on current maintenance data which has shown a significant reduction in footpath and kerb faults and Customer requests in this area.

Council brought forward \$12M of renewal works, to be delivered over 2021/22,2022/23, to support local businesses and employment to assist with stimulating the economy. The Asset Renewal Funding Ratio will not be in the medium term, but will move above and below the 100% ratio over the next 4 years, but net out in alignment with the Strategic Asset Management Plan, as shown in **Figure 8** below:

Figure 8 - Asset Renewal Funding Ratio following COVID19 Response

## 5.4 Demand Management

Demand for new services will be managed through a combination of managing existing assets, upgrading of existing assets and providing new assets to meet the increased demand for particular services by the Community.

Non-asset solutions focus on providing the required service without the need for the organisation to own the assets and management actions including reducing demand for the service, reducing the level of service (allowing some assets to deteriorate beyond current service levels) or educating customers to accept appropriate asset failures. Examples of non-asset solutions including the provision of joint services, such as the new Burton Hub which provides, both Library and Community Facilities, or the integration of clubs into a joint facility that provides for summer sport for one club and winter sport for another, such as at the new Paddocks joint use facility.

Opportunities identified for demand management are shown in **Table 7**.

**Table 7 - Demand Management Opportunities**

| Service Impact                   | Demand Management Plan  |
|----------------------------------|---|
| Sporting Facilities              | Where new facilities are considered build Joint use facilities, enabling an increase in capacity for Functional Requirements but reducing the number of facilities needed to deliver that service. (New Paddocks Joint facility, replacing 3 buildings).  |
| Sports Field Lighting Management | Council has moved to create a new renewal and maintenance program for Sports Field Lighting, bringing the care and control of Sports Field Lighting to maximise the efficiency of managing sports field lights across the City, rather than have each club individually supported to maintain their own lights. |
| Street Verges                    | Council is trialling a verge redevelopment program to improve the aesthetic of its streets with the hope residents will be inspired to take on more responsibility for the maintenance of the street thereby increasing City Pride but also reducing the long term burden of maintenance in the street.         |

## 5.5 Operations and Maintenance Strategies

Operations activities affect service levels including quality and function, such as cleanliness, appearance, etc., through street sweeping and grass mowing frequency, intensity and spacing of street lights and cleaning frequency and opening hours of building and other facilities.

Maintenance includes all actions necessary for retaining an asset as near as practicable to an appropriate service condition including regular ongoing day-to-day work necessary to keep assets operating, e.g. road patching but excluding rehabilitation or renewal.

Where maintenance expenditure levels are such that will result in a lesser level of service, the service consequences and service risks have been identified and service consequences highlighted in the respective AM Plan and service risks considered in the Infrastructure Risk Management Plan.

We will operate and maintain assets to provide the defined level of service to approved budgets in the most cost-efficient manner. Proposed operations and maintenance strategies in this SAMP are:

- Scheduling operations activities to deliver the defined level of service in the most efficient manner
- Undertaking maintenance activities

through a planned maintenance system to reduce maintenance costs and improve maintenance outcomes. Undertake cost-benefit analysis to determine the most cost-effective split between planned and unplanned maintenance activities (50 – 70% planned desirable as measured by cost)

- Maintain a current infrastructure risk register for assets and present service risks associated with providing services from infrastructure assets and reporting Very High and High risks and residual risks after treatment to management and Council/Board
- Review current and required skills base and implement workforce acquisition, training and development to meet required operations and maintenance needs
- Review asset utilisation to identify underutilised assets and appropriate remedies, and over utilised assets and customer demand management options
- Maintain a current hierarchy of critical assets and required operations and maintenance activities
- Develop and regularly review appropriate emergency response capability
- Review management of operations and maintenance activities to ensure we are obtaining best value for resources used.

Council uses the Asset Management System to monitor Councils proactive and reactive maintenance programs and compliance to these programs. Following the Asset Improvement Plan in 2018/19 Maintenance Managers and Strategic Assets Staff have been Automating the Proactive Maintenance programs, which has enabled resource efficiency to increase proactive Inspections and Scoping. At this point in time the has enabled better targeting of operational resources to asset maintenance strategies which means no additional requirements for maintenance beyond that for new services.

### 5.6 Renewal/Replacement Strategies

Renewal and replacement expenditure is major work which does not increase the asset's design capacity but restores, rehabilitates, replaces or renews an existing asset to its original or lesser required service potential. Work over and above restoring an asset to original service potential is upgrade/expansion or new works expenditure.

Council Plans Capital Renewal and Replacement projects, in consultation with the Councillors and Community, to meet levels of service objects and minimise infrastructure service risks by:

We will plan capital renewal and replacement projects to meet level of service objectives and minimise infrastructure service risks by:

- Planning and scheduling renewal projects to deliver the defined level of service in the most efficient manner
- Consult with the Community and Elected members to during the scoping for all capital renewal and replacement projects to identify:
  - the service delivery 'deficiency', present risk and optimum time for renewal/replacement
  - the project objectives to rectify the deficiency
  - the range of options, estimated capital and life cycle costs for each option that could address the service deficiency
  - and evaluate the options against evaluation criteria adopted by Council/Board, and
  - select the best option to be included in capital renewal program.
- Using optimal renewal methods (cost of renewal is less than replacement) wherever possible
- Maintain a current infrastructure risk register for assets and service risks associated with providing services from infrastructure assets and reporting Very High and High risks and Residual risks after treatment to management and Council/Board

- Review current and required skills base and implement workforce training and development to meet required construction and renewal needs
- Maintain a current hierarchy of critical assets and capital renewal treatments and timings required
- Review management of capital renewal and replacement activities to ensure we are obtaining best value for resources used.

### 5.7 Renewal ranking criteria

Renewal ranking criteria was developed from consideration of renewal/replacement need for assets that:

- Have a high consequence of failure
- Have a high utilisation and subsequent impact on users would be greatest
- The total value represents the greatest net value to the organisation
- Have the highest average age relative to their expected lives
- Are identified in the AM Plan as key cost factors
- Have high operational or maintenance costs, and
- Where replacement with modern equivalent assets would yield material savings.

Criteria used for ranking renewal and replacement proposals are documented in the applicable AM Plans.

The ranking has enabled Council Staff to determine to the most critical asset classes to be reviewed by Council over the next 12 months, based on the above criteria, this includes Roads, Drainage, Buildings, Playspaces, Urban Assets – Park Furniture & Irrigation and Natural Systems – Waterways and City Trails.

### 5.8 New and Upgrade Assets Strategies

New works are those works that create a new asset that did not previously exist, or works which upgrade or improve an existing asset beyond its existing capacity. They may result from growth, social or environmental needs. Assets (donated or gifted assets) may also be acquired at no cost to the organisation from land development or arising from government grants.

Strategies for creation, acquisition of new assets and upgrade of existing assets proposed in this SAMP are:

Council Plans Capital upgrade and new projects, in consultation with the Councillor's and Community, to meet levels of service objectives in the most efficient manner by:

- Planning and scheduling capital upgrade and new projects to deliver the defined level of service in the most efficient manner

- Undertaking project scoping & consulting with the Community and Elected members to identify
  - the service delivery 'deficiency', present risk and required timeline for delivery of the upgrade/new asset
  - the project objectives to rectify the deficiency including value management for major projects
  - the range of options, estimated capital and life cycle costs for each option that could address the service deficiency
  - management of risks associated with alternative options
  - and evaluate the options against evaluation criteria adopted by Council/Board, and
  - select the best option to be included in capital upgrade/new programs
- Review current and required skills base and implement staff acquisition, training and development to meet required construction and project management needs
- Review management of capital project management activities to ensure we are obtaining best value for resources used.

### **5.9 Proposal New/Upgrade Assets Selection Criteria**

New assets and upgrade/expansion of existing assets are identified from various

sources such as councillor or customer/community requests, proposals identified by strategic plans or partnerships with other organisations. Proposals are inspected to verify need and to develop preliminary CAPEX and OPEX estimates. Verified proposals are ranked by priority and available funds and scheduled in future works programmes. The priority ranking criteria is detailed in the respective asset management plans.

### **5.10 Disposal Plan**

Disposal includes any activity associated with disposal of a decommissioned asset including sale, demolition or relocation.

Assets identified for possible decommissioning and disposal are shown in the respective asset management plans summarised in this strategic asset management plan.

Council has just demolished the existing swim centre with the replacement Salisbury Recreation Precinct to be constructed over the next 2 years. Where there are major upgrades of facilities such as Burton and the Operations Centre, Council have demolished part or all of the existing facilities. Similarly, where there is a merging of facilities as at the Paddocks, 3 buildings are being replaced with a single facility.

### 5.11 Assumptions and Confidence Levels

This section details the key assumptions made in presenting the information contained in this strategic asset management plan and in preparing forecasts of required operating and capital expenditure and asset values, depreciation expense and carrying amount estimates. It is presented to enable readers to gain an understanding of the levels of confidence in the data behind the financial forecasts.

Key assumptions made in this asset management plan and risks that these may change are shown in **Table 8**.

**Table 8 - Key Assumptions made in Strategic Asset Management Plan**

| Key Assumptions   | Risks of Change to Assumptions  |
|---|---|
| Financial values have been forecast as current year costs.  | Financial values will need to be adjusted for significant inflationary pressures in future annual and/or long term planning.  |
| Level of Service modifications will be within the current budgets where possible.                 | Level of Service at current asset lives are not financially sustainable in the long term, with either an increase in replacement lives for some assets and/or a reduction in levels of service for some assets required in the long term, or an adjustment to funding requirements is made. |
| The hub & new facilities operational costs will be offset by building & operational efficiencies. | The increased Levels of Service have seen an offset to the efficiency gains of the new facilities, with a significant increase in operating cost being seen for new facilities, with operating increasing in the Building area by \$500k.   |

The expenditure and valuations projections in this strategic asset management plan are based on best available data. Currency and accuracy of data is critical to effective asset and financial management.

The estimated confidence level for and reliability of data used in this strategic asset management plan is shown in **Table 9**.

**Table 9 - Data Confidence Assessment for AM Plans summarised in Strategic AM Plan**

| AM Plan              | Confidence Assessment | Comment  |
|----------------------|-----------------------|--|
| Drainage & Waterways | Medium                | Majority of assets have long lives and are only part way through lifecycle, high risk assets are routinely audited (dams) however Council is increasing the CCTV inspection frequency to further increase confidence levels in the understanding of the Pipe Network Condition.  |
| Parks & Streetscapes | High                  | Detailed playground audits are undertaken externally every 4-5 years and other minor asset classes are inspected routinely by internal staff.  |
| Street Trees         | High                  | Detailed audit undertaken in 2019 and asset management strategies are being revised for implementation based on new Levels of Service.   |
| Public Lighting      | High                  | Detailed audit undertaken in 2019 and asset management strategies are being revised for implementation.  |
| Transportation       | High                  | Council has completed a detailed audit this year of its roads, (both PCI and SCI) which gives high confidence in the development of the Renewal Program for the City over the next 5 years and confidence in the longer 20 year estimation of asset condition. Council's Footpath and Kerbs are audited every 2-3 years with renewal and maintenance programs revised accordingly. |
| Property & Building  | High                  | Building condition data is up to date with an audit recently completed, with function and capacity now the key criteria based on Customer Service Levels.  |
| Salisbury Water      | High                  | Assets are relatively new compared to other asset classes with planned reviews of asset data to revise asset management strategies.  |
| Plant & Fleet        | High                  | Fleet assets are typically short lived compared to other asset classes and asset management strategies are in place.   |

Overall data sources and confidence in that data is assessed as high, however the valuations of the assets are of concern, with an expectation of revaluations significantly increasing, due to current inflationary pressures. This inflationary pressure will significantly increase the cost to deliver the Renewal Program and increased funding requirements, should service levels not be reduced.

### 5.12 Improvement Plan

The asset management improvement tasks identified from an asset management maturity assessment and preparation of this strategic asset management plan are shown in **Table 10**.

Table 10 - Improvement Plan

| Task No | Task  | Responsibility                                | Resources Required                            | Timeline |
|---------|---|---|---|----------|
| 1       | Undertake a review asset hierarchy for all asset classes.   | Asset Managers                                | Asset Management Teams                        | JUN 2022 |
| 2       | Undertake a review of key Asset Classes including recommendations regarding Levels of Service based on new Hierarchies. | Team Leader Strategic Assets / Asset Managers | Asset Management Teams                        | SEP 2022 |
| 3       | Undertake financial modelling of Changes to service levels in key areas.  | Asset Managers                                | Asset Management Teams                        | SEP 2022 |
| 4       | Revise Council policies where applicable for key assets, in line with new service levels.                               | Asset Managers                                | Asset Management Teams                        | FEB 2023 |
| 5       | Revise individual Asset Management Operational Plans  | Asset Managers                                | Asset Management Teams                        | FEB 2023 |
| 6       | Revise Strategic Asset Management Plan for sign off by new Council  | Manager Infrastructure Management             | Team Leader Strategic Assets / Asset Managers | APR 2023 |
| 7       | Review 2023/24 budget bids based on service level changes completed in Sep 2022.  | Asset Managers                                | Asset Management Teams                        | DEC 2022 |
| 8       | Council undertake a detailed review of valuations for key assets.   | Asset Managers & Finance                      | Consultancy                                   | JUL 2022 |

## 6. Financial Summary

This section contains the collective financial requirements resulting from all the information presented in the previous sections of this SAMP and subordinate AM Plans. The financial projections to provide the targeted levels of service will be improved as further information becomes available on desired levels of service and current and projected future asset performance.

### 6.1 Financial Indicators and Projections Asset Renewal Funding Ratio

The Asset Renewal funding ratio indicates to what extent asset renewal is funded in the Long Term Financial Plan. It is calculated by dividing the projected capital renewal expenditure provided in each year of the LTFP by the renewal expenditure contained within the SAMP. Over the next 10 years Council is forecasting it has 100% of the funds to renew and replace existing assets. This is based on service levels contained within this document. Where service levels are increased this may mean that assets are renewed on a short time frame, and/or it may require upgrade expenditure to improve the asset to the planned new higher service level. As these decisions are taken, it requires consideration of trading off other asset service levels into, or accepting a need to increase funding for the service level increases. This must be done in a financially sustainable manner.

If service level decreases are not agreed as a long term change, and no additional funding is added, then this would create a gap between service level experienced and the service level desired but not funded, which is in effect what is termed a 'renewal backlog'. While this renewal backlog risk can be managed in the short to medium term it cannot be a long term solution as this generation of rate payers are not paying their fair share of the services they are consuming.

### 6.2 Funding Strategy

This Interim SAMP is consistent with Council's existing funding strategy and Long Term Financial Plan looking at both Capital and Operating Costs.

### 6.3 Expenditure Forecasts - Operations and Maintenance

The changes in operations and maintenance budgets as of 2020/21 are shown in **Figure 9** and **Figure 10**. Note that all costs are shown in current dollar values (i.e. real values). Potential operating increases are;

1. Resource Management NAWMA – Collection Contract increases
2. Northern Connector Asset & Land Handover – Yet to be finalised
3. Increased mowing and watering costs – due to new irrigated spaces
4. Increased verge maintenance – Additional no. of Cuts and Litter pickup
5. Increase in Levels of Service for some Informal and Formal Recreation destinations – including Fairbanks, Paddocks and an increase in Toilet Facilities in Reserves (4)

Figure 9 - Operations and Maintenance Expenditure Projections (pre 2020/21)

Figure 10 - Operations and Maintenance Expenditure Projections (post 2021/22)

### Capital Renewal Expenditure Projections

Projected future renewal and replacement expenditures are forecast to increase over time as Council’s assets reach the end of either their service or design lives. This forecast expenditure need has been accommodated in the organisation’s long-term financial plan as shown in **Figure 11** and **Figure 12**.

Figure 11 - Capital Renewal Projected Expenditure (pre 2020/21)

Figure 12 - Capital Renewal Projected Expenditure (post 2021/22)

Where renewal projections take into account asset register estimates of asset useful lives, the useful lives are documented in the relevant asset management plan(s).

**Capital New/Upgrade Projections**

Projected upgrade/new asset expenditures and estimated long-term financial plan outlays are summarised in **Figure 13** and **Figure 14**. All amounts are shown in today’s dollars.

Figure 13 - Capital New/Upgrade Projected Expenditure (pre 2020/21)

Figure 14 - Capital New/Upgrade Projected Expenditure (post 2021/22)

**Expenditure Projections linked to Long-Term Financial Plan**

Figure 15 and Figure 16 show the projected operations, maintenance, capital renewal, capital upgrade/new expenditure and these amounts have been accommodated in outlays shown in the long-term financial plan. Some activities and/or projects have been deferred to the 3 years beyond the 10 year financial planning period to allow further consideration of service level needs and financing options.

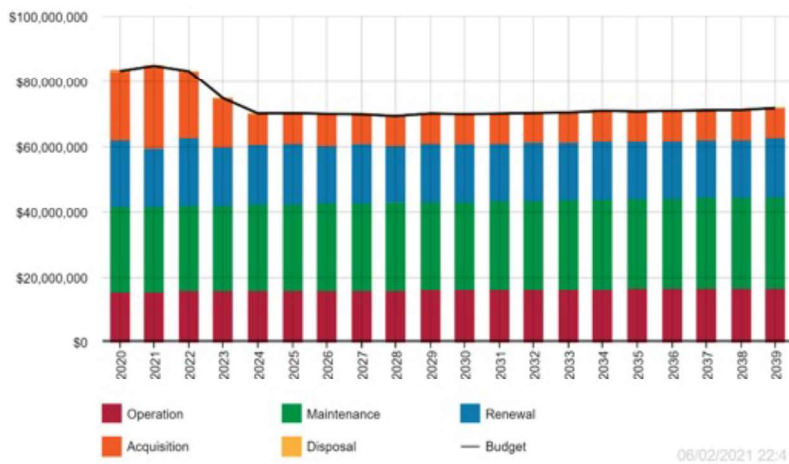

Figure 16 - Balanced Position Projected Operating and Capital Expenditure (post 2021/22)

The purpose of this strategic asset management plan is to develop the strategies to achieve the asset management objectives through balancing of asset service performance, cost and risk.

## 7. Conclusion

City of Salisbury is committed to continue to deliver a progressive, sustainable, connected community, providing Excellent Community Experience through its services in a financially affordable and sustainable manner. The Asset Management Data has significantly improved over the last 5 years, particularly with Tablets now in the Field, enabling Council to manage and maintain its' Assets in a financially sustainable manner to deliver these services to agreed levels of service.

This Strategic Asset Management Plan is an interim step in that it proposes expenditure across the asset classes to meet the endorsed levels of service, but has reduced the number of assets renewed or replaced, in some asset classes; recognising and accepting the risk associated with this decision. This is not a long term solution, as, in the long term, it ultimately leads to increases in operating expenditure in trying to maintain assets that have already reached their service or design life, and also delays the replacement of assets that should be replaced, using that funding to meet increased service levels of other assets.

Council is engaged in an Asset Management Improvement Process to further review structure and hierarchy of key asset classes and subsequent community levels of service, over the next 12 months. This will ensure that the Council's renewal /upgrade programs are financially sustainable, intergenerational equity is maintained, and the preventative and reactive maintenance programs and associated costs meet the Council's agreed levels of service in future years.

Asset managers have been continuing the Asset Management Improvement Plan, re-evaluating assets based on place and community services rather than condition and useful life. This process will continue over the next 12 months to confirm Useful Lives, Valuations, Capitalisation, and Function & Capacity of Assets to deliver services.

This will enable the Council to, for the first time, set funding for renewal and upgrade of assets, based on service continuity rather than condition and depreciation. This work will complete the process, begun three years ago, of moving Salisbury's Strategic Asset Management Plan from **core maturity** to nearing **advanced maturity**.
